Where the Light Enters Sara Donati 2019-09-10 From the international bestselling author of *The Gilded Hour* comes Sara Donati's enthralling epic about two trailblazing female doctors in nineteenth-century New York. Obstetrician Dr. Sophie Savard returns home to the achingly familiar rhythms of Manhattan in the early spring of 1884 to rebuild her life after the death of her husband. With the help of Dr. Anna Savard, her dearest friend, cousin, and fellow physician she plans to continue her work aiding the disadvantaged women society would rather forget. As Sophie sets out to construct a new life for herself, Anna's husband, Detective-Sergeant Jack Mezzanotte calls on them both to consult on two new cases: the wife of a prominent banker has disappeared into thin air, and the corpse of a young woman is found with baffling wounds that suggest a killer is on the loose. In New York it seems that the advancement of women has brought out the worst in some men. Unable to ignore the plight of New York's less fortunate, these intrepid cousins draw on all resources to protect their patients.

The Naturalist and His 'beautiful Islands' David Russell Lawrence 2014-10-28 'I know no place where firm and paternal government would sooner produce beneficial results than in the Solomons ... Here is an object worthy indeed the devotion of one's life'. Charles Morris Woodford devoted his working life to pursuing this dream, becoming the first British Resident Commissioner in 1897 and remaining in office until 1915, establishing the colonial state almost singlehandedly. His career in the Pacific extended beyond the Solomon Islands. He worked briefly for the Western Pacific High Commission in Fiji, was a temporary consul in Samoa, and travelled as a Government Agent on a small labour vessel returning indentured workers to the Gilbert Islands. As an independent naturalist he made three successful expeditions to the islands, and even climbed Mt Popomanaseu, the highest mountain in Guadalcanal. However, his natural history collection of over 20,000 specimens, held by the British Museum of Natural

History, has not been comprehensively examined. The British Solomon Islands Protectorate was established in order to control the Pacific Labour Trade and to counter possible expansion by French and German colonialists. It remaining an impoverished, largely neglected protectorate in the Western Pacific whose economic importance was large-scale copra production, with its copra considered the second-worst in the world. This book is a study of Woodford, the man, and what drove his desire to establish a colonial protectorate in the Solomon Islands. In doing so, it also addresses ongoing issues: not so much why the independent state broke down, but how imperfectly it was put together in the first place.

The End of Protest Micah White 2016-03-15 Is protest broken? Micah White, co-creator of Occupy Wall Street, thinks so. Disruptive tactics have failed to halt the rise of Donald Trump. Movements ranging from Black Lives Matter to environmentalism are leaving activists frustrated. Meanwhile, recent years have witnessed the largest protests in human history. Yet these mass mobilizations no longer change society. Now activism is at a crossroads: innovation or irrelevance. In *The End of Protest* Micah White heralds the future of activism. Drawing on his unique experience with Occupy Wall Street, a contagious protest that spread to eighty-two countries, White articulates a unified theory of revolution and eight principles of tactical innovation that are destined to catalyze the next generation of social movements. Despite global challenges—catastrophic climate change, economic collapse and the decline of democracy—White finds reason for optimism: the end of protest inaugurates a new era of social change. On the horizon are increasingly sophisticated movements that will emerge in a bid to challenge elections, govern cities and reorient the way we live. Activists will reshape society by forming a global political party capable of winning elections worldwide. In this provocative playbook, White offers three bold, revolutionary scenarios for harnessing the creativity of people from across the political spectrum. He also shows how social movements are created and how they spread, how materialism limits contemporary activism, and why we must re-conceive protest in timelines of centuries, not days. Rigorous, original and compelling, *The End of Protest* is an exhilarating vision of an all-encompassing revolution of revolution.

Qualityland Marc-Uwe Kling 2020-01-07 In the near future sci-fi world of Qualityland, algorithms help create an idyllic life for its citizens, but what if the perfect world wasn't built for you? Welcome to QualityLand, the best country on Earth. Here, a universal ranking system determines the social advantages and career opportunities of every member of society. An automated matchmaking service knows the best partners for everyone and helps with the break up when your ideal match (frequently) changes. And the foolproof algorithms of the biggest, most successful company in the world, TheShop, know what you want before you do and conveniently deliver to your doorstep before you even order it. In QualityCity, Peter Jobless is a machine scrapper who can't quite bring himself to destroy the imperfect machines sent his way, and has become the unwitting leader of a band of robotic misfits hidden in his home and workplace. One day, Peter receives a product from TheShop that he absolutely, positively knows he does not want, and which he decides, at great personal cost, to return. The only problem: doing so means proving the perfect algorithm of TheShop wrong, calling into question the very foundations of QualityLand itself. Qualityland, Marc-Uwe Kling's first book to be translated into English, is a brilliantly clever, illuminating satire in the tradition of Kurt Vonnegut, Douglas Adams, and George Orwell that offers a visionary, frightening, and all-too funny glimpse at a near future we may be hurtling toward faster than it's at all comfortable to admit. So why delay any longer? TheShop already knows you're going to love this book. You may as well head to the cash register, crack the covers, and see why that is for yourself.

Trial by Laughter Ian Hislop 2018-09-14 Following critical acclaim for *The Wipers Times*, Ian Hislop and Nick Newman have once again taken inspiration from real life events for their new play *Trial by Laughter*. William Hone, the forgotten hero of free speech, was a bookseller, publisher and satirist. In 1817, he stood trial for 'impious blasphemy and seditious libel'. The only crime he had committed was to be funny. Worse than that he was funny by parodying religious texts. And worst of all, he was funny about the despotic government and the libidinous monarchy. A Watermill Theatre production.

Rebuilding the State Institutions Juan Antonio Le Clercq 2019-11-29 Contemporary Mexico faces a complex crisis of violence and insecurity with high levels of impunity and the lack of an effective rule of law. These weaknesses in the rule of law are multidimensional and involve elements of institutional design, the specific content of the laws, particularities of political competition and a culture of legality in a country with severe social inequalities. This book discusses necessary institutional and legal reforms to develop the rule of law in a context of democratic, social and economic transformations. The chapters are organized to address: 1) The concept of the 'rule of law' and its measurement; 2) The fragility of the 'rule of law' in Mexico; 3) Structural reforms and implementation challenges; 4) Social exclusion and the culture of legality. The book addresses decision-makers, civil servants, consultants, scholars, lecturers, and students focusing on public policy, rule of law, sociology of law, legislative studies and practice, impunity, and areas of political philosophy. • The book presents an interdisciplinary and integrated approach for understanding the rule of law in Mexico, taking into account national particularities, the regional context and global comparisons. • Chapters discuss recent institutional reforms in Mexico from a critical point of view and explore possible next steps to achieve effective implementation. • This book addresses the links between a weak rule of law and social phenomena like insecurity, violence, corruption and democratic deficits.

Sidereus Nuncius, or The Sidereal Messenger Galileo Galilei 2016-01-19 Galileo Galilei's *Sidereus Nuncius* is arguably the most dramatic scientific book ever published. It announced new and unexpected phenomena in the heavens, "unheard of through the ages," revealed by a mysterious new instrument. Galileo had ingeniously improved the rudimentary "spyglasses" that appeared in Europe in 1608, and in the autumn of 1609 he pointed his new instrument at the sky, revealing astonishing sights: mountains on the moon, fixed stars invisible to the naked eye, individual stars in the Milky Way, and four moons around the planet Jupiter. These discoveries changed the terms of the debate between geocentric and heliocentric cosmology and helped ensure the eventual acceptance of the Copernican planetary system. Albert Van Helden's beautifully rendered and eminently readable translation is based on the Venice 1610 edition's original Latin text. An introduction, conclusion, and copious notes place the book in its historical and intellectual context, and a new preface, written by Van Helden, highlights recent discoveries in the field, including the detection of a forged copy of *Sidereus Nuncius*, and new understandings about the political complexities of Galileo's work.

La voie de l'éducation intégrale François-Xavier Clément 2021-03-08 L'enfant n'est pas seulement un cerveau avec un cartable, l'enfant ne se réduit pas à une boîte à savoirs. Fort de cette conviction, tout parent désire l'épanouissement de son enfant dans toutes ses dimensions. C'est le pari de l'éducation intégrale. À une époque où les repères s'effacent et les structures éducatives sont à la peine, seule une vision moderne de l'éducation fondée sur l'humanisme chrétien est en mesure de répondre aux défis contemporains. Dans cette perspective, l'enfant est considéré non seulement pour lui-même, mais aussi en vue d'une participation effective au bien de la société. Nourri d'une irremplaçable expérience de terrain dans le monde scolaire, l'auteur développe une approche innovante et accessible à tout parent comme à tout enseignant. Principes théoriques et applications pratiques sont ainsi parfaitement mariés pour donner naissance à un ouvrage qui, pour la première fois, synthétise avec grand talent l'éducation intégrale dans toutes ses composantes. François-Xavier Clément est père de famille, philosophe de formation. Enseignant, puis chef d'établissements scolaires du second degré, il a été directeur de l'enseignement catholique de la Loire. Il est également auditeur de l'Institut des hautes études de la Défense nationale (IHEDN). Sa dernière expérience a été celle de chef d'établissement coordonnateur du groupe scolaire Saint-Jean-de-Passy à Paris durant cinq ans.

Moon Palace Paul Auster 2010-12-28 The "beautiful and haunting" (San Francisco Chronicle) tale of an orphan's search for love, for his unknown father, and for the key to the elusive riddle of his fate, from the author of the forthcoming *4 3 2 1: A Novel* Marco Stanley Fogg is an orphan, a child of the sixties, a quester tirelessly seeking the key to his past, the answers to the ultimate riddle of his fate. As Marco journeys from the canyons of Manhattan to the deserts of Utah, he encounters a gallery of characters and a series of events as rich and surprising as any in modern fiction. Beginning during the summer that men first walked on the moon, and moving backward and forward in time to span three generations, *Moon Palace* is propelled by coincidence and memory, and illuminated by marvelous flights of lyricism and wit. Here is the most entertaining and moving novel yet from an author well known for his breathtaking imagination. From New York Times-bestselling author Paul Auster (The New York Trilogy).

The Light Years Elizabeth Jane Howard 2016-04-26 This “dazzling” novel follows a family of English aristocrats as their country teeters on the brink of World War II (Penelope Fitzgerald). As war clouds gather on the distant horizon, Hugh, Edward, and Rupert Cazalet, along with their wives, children, and loyal servants, prepare to leave London for their annual pilgrimage to the family’s Sussex estate. There, they will join their parents, William and Kitty, and sister, Rachel, at Home Place, the sprawling retreat where the three brothers hope to spend an idyllic summer of years gone by. But the First World War has left indelible scars. Hugh, the eldest of his siblings, was wounded in France and is haunted both by recurring nightmares of battle and the prospect of another war. Edward adores his wife, Villy, a former dancer searching for meaning in life, yet he’s incapable of remaining faithful to her. Rupert desires only to fulfill his potential as a painter, but finds that love and art cannot coexist. And devoted daughter Rachel discovers the joys—and limitations—of intimacy with another woman. A candid portrait of British life in the late 1930s and a sweeping depiction of a world on the brink of war, *The Light Years* is a must-read for fans of *Downton Abbey*. Three generations of the Cazalet family come to unforgettable dramatic life in this saga about England during the last century—and the long-held values and cherished traditions that would soon disappear forever.
