The exercises and concepts presented in the book will enhance all areas of drumming-time keeping, fills and solo ideas. The highlight of the book (and what makes this book different than any other hand technique books out there) is the musical concepts created with Henrique's "hybrid" sticking system. This new way of practicing mirrors the way we play in real life. This book mixes all the important hand techniques together like never before! Single strokes, accents & rebounds, push & pull, double strokes, paradiddle, basic Moeller strokes, flams, finger control, diddle combinations, odd-groupings-stickings, musical applications with phrasing & flow & music forms, development of solo & Improvisation skills. Stop hauling 40 books around and start saving time and money by practicing all you need for hand technique in one book! This book is not a departure from the teachings of traditional hand technique, it is, however a culmination of the teachings of the top hand technique masters, now in one single book! The materials presented in the book have been well tested over several years and have proven to facilitate great results. The final goal is for the student to be able to be free to express music ideas as close to what he or she imagines as possible. This book present the tools to training your hands and mind so the hands will obey the thoughts behind the ideas quickly resulting in an immediate sound picture of the desired phrase. Playing what we imagine with immediacy, without glitches is the goal of the entire book. "Henrique has the best hand technique of any drummer I've known.
