Read till it shatters Thak Chaloemtiarana 2018-08-27 This book introduces readers to modern Thai literature through the themes of modernity, nationalism, identity and gender. In the cultural, political and social transformations that occurred in Thailand during the first half of the twentieth century, Thai literature was one of the vehicles that moved the changes. Taking seriously ‘read till it shatters’, a Thai phrase that instructs readers to take apart the text, to break it down, to deconstruct it, Thak Chaloemtiarana challenges the Thai literary canon from the margins and suggests ways of expanding and enriching it. Thai literature is scarce in translation and requires the skills of a scholar fluent in Thai to comprehend it. Thak is a political scientist turned literary scholar who is bilingual in Thai and English and an avid reader of Thai fiction by authors up and down the social scale. Here he offers lively insights into his favourite literary genres with fresh readings of early Thai novels, Sino-Thai biographies and memoirs of the rich and famous. ‘Thak Chaloemtiarana is an inquisitive man. Late in his career he switched from politics to literature. In these chapters, he draws on a lifetime of reading about writers and writing in Thailand over the past century. He nods towards the usual big names—King Vajiravudh, Luang Wichit, Kulap Saipradit, Kukrit Pramoj—but spends more time on those found in the lesser visited stacks of the libraries, the secondhand bookstalls, and the shelf by the supermarket checkout. His themes are familiar—Thailand and the West, Thai nationalism, the Thai-Chinese, and women under patriarchy—but the angles of vision are original. With a cast ranging from motor-racing princes through sexy Egyptian mummies and a feminist serial murderer to starlets touting breast-enhancement techniques, this book educates, enlightens, and entertains.’

Deep Secrets That Can Save Your Marriage & Relationship M. M. Kirschbaum 2013-11-07 My experience from interceding for married people and writing on relationships, I have no doubt in my mind that, the marriage sector is Satan's favorite playground. I would even go a step further to say that, it is the foremost sport of wicked principalities and powers in the lower heavenly realms. The home is the bedrock of a fruitful society. It is where different people of different assortments live together to form a bond of love. When a man marries a woman, he learns to love and tolerate her baggage. The same goes for the woman, who accepts his family, stories and extras as her own. It is natural, therefore, that this delicately balanced living pattern is the first to suffer assault of the devil. Why attack an individual when a seed of animosity can be thrown into the midst of many? When trouble is sown in the home, it spreads to other family members leaving many bruised, battered and beat-up. In this battle, no one is spared for the family pets are also marred for life. That laughter, that happiness dissipates into the aftermath of revolting and malicious bomb. Satan knows and understands the power of the home and the possibilities from this union. All you have to do is to imagine the nasty consequences of broken homes. This is a constant battle that must not be taken lightly or nonchalantly. The battles in this field is prone to sudden eruption or slow poison. Whichever way you look at it, to be married is one of the most beautiful experiences that is fraught with battles. Many have being known to take the path of attending counselling, amassing pornographic videos, tricks of lovemaking and enrolling in exercise regimens. Some have even taken it a step up the ladder through drastic face-lifts, breast enhancement that cost a fortune. All these are commendable but they are temporary, Band-Aid solutions. The good news is that, marriage is God's own plan from the very beginning. It was Satan who threw the spanners into the first peaceful arrangement. God is very involved with the affairs of the heart. This is evident in the affairs of Adam. If you read your Bible, you will notice that, Adam, the first man, did not request for a helper. He did not complain about working in the garden and tending the animals alone.

Plastic Surgery Secrets for Breast Augmentation Susan Lovelle 2013-11 As a plastic surgeon, I have spent countless hours speaking to women about the various pros and cons of cosmetic breast surgery, the different options available and the right procedure to obtain the results desired. It has, for many years, been my pleasure to experience the look of joy on a woman's face when the right procedure and the right implant come together to create the perfect look for her. While I can't condense all of the experience and knowledge I have culled over the years into a book of this size, what I do hope is that many of the questions you have about your upcoming cosmetic breast surgery will be answered in a way that you find valuable.

The Psychology of Secrets Anita E. Kelly 2012-12-06 On an MTV special aired in 2000, young interviewees were asked to confess the worse thing they were ever told during a romantic breakup. One person tearfully responded "that I suck in bed. " More recently, an acquaintance of mine admitted to his new girlfriend that he "has a mean streak. " She decided not to date him after that. Another memorable and painful example of openness occurred years ago when I served as a member of a suicide intervention team. I was called to a very disturbing scene in an upscale neighborhood to console a woman who was threaten ing to take her life on the lawn in front of her children. Her husband had just confessed his long-term affair to her that morning and she felt that her world was coming apart. Fortunately, she did not take her life but was left with the humiliation of haVing her neighbors know about her private troubles. The question these examples bring to mind is, "Why do people so often reveal potentially stigmatizing personal information to others?" The reader probably has an intuitive answer to this question already. It can seem like such a burden-even torture-to keep secrets from other people. Hiding such things as feelings of discontent from a boyfriend or girlfriend, violations of the law from close friends, and indiscretions from employers can be alienating. People want others to know them; therefore they often end up disclosing self-incriminating information.
