Concepts of Biology Samantha Fowler 2018-01-07 Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

A Modest Proposal Jonathan Swift 2021-08-18 A Modest Proposal Jonathan Swift - To ease poverty in Ireland by eating the children of the poor was the satirical 'solution' suggested by Jonathan Swift in his essay 'A Modest Proposal' (1729). Here Swift unleashes the full power of his ironic armoury and corrosive wit, finding his targets - the British ruling class and avaricious landlords, and the brutalized Irish, complicit in their own oppression - with deadly precision.

Cliffsnotes AP Biology 2021 Exam Phillip E. The Pluto Files: The Rise and Fall of America's Favorite Planet Neil deGrasse Tyson 2010-07-12 The New York Times bestseller: "You gotta read this. It is the most exciting book about Pluto you will ever read in your life." —Jon Stewart When the Rose Center for Earth and Space at the American Museum of Natural History reclassified Pluto as an icy comet, the New York Times proclaimed on page one, "Pluto Not a Planet? Only in New York." Immediately, the public, professionals, and press were choosing sides over Pluto's planethood. Pluto is entrenched in our cultural and emotional view of the cosmos, and Neil deGrasse Tyson, award-winning author and director of the Rose Center, is on a quest to discover why. He stood at the heart of the controversy over Pluto's demotion, and consequently Plutophiles have freely shared their opinions with him, including endless hate mail from third-graders. With his inimitable wit, Tyson delivers a minihistory of planets, describes the oversized characters of the people who study them, and recounts how America's favorite planet was ousted from the cosmic hub.

Biology for AP® Courses Julianne Zedalis 2017-10-16 Biology for AP® courses covers the scope and sequence requirements of a typical two-semester Advanced Placement® biology course. The text provides comprehensive coverage of foundational research and core biology concepts through an evolutionary lens. Biology for AP® Courses was designed to meet and exceed the requirements of the College Board's AP® Biology framework while allowing significant flexibility for instructors. Each section of the book includes an introduction based on the AP® curriculum and includes rich features that engage students in scientific practice and AP® test preparation; it also highlights careers and research opportunities in biological sciences.

State of the Union Addresses Franklin D. Roosevelt 2022-06-02 The 1934 State of the Union Address was given by the 32nd president of the United States, Franklin D. Roosevelt. It was the first State of the Union address to be given in January. Excerpt: "Now that we are definitely in the process of recovery, lines have been rightly drawn between those to whom this recovery means a return to old methods—and the number of these people is small—and those for whom recovery means a reform of many old methods, a permanent readjustment of many of our ways of thinking and therefore of many of our social and economic arrangements... "
