**Making an American Festival** Chiou-ling Yeh 2008-09-02 This provocative history of the largest annual Chinese celebration in the United States—the Chinese New Year parade and beauty pageant in San Francisco—opens a new window onto the evolution of one Chinese American community over the second half of the twentieth century. In a vividly detailed account that incorporates many different voices and perspectives, Chiou-ling Yeh explores the origins of these public events and charts how, from their beginning in 1953, they developed as a result of Chinese business community ties with American culture, business, and politics. What emerges is a fascinating picture of how an ethnic community shaped and was shaped by transnational and national politics, economics, ethnic movements, feminism, and queer activism.

*The General Theory of Employment, Interest, and Money* John Maynard Keynes 2019-10-05 The General Theory of Employment, Interest, and Money, written by legendary author John Maynard Keynes is widely considered to be one of the top 100 greatest books of all time. This masterpiece was published right after the Great Depression. It sought to bring about a revolution, commonly referred to as the 'Keynesian Revolution', in the way economists thought—especially challenging the proposition that a market economy tends naturally to restore itself to full employment on its own. Regarded widely as the cornerstone of Keynesian thought, this book challenged the established classical economics and introduced new concepts. 'The General Theory of Employment, Interest, and Money' transformed economics and changed the face of modern macroeconomics. Keynes' argument is based on the idea that the level of employment is not determined by the price of labour, but by the spending of money. It gave way to an entirely new approach where employment, inflation and the market economy are concerned.

**Fragmentation in Ancient Greek Drama** Anna A. Lamari 2020-08-10 This volume examines whether dramatic fragments should be approached as parts of a greater whole or as self-contained entities. It comprises contributions by a broad spectrum of international scholars: by young researchers working on fragmentary drama as well as by well-known experts in this field. The volume explores another kind of fragmentation that seems already to have been embraced by the ancient dramatists: quotations extracted from their context and immersed in a new whole, in which they work both as cohesive unities and detachable entities. Sections of poetic works circulated in antiquity not only as parts of a whole, but also independently, i.e. as component fractions, rather like quotations on facebook today. Fragmentation can thus be seen operating on the level of dissociation, but also on the level of cohesion. The volume investigates interpretive possibilities, quotation contexts, production and reception stages of fragmentary texts, looking into the ways dramatic fragments can either increase the depth of fragmentation or strengthen the intensity of cohesion.

Written by an elite author team, this comprehensive resource provides a clear and concise approach to using VB 2008 in the ever-expanding .NET world. This book focuses on using the latest and most powerful tools from the Microsoft arsenal within your Visual Basic solutions. You'll examine everything from the .NET Framework to the best practices for deploying .NET applications to database access and integrating with other technologies.

*The Force of The Umbrella Academy* Lisann Anders 2021-11-02 Even as the major superhero film franchises appear to be exhausting their runs The Umbrella Academy demonstrates that the superhero genre is still extremely effective at creating role models with lasting psychological resonance and allegories with extraordinary emotional impact. These essays give a voice to the misunderstood family members of The Umbrella Academy in the comic book series and its highly popular Netflix adaptation. They explore different forces like individualism, identity, family, and feminism. One of the most striking features that unites these concepts is the linkage between violence with voice, as well as violence's aestheticized depiction.

*The Entrepreneur's Guide to Law and Strategy* Constance E. Bagley 2017-02-21 Business Insider calls The ENTREPRENEUR'S GUIDE "perhaps the most useful business book you can ever read" and lists it among twenty-five must-read books for entrepreneurs. THE ENTREPRENEUR'S GUIDE TO LAW AND STRATEGY, 5E examines stages of starting a business -- from start-up and growth to public offering, while highlighting legal preparations and pitfalls. Cutting-edge examples show how legally astute entrepreneurs can strategically increase realizable value, deploy resources, and manage risk. The book discusses leaving a job, hiring

former coworkers, competing with a former employer, workplace legislation, product liability, and bankruptcy. You examine current issues including today's workforce in the "gig" economy, "crowdsourcing" capital and social media, computer hacking and identity theft. Legal discussion integrates with core strategic concepts, such as Porter's Five Forces, the resource-based view of the firm, the value proposition, activities in the value chain and more. Spectacular Girls Sarah Projansky 2014-02-07 Winner of the 2015 Bonnie Ritter Book Award from the National Communication Association As an omnipresent figure of the media landscape, girls are spectacles. They are ubiquitous visual objects on display at which we are incessantly invited to look. Investigating our cultural obsession with both everyday and high-profile celebrity girls, Sarah Projansky uses a queer, anti-racist feminist approach to explore the diversity of girlhoods in contemporary popular culture. The book addresses two key themes: simultaneous adoration and disdain for girls and the pervasiveness of whiteness and heteronormativity. While acknowledging this context, Projansky pushes past the dichotomy of the "can-do" girl who has the world at her feet and the troubled girl who needs protection and regulation to focus on the variety of alternative figures who appear in media culture, including queer girls, girls of color, feminist girls, active girls, and sexual girls, all of whom are present if we choose to look for them. Drawing on examples across film, television, mass-market magazines and newspapers, live sports TV, and the Internet, Projansky combines empirical analysis with careful, creative, feminist analysis intent on centering alternative girls. She undermines the pervasive "moral panic" argument that blames media itself for putting girls at risk by engaging multiple methodologies, including, for example, an ethnographic study of young girls who themselves critique media. Arguing that feminist media studies needs to understand the spectacularization of girlhood more fully, she places active, alternative girlhoods right in the heart of popular media culture.

Vampire Royals 1: The Pageant Leigh Walker 2018-10-30 "Without a doubt my favorite series ever!" - Book Review Who's the fairest of them all? Young women from every settlement in the land are being handpicked to enter The Pageant, a contest reminiscent of Miss Universe from the old days. Gwyneth West's social-climbing mother wants her to compete, but Gwyn isn't so sure... The Pageant is government-sponsored. If you're lucky enough to be chosen, participation is mandatory. Aggressive competition is allowed, even encouraged. And then there's the prize... Dallas Black, otherwise known as The Dark Prince, will propose to the winner. Dallas is the son of King Black, who won the last world war and governs the new settlements. The Royal Family is mysterious. Rumor has it they don't sleep. Rumor has it they eschew the sun. Rumor has it they're immortal. When Gwyn is thrust into The Pageant, she fights to survive the competitive nature of the other contestants. But even if she wins...can she survive a vampire fiancé?

**Ice Cream Review** 1940

American Photo 1992-03

Stealing Innocence NA NA 2016-04-30 Continuing his ongoing social critique, Henry Giroux now looks at the way corporate culture is encroaching on the lives of children by exploring three myths prevalent in our society: that the triumph of democracy is related to the triumph

of the market; that children are unaffected by power and politics; that teaching and learning are no longer linked to improving the world. Looking at childhood beauty pageants, school shootings and the omnipresent nihilistic chic of advertising, Giroux paints a disturbing picture of the world surrounding our children. Ultimately, he turns to the work of Antonio Gramsci, Paulo Freire and Stuart Hall for lessons about how we can reinstitute a realistic childhood for our children.

*Queens of Academe* Karen W. Tice 2012-03-09 Universities are unlikely venues for grading bodies, beauty, poise, and style. Nonetheless, thousands of college women have sought not only college diplomas but campus beauty titles and tiaras throughout the twentieth century, and the cultural power of beauty pageants continues into the twenty-first. In *Queens of Academe*, Karen W. Tice asks how, and why, does higher education remain in the beauty and body business and with what effects on student bodies and identities. Drawing on archival research and interviews as well as hundreds of hours observing college pageants on predominantly black and white campuses, Tice argues the pageants help to illuminate the shifting iterations of class, race, religion, culture, sexuality, and gender braided into campus rituals and student life. Moving beyond a binary of objectification versus empowerment, Tice offers a nuanced analysis of the making of idealized collegiate masculinities and femininities, and the stylization of higher education itself.
