Not Out Of Africa Mary Lefkowitz 2008-08-04 Not Out of Africa has sparked widespread debate over the teaching of revisionist history in schools and colleges. Was Socrates black? Did Aristotle steal his ideas from the library in Alexandria? Do we owe the underlying tenets of our democratic civilization to the Africans? Mary Lefkowitz explains why politically motivated histories of the ancient world are being written and shows how Afrocentrist claims blatantly contradict the historical evidence. Not Out of Africa is an important book that protects and argues for the necessity of historical truths and standards in cultural education. For this new paperback edition, Mary Lefkowitz has written an epilogue in which she responds to her critics and offers topics for further discussion. She has also added supplementary notes, a bibliography with suggestions for further reading, and a glossary of names.

The Flying Saucers Have Landed George Adamski 2017-11-06 If Adamski and the six companions who swore an affidavit to his Space Man encounter are not trying to pull off a gigantic hoax, then this is quite possibly the greatest story ever." That was what the Daily Sketch wrote about "Flying Saucers Have Landed." For, in the second part of this book, Adamski swears that he saw a space ship land in the desert in California and that he made contact with one of its occupants. More, he provides considerable testimony to support his claims. Desmond Leslie, who contributes the first part of the book, goes even further, asserting that flying saucers have been landing on earth for thousands of years, and gives records of their arrivals

Heal Yourself with Sunlight Andreas Moritz 2007-04 In *Heal Yourself with Sunlight*, Andreas Moritz has provided scientific evidence that sunlight is essential for good health, and that a lack of sun exposure can be held responsible for many of today's ailments. Sunlight is a nutrient, a medicine, a remedy, all at once. It is not some bottled compound you can find at a drug store alone. It is naturally available to everyone. The dosage is under your control and your body easily tells you when you have had just about the right amount of it. Unfortunately, even though sunlight is readily available all through the day, many people fail to profit from it. Read this book to learn how you can harness sunlight, nature's most potent and curative powers, for maintaining good health. It is a misconception that the sun is the main culprit for causing skin cancer, certain cataracts leading to blindness, and aging. Research has actually shown that most skin cancers occur among those who rarely ever spend time in the sun or who use sunscreens filled with carcinogenic chemicals. It has been known for several decades that those living mostly in the outdoors, at high altitudes, or near the equator, have the lowest incidence of skin cancers and are among the healthiest people on the planet. Patients suffering from gout, rheumatoid arthritis, colitis, arteriosclerosis, diabetes, cancer, hypertension, tuberculosis, anemia, cystitis, eczema, acne, psoriasis, herpes, lupus, sciatica, kidney problems, asthma, as well as burns, have all shown to receive great benefit from the healing rays of the sun. *Heal Yourself With Sunlight* tells you, among other things, how Vitamin D, which the skin produces in response to sun exposure, keeps the body's immune system strong, prevents the bone-thinning disease osteoporosis, and reverses numerous types of cancer, among many other illnesses. Sunlight is the ultimate source of life on earth and the ideal panacea to increase the effectiveness of every other healing modality. Unlike drugs, surgery or radiation, sunlight costs nothing, has no harmful side-effects, and foremost of all, it makes you feel good.

Inside the Space Ships George Adamski 2018-03-12 What has happened to George Adamski since he wrote the famous incidents in *Flying Saucers Have Landed*? Since the memorable November 20, 1952, when he first made personal contact with a man from another world? Since December 13, 1952 when he was able to make photographs within 100 feet of the same saucer that had brought his original visitor? *Inside The Space Ships* is Adamski's own story of what has happened to him since then. It begins with his first meeting, a few months later, with a second man from another world—his first meeting with one who speaks to him. This second visitor brings him to a Venusian Scout (flying saucer) and this, in turn, brings him to a mother ship. Later he is conveyed in both a Saturnian Scout and a Saturnian mother ship. Adamski tells us what transpires in these space craft and what the men and women from other worlds have told him. Adamski's photographs of flying saucers, originally published in *Flying Saucers Have Landed*, have since become world-famous as other witnesses in other parts of the world have succeeded in taking photographs identical with his. Now, however, in *Inside The Space Ships*, Adamski gives us 16 photographs and illustrations, no longer of Scouts (flying saucers) mostly, but of the great space ships from which they are launched. The main group of these photographs was taken in April, 1955, and neither the photographs nor a description of them has ever been published before.

The Creation of Health Caroline Myss 2009-09-23 A collaboration between a traditionally trained physician and a medical intuitive, *The Creation of Health* illuminates the deep connection between emotional dysfunction and physical illness. It describes the role that emotional disturbances play in the most common diseases and ailments from the common cold to arthritis, diabetes, heart disease, and cancer. After providing an introduction to intuitive medicine and its history, method of diagnosis, and relationship to traditional medicine, Myss and Shealy detail the deeper emotional and psychic reasons why illness develops in the body. Dr. Shealy offers a traditional account of a particular disease or ailment, while Dr. Myss sheds light on the deeper causes through her corresponding energy analysis. Confirming the link between illness and emotion, *The Creation of Health* puts forth a groundbreaking vision of holistic healing.

The Tujunga Canyon Contacts Ann Druffel 2008-07 *THE TUJUNGA CANYON CONTACTS* tells the true stories of five young women "abductees" who lived in and near Tujunga Canyon, northeast of Los Angeles, and who were all linked by more or less intimate personal relationships. The abductions and related events, which took place over a period of more than two decades, were first investigated by UFO researcher Ann Druffel for five full years, and later by Druffel and parapsychologist D. Scott Rogo together. Many of the abduction details first revealed in the Tujunga Canyon case have been confirmed in the hundreds of cases that followed it. First published during the peak of the 20th century's UFO abduction epidemic, *THE TUJUNGA CANYON CONTACTS* was only the second book written about so-called "alien abductions." This edition of the classic work contains the two new chapters prepared for the updated version of the book. During this updating of the story, Druffel first realized that abduction scenarios can be fended off by strong-willed, confident experiencers, since three of the five young women intuitively discovered, and used, various "resistance techniques" to fend off, and eventually end, the harrowing attacks.
