*Picture Composition* Peter Ward 2002-11-12 Behind each shot there lies an idea or purpose. When setting up a shot, the camera operator can employ a range of visual techniques that will clearly communicate the idea to an audience. Composition is the bedrock of the operator's craft, yet is seldom taught in training courses in the belief that it is an intuitive, personal skill. Peter Ward shows how composition can be learned, to enhance the quality of your work. Based on the author's own practical experience, the book deals with the methods available for resolving practical production questions such as: Does the shot composition accurately reflect the idea that initiated the shot? Will the content and method of presenting the subject accurately convey the idea? Major innovations in television and film production since the previous edition have affected the styles of composition, such as wide-screen and the use of mini DV cameras. These new technologies and their implications for picture composition are addressed in this new edition. A new colour plate section is also being included to update the section on colour. If you are a practising camera operator, trainee camera operator, student or lecturer on a television or film production course, or simply a video enthusiast wishing to progress to a more professional standard you will find this book essential in enhancing the quality of your work.

**Encyclopedia of the Cold War** Ruud van Dijk 2013-05-13 Between 1945 and 1991, tension between the USA, its allies, and a group of nations led by the USSR, dominated world politics. This period was called the Cold War – a conflict that stopped short to a full-blown war. Benefiting from the recent research of newly open archives, the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose, developed, and was resolved. This work examines the military, economic, diplomatic, and political evolution of the conflict as well as its impact on the different regions and cultures of the world.

Using a unique geopolitical approach that will present Russian perspectives and others, the work covers all aspects of the Cold War, from communism to nuclear escalation and from UFOs to red diaper babies, highlighting its vast-ranging and lasting impact on international relations as well as on daily life. Although the work will focus on the 1945–1991 period, it will explore the roots of the conflict, starting with the formation of the Soviet state, and its legacy to the present day.

**Cold Cold Heart** John Leo Organ 2020-09-24 Maybe you were there. Or you might be one of the many that, young and old, can't get enough of these true but fantasy-like life stories involving Strange Places, smiling Faces and Magical Times. Stories about the Sixties, bikers, the Beatles, soaring through High School, the Seventies, Rochdale College, JFK, the encroaching Counter Culture, Our era of pure sex, drugs and Rock 'n Roll, RFK, Woodstock, LSD, etcetera, etcetera... I am One of the Survivors of what Jerry Garcia referred to as 'a long strange trip'. We Baby Boomers were born with impeccable Timing; from Elvis to Elvis Costello. And beyond! This is my story of growing up in a Cosmic Time that was despised by the Older Generation and enamored by the Young Prophets of Spiritual Adventurism. To clarify; this was an extraordinary and audacious Time of peace, love and misunderstanding. My collaborating colleagues and I learned 'street smarts' in dark 'separate school' hallways of rigorous vicissitudes. Street smarts that prepared me for a career with the Attorney General in a Time that coincided with a Decade of Cocaine, fast women, bosomy beaches and Castles made of Sand. If You have a sense of humour and a flare for the Dramatic then follow these journeys and escapades of this Paperback Writer through a Time and Space that will never be forgotten or authentically duplicated. **Dictionary of the Printing and Allied Industries** F.J.M. Wijnekus 2013-10-22 The first edition of this dictionary, compiled by F.J.M. Wijnekus and published in 1967, was the result of years of systematic collection and preparation of thousands of terms and expressions which were until then not to be found in any other dictionary. The material was correlated for use in his daily work and, as the reputation of his private collection spread, there was an increasing demand for access to these findings. Until 1967 there was no comprehensive multilingual dictionary on the subject; former publications were incomplete and out of date and lacked clear definition - often leading to disastrous misunderstandings. Furthermore, the subject of printing, paper and ink technology had never been dealt with, in dictionary form, in relation to other aspects of the graphic industry. This new work, prepared by F.J.M. Wijnekus and his son, has been considerably up-dated. Much time has been devoted to checking the material against the most reliable and authoritative sources. The usefulness of the work has been further enhanced by the addition of Spanish and Italian to the original languages of English, French and German. The first edition was received with much enthusiastic praise and this new dictionary will undoubtedly continue to be an invaluable tool for all those working with the printed word in the widest sense. It is a reference work which should be in the hands of all those in any way connected with the printing industry, paper manufacturers, ink manufacturers, printers, bookbinders, publishers, lithographers, lay-out men and graphical research institutes.

*Blood Cold* Dennis McDougal 2015-02-17 The riveting true account of the 2001 murder of Bonny Lee Bakley, starring Robert Blake—the Hollywood icon accused of killing his wife in cold blood In May 2001 Bonny Lee Bakley was shot to death in a car parked on a dark Hollywood side street. Eleven months later Robert Blake—her husband, the father of her child, and the star of the classic film *In Cold Blood* and the popular 1970s TV detective series *Baretta*—was arrested for murder, conspiracy, and solicitation. Did Blake kill his wife? Did he hire someone to do the job for him? Award-winning journalist Dennis McDougal and entertainment-media expert Mary Murphy recount a real-life crime story more shocking and bizarre than any movie, chronicling the parallel worlds of Blake and Bakley, from their troubled youths to their sham of a marriage. By the late 1990s Blake was coasting on his past success. Bakley was a con artist who concocted online sex scams and victimized unsuspecting men, netting big money and dangerous enemies. In true noir style, McDougal and Murphy lay bare the stories of two violent people whose lives collided in a tragic tangle of abuse, betrayal, and love gone horribly wrong.

*Repertory Movie Theaters of New York City* Ben Davis 2017-03-04 New York's repertory movie houses specialized in presenting films ignored by mainstream and art house audiences. Curating vintage and undistributed movies from various countries, they educated the public about the art of film at a time when the cinema had begun to be respected as an art form. Operating on shoestring budgets in funky settings, each repertory house had its own personality, reflecting the preferences of the (often eccentric) proprietor. While a few theaters existed in other cities, New York offered the greatest number and variety. Focusing on the active years from 1960 through 1994, this book documents the repertory movement in the context of economics and film culture.
