Blue Fox Tom Gnagey 2021-08-12 *Blue Fox: Boy of the Backwater Boarding School* is a novel written for adults and near adults. It is not a gentle story; to be honest it couldn't be. The story is set in 1870 among Indigenous Americans in the pristine upper Midwest - straddling the US Canadian border. It wrestles with everything dreadful about the retraining schools for American Indian children. The schools were created by the US and Canadian governments and run by Christian churches to force the youngest Indians to renounce everything Indian and accept everything white-man-Christian. It paints a picture of brotherly love and loyalty, devotion to family, and to the positive values the Indian villages presented for their children. The young characters - the title boy, age 14 and his younger brother - 10 - bring to life the loving ways they knew among their tribe and contrasts that with the life of punishment, humiliation, and pain within the walls of the Backwater Boarding School (fictional). The story is based on voluminous reports of the painful and inhuman treatment documented in oral history and by many of the residents' sworn statements before they died in old age. Along the way, the boys explore the great questions of life and the universe; their experiences and situation often does not allow them to find the answers one would wish for them. Amid the tragedy and constant fear, they find some humor and purpose. The reader will be caught up in the excitement and adventure, he will hurt with children during bad times, and be pleased for them when they achieve little victories. He will loathe the bad guys and weep for the children. He will cheer, teary eyed, for the youngsters as the story swirls to its climax in the final, heroic, chapter. The thoughtful reader will encounter new perspectives and discover new questions with which she and he must thoughtfully wrestle.

Red, White & Royal Blue Casey McQuiston 2019-05-14 * Instant NEW YORK TIMES and USA TODAY bestseller ** GOODREADS CHOICE AWARD WINNER for BEST DEBUT and BEST ROMANCE of 2019 * * BEST BOOK OF THE YEAR* for VOGUE, NPR, VANITY FAIR, and more! * What happens when America's First Son falls in love with the Prince of Wales? When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instagramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and the power, to be the people we are meant to be? And how can we learn to let our true colors shine through? Casey McQuiston's *Red, White & Royal Blue* proves: true love isn't always diplomatic. "I took this with me wherever I went and stole every second I had to read! Megan Fox Kathleen Tracy 2011-08 Megan Fox is the poster child for empowered women: she's part glamour girl and part action-adventure heroine. Outspoken and controversial, Fox has a disarming sense of humor about herself and is the first to admit she has yet to prove herself a serious actress. Despite her movie star looks, life wasn't always easy for Fox. Born and raised in a very strict Tennessee family, Fox was bullied so badly in school she started eating her lunch while hiding in a bathroom stall. Being an outcast in school prompted her to put all her energies into performing. She appeared in her first movie at sixteen and never looked back. Within five years she was starring opposite Shia LaBeouf in Transformers, the movie that made her a star and one of the most photographed women in the world. This book recounts her journey from the hills of Tennessee to international fame and reveals the girl-next-door side of Fox rarely seen.

From the Mouth of the Whale Sjón 2019-11-07 Shortlisted for the Independent Foreign Fiction Prize and the International IMPAC Dublin Literary Award 'A terrific read...an extraordinarily accomplished novel' Independent 'Kaleidoscopic and mesmerising, comic and poignant' TLS In this magical evocation of a vanished age, a poet and self-taught healer is banished in 1635 to a barren island off Iceland - a place darkened by superstition, poverty and cruelty. With only a purple sandpiper for company, Jónas Pálmason retraces his path to exile, recalling his exorcism of a walking corpse, the massacre of innocent Basque whalers at the hands of local villagers and the deaths of three of his children. But amid the cacophony of Copenhagen he will find hope and, finally, recognition of his enlightened ideas.

CoDex 1962 Sjón 2018-09-11 Spanning eras, continents, and genres, CoDex 1962—twenty years in the making—is Sjón's epic three-part masterpiece Over the course of four dazzling novels translated into dozens of languages, Sjón has earned a global reputation as one of the world's most interesting writers. But what the world has never been able to read is his great trilogy of novels, known collectively as CoDex 1962—now finally complete. Josef Löwe, the narrator, was born in 1962—the same year, the same moment even, as Sjón. Josef's story, however, stretches back decades in the form of Leo Löwe—a Jewish fugitive during World War II who has an affair with a maid in a German inn; together, they form a baby from a piece of clay. If the first volume is a love story, the second is a crime story: Löwe arrives in Iceland with the clay-baby inside a hatbox, only to be embroiled in a murder mystery—but by the end of the

volume, his clay son has come to life. And in the final volume, set in present-day Reykjavík, Josef's story becomes science fiction as he crosses paths with the outlandish CEO of a biotech company (based closely on reality) who brings the story of genetics and genesis full circle. But the future, according to Sjón, is not so dark as it seems. In *CoDex 1962*, Sjón has woven ancient and modern material and folklore and cosmic myths into a singular masterpiece—encompassing genre fiction, theology, expressionist film, comic strips, fortaean studies, genetics, and, of course, the rich tradition of Icelandic storytelling.

The Fur Farms of Alaska Sarah Crawford Isto 2012-03-15 After its rudimentary beginning in 1749, fur farming in Alaska rose and fell for two centuries. It thrived during the 1890s and again in the 1920s, when rising fur prices caused a stampede for land and breed stock and led to hundreds of farms being started in Alaska within a few years. The Great Depression, and later the development of warm, durable, and lightweight synthetic materials during World War II, brought further decline and eventual failure to the industry as the postwar economy of Alaska turned to defense and later to oil. *The Fur Farms of Alaska* brings this history to life by capturing the remarkable stories of the men and women who made fur their livelihood. "For more than 200 years 'soft gold' brought many people to Alaska. Fur farming was Alaska's third-largest industry in the 1920s, and Sarah Isto writes of the many efforts, successes, and ultimately of the fur farming industry's failure. This well-researched history contextualizes current fox elimination projects on Alaska islands and explains the abandoned pens one stumbles across. This is a story that has long needed to be written."—Joan M. Antonson, Alaska State Historian

Tewa Tales Elsie Clews Parsons 1994-03-01 The Tewa are a Pueblo Indian group from New Mexico, some of whom migrated around 1700, in the aftermath of the second Pueblo Revolt, to their present location on First Mesa of the Hopi Reservation in northern Arizona. This collection of more than one hundred tales from both New Mexico and Arizona Tewa, first published in 1926, bears witness to their rich cultural history. In addition to emergence and animal stories, these tales also provide an account of many social customs such as wedding ceremonials and relay racing--that show marked differences between the two tribal groups. A comparison of tales from the two divisions of the tribe reveals something of what has happened to both emigrant and home-staying Tewa over two centuries of separation. Yet, while only half of the Arizona tales are distinctly parallel to the New Mexican, additional similarities may be found in such narrative features as the helpfulness of Spider old woman and her possession of medicine, creating life magically under a blanket, or Coyote beguiling girls into marriage. Elsie Clews Parsons was a pioneering anthropologist in the Southwest whose works included the encyclopedic *Pueblo Indian*

Religion. The Tewa tales she gathered for this volume are thus notable not only as fascinating stories that will delight curious readers, but also as authentic reflections of a people less known to scholars.

The Blue Grass Cook Book Minnie C. Fox 2007-09-05 This 1904 book is a loving testament to the power of food-inspired memory, while being evocative of the sights, smells, and tastes of Kentucky in the 1900s. Most importantly, the book was groundbreaking, over one hundred years ago, in its celebration of the vital role Black women played in building and sustaining the tradition of Southern cooking and Southern hospitality. It is full of authentically regional Kentucky recipes. While brain croquettes may not be on everyone's menu today, there are few who can resist the 10 variations on corn bread, or the multiplicity of recipes for biscuits, or the wealth of ice cream flavors and desserts.
