**The Bill Cook Story II** Bob Hammel 2015-02-23 A look into the final years of the billionaire entrepreneur and philanthropist and his work in historic preservation in Indiana. Working from the spare bedroom of his Bloomington, Indiana, apartment in 1963 with a \$1,500 investment, Bill Cook began to construct the wire guides, needles, and catheters that would become the foundation of the global multi-billion-dollar Cook Group. This story has been eloquently told in Bob Hammel's *The Bill Cook Story: Ready, Fire, Aim*. The sequel to this story explores Cook's final years, when the restoration work he championed, epitomized by the spectacular West Baden Hotel, became a driving force in his life and a source of great satisfaction and pleasure. Hammel takes us behind the scenes on the important restorations of Beck's Mill, a Methodist Church that is now Indiana Landmarks Center, and the remarkable commitment of Cook toward reviving his hometown, Canton, Illinois. At the heart of the book are the events of Bill Cook's final days and his death in April, 2011, but this solemn chronicle soon gives way to fond recollections of Cook's extraordinary life and legacy, and to the continuing saga of the company he founded as it looks toward a bright future. "In *The Bill Cook Story II: The Re-Visionary*, Bob Hammel engagingly highlights several of Cook's major restoration efforts, and also chronicles how he remained dedicated to such work even as his health failed." —Indiana Magazine of History

**Stolen World** Jennie Erin Smith 2011-01-04 Tortoises disappear from a Madagascar reserve and reappear in the Bronx Zoo. A dead iguana floats in a jar, awaiting its unveiling in a Florida court. A viper causes mayhem from Ethiopia to Virginia. In *Stolen World*, Jennie Erin Smith takes the reader on an unforgettable journey, a dark adventure over five decades and six continents. In 1965, Hank Molt, a young cheese salesman from Philadelphia, reinvented himself as a "specialist dealer in rare fauna," traveling the world to collect exquisite reptiles for zoos and museums. By the end of the decade that followed, new endangered species laws had turned Molt into a convicted smuggler, and an unrepentant one, who went on to provide many of the same rare reptiles to many of the same institutions, covertly. But Molt soon found a rival in Tommy Crutchfield, a Florida carpet salesman with every intention of usurping Molt as the most accomplished reptile smuggler in the country. Like Molt, Crutchfield had modeled himself after an earlier generation of natural-history collectors celebrated for their service to science, an ideal that, for Molt and Crutchfield, eclipsed the realities of the new wildlife-protection laws. Zoo curators, caught between a desire for rare animals and the conservation-minded focus of their institutions, became the smugglers' antagonists in court but also their best customers, sometimes simultaneously. Crutchfield forged ties with a criminally inclined Malaysian wildlife trader and emerged a millionaire, beloved by some of the finest zoos in the world. Molt, following a string of inventive but disastrous smuggling schemes in New Guinea, was reduced to hanging around Crutchfield's Florida compound, plotting Crutchfield's demise. The fallout from their feud would result in a major federal investigation with tentacles in Germany, Madagascar, Holland, and Malaysia. And yet even after prison, personal ruin, and the depredations of age, Molt and Crutchfield never stopped scheming, never stopped longing for the snake or lizard that would earn each his rightful place in a world that had forgotten them—or rather, had never recognized them to begin with.

The Woods Amber McMillan 2016-10-01 "The Woods is the cure-all to Perfect Island Getaway nostalgia. It's a story of everyday domestic survival, peopled by both loveable eccentrics and possibly murdersome cranks, foregrounding the little-known history of violence on Protection Island. Amber McMillan's writing balances an eye for the unusual and resiliently beautiful with a sympathy for the frailties common to all her islanders." —Kevin Chong, author of *Baroque-a-Nova*, *Neil Young Nation* and *Beauty Plus Pity* \* *The Woods: A Year on Protection Island* is a book of non-fiction stories that probes and witnesses the unique and sometimes unsettling atmosphere of small town-island life in the Georgia Strait. The measure of one's success here doesn't rely on status or income, but on the skillful handling of neighbours, the resourcefulness for survival, and the adaptation to both the rigorous outdoors of the Pacific Northwest and equally challenging human community of need, trade, and negotiated civility. These are stories of the people and families who sought refuge here, for different reasons and with different outcomes: Keith, a cross-dressing retired sea captain who can't overcome the death of his wife; Steve, the contractor who escapes his deaf wife and the silence of his domestic life by perfecting his

physical property, using only the loudest of electric chainsaws and lawnmowers from morning until dusk; Cris, the seventy-six-year-old library curator who has recently discovered scotch whiskey and sex again after twenty-five years; and of various other transplants making their way through the murky terrain of living on an island. Like no other community on Earth, this small place is packed with secret corners, eerie histories and a whispering darkness. This is the complicated convergence of human capacities: from homicides (both in the same house, unrelated and years apart) to some of the greatest gestures of generosity, social reform and equality. This is the place of the close-up encounter of who we are stripped of distractions and escapist entertainment; who we are in the woods.

**Commander in Cheat** Rick Reilly 2019-04-02 NEW YORK TIMES BESTSELLER "Reilly pokes more holes in Trump's claims than there are sand traps on all of his courses combined. It is by turns amusing and alarming." -- The New Yorker "Golf is the spine of this shocking, wildly humorous book, but humanity is its flesh and spirit." -- Chicago Sun-Times "Every one of Trump's most disgusting qualities surfaces in golf." -- The Ringer An outrageous indictment of Donald Trump's appalling behavior when it comes to golf -- on and off the green -- and what it reveals about his character. Donald Trump loves golf. He loves to play it, buy it, build it, and operate it. He owns 14 courses around the world and runs another five, all of which he insists are the best on the planet. He also claims he's a 3 handicap, almost never loses, and has won an astonishing 18 club championships. How much of all that is true? Almost none of it, acclaimed sportswriter Rick Reilly reveals in this unsparing look at Trump in the world of golf. Based on Reilly's own experiences with Trump as well as interviews with over 100 golf pros, amateurs, developers, and caddies, Commander in Cheat is a startling and at times hilarious indictment of Trump and his golf game. You'll learn how Trump cheats (sometimes with the help of his caddies and Secret Service agents), lies about his scores (the "Trump Bump"), tells whoppers about the rank of his courses and their worth (declaring that every one of them is worth \$50 million), and tramples the etiquette of the game (driving on greens doesn't help). Trump doesn't brag so much, though, about the golf contractors he stiffes, the course neighbors he intimidates, or the way his golf decisions wind up infecting his political ones. For Trump, it's always about winning. To do it, he uses the tricks he picked up from the hustlers at the public course where he learned the game as a college kid, and then polished as one of the most bombastic businessmen of our time. As Reilly writes, "Golf is like bicycle shorts. It reveals a lot about a man." Commander in Cheat "paints a side-splitting portrait of a congenital cheater" (Esquire), revealing all kinds of unsightly truths Trump has been hiding.
