Nourrir la machine humaine Caroline Durand 2015-04-01 Nutrition advice is ubiquitous. So many experts give their opinion on which foods to favour and which to avoid that the question of diet has now become a matter of obsession. While alerting the public to the dangers of obesity, diabetes, and other potential issues that await undisciplined eaters, health professionals and government agencies also identify those responsible for these modern epidemics: it is often individuals - and usually mothers - who make poor choices. In *Nourrir la machine humaine*, Caroline Durand traces the origins of this rhetoric and shows how nutrition has contributed to the modernization of Quebec in a period marked by industrialization, urbanization, two world wars, and a major economic crash. She analyzes the writings, and images disseminated by physicians, nurses, nutritionists, nuns, teachers, and civil servants and shows how the rational diet they promulgated made women, children, farmers, and workers responsible for their own health while enjoining them to view their body as a machine of production in service to the state and the market. She also discusses the evolution of Quebec dietary habits and reveals that, despite the nutritional directives in place, the population maintained its preferences and mostly adopted the foods that it judged affordable and desirable. *Nourrir la machine humaine* questions the pertinence of nutritional advice within Quebec society and proposes explanations of its ideological and scientific roots, its effectiveness, and the resistance it engenders.

Culinary Landmarks Elizabeth Driver 2008 *Culinary Landmarks* is a definitive history and bibliography of Canadian cookbooks from the beginning, when *La cuisinière bourgeoise* was published in Quebec City in 1825, to the mid-twentieth century. Over the course of more than ten years Elizabeth Driver researched every cookbook published within the borders of present-day Canada, whether a locally authored text or a Canadian edition of a foreign work. Every type of recipe collection is included, from trade publishers' bestsellers and advertising cookbooks, to home economics textbooks and fund-raisers from church women's groups. The entries for over 2,200 individual titles are arranged chronologically by their province or territory of publication, revealing cooking and dining customs in each part of the country over 125 years. Full bibliographical descriptions of first and subsequent editions are augmented by author biographies and corporate histories of the food producers and kitchen-equipment manufacturers, who often published the books. Driver's excellent general introduction sets out the evolution of the cookbook genre in Canada, while brief introductions for each province identify regional differences in developments

and trends. Four indexes and a 'Chronology of Canadian Cookbook History' provide other points of access to the wealth of material in this impressive reference book.

Constructions of Childhood and Youth in Old French Narrative Dr Phyllis Gaffney 2013-04-28 What do we know of medieval childhood? Were boundaries always clear between childhood and young adulthood? Was medieval childhood gendered? Scholars have been debating such questions over half a century. Can evidence from imaginative literature test the conclusions of historians? Phyllis Gaffney's innovative book reveals contrast and change in the portrayal of childhood and youth by looking at vernacular French narratives composed between 1100 and 1220. Covering over sixty poems from two major genres - epic and romance - she traces a significant evolution. While early epics contain only a few stereotypical images of the child, later verse narratives display a range of arguably timeless motifs, as well as a growing awareness of the special characteristics of youth. Whereas juvenile epic heroes contribute to the adult agenda by displaying precocious strength and wisdom, romance children are on the receiving end, requiring guidance and education. Gaffney also profiles the intriguing phenomenon of enfances poems, singing the youthful deeds of established heroes: these 'prequels' combine epic and romance features in distinctive ways. Approaching the history of childhood and youth through the lens of literary genre, this study shows how imaginative texts can both shape and reflect the historical development and cultural construction of emotional values.
