**Development Through the Lifespan** Laura E. Berk 2007 Laura E. Berk Development Through the Lifespan, 4e What reviewers are saying... "This is the most engaging textbook I have reviewed or used... truly remarkable in its depth, research and professional, personable, and engaging writing style... This book sets a new standard of excellence...I especially liked the excellent applications-implications included... far superior to nearly all other texts I am familiar with." " -Dale Lund, University of Utah "One of the strengths of this book is a sense that we are learning from someone who is both a great scholar and a very wise and experienced person. Berk has credibility on both a professional and personal level . . . [The text] also offers a sense that my students are getting exposure to the best research and ideas available in my field." -David Shwalb, Southeastern Louisiana University "[I appreciate the] great use of concrete, real-life examples of the various concepts throughout the chapter. This is incredibly helpful for students' learning and retention of the material." -Tracie Blumentritt, University of Wisconsin La Crosse "I especially like the way Dr. Berk addresses policy in this text... the Social Issues boxes are very useful in engaging students in topics of real-life

importance that go beyond the individual." " -Ashley Maynard, University of Hawaii "This is a high-quality text with wonderful pedagogical features." " - Laurie Gruntmeir, Redlands Community College "One of the greatest strengths of any Berk book on human development is the quality of the research the author selects for inclusion. The timeliness and relevancy of the selected research goes a long way in enhancing the caliber of the information. The author has created a good blend of historic, classic, contemporary, and practical research, which is appropriate for the topics covered." " -Lanthan Camblin, University of Cincinnati "Chapter 8 is outstanding . . . The discussion of the factors that influence social and emotional adaptation illustrates the complexity of development, but in a highly readable and understandable fashion." " -Byron Egeland, University of Minnesota "Chapter 19 is extraordinary. Other textbooks pay lip service to the topic (of death, dying and bereavement) and have the tendency to gloss over the material. Berk has written a phenomenal chapter... it is thorough, sensitive, and well written." "-Cheryl Anagnopoulos, Black Hills State University

*Development Through the Lifespan , Books a la Carte Edition* Laura E. Berk 2017-01-11

Awakening Children's Minds Laura E. Berk 2004-05-06 Parents and teachers today face a swirl of conflicting theories about child rearing and educational practice. Indeed, current guides are contradictory, oversimplified, and at odds with current scientific knowledge. Now, in *Awakening Children's Minds*, Laura Berk cuts through the confusion of competing theories, offering a new way of thinking about the roles of parents and teachers and how they can make a difference in children's lives. This is the first book to bring to a general audience, in lucid prose richly laced with examples, truly state-of-the-art thinking about child rearing and early education. Berk's central message is that parents and teachers contribute profoundly to the development of competent, caring, well-adjusted children. In particular, she argues that adult-child communication in shared activities is the wellspring of psychological development. These dialogues enhance language skills, reasoning ability, problem-solving strategies, the capacity to bring action under the control of thought, and the child's cultural and moral values. Berk explains how children weave the voices of more expert cultural members into dialogues with themselves. When puzzling, difficult, or stressful circumstances arise, children call on this private speech to guide and control their thinking and behavior. In addition to providing clear roles for parents and teachers, Berk also offers concrete suggestions for creating and evaluating quality educational environments--at home, in child care, in preschool, and in primary school--and addresses the unique challenges of helping children with special needs. Parents, Berk writes, need a consistent way of thinking about their role in children's lives, one that can guide them in making effective child-rearing decisions. *Awakening Children's Minds* gives us the basic guidance we need to raise caring, thoughtful, intelligent children.
