Le Tumulte Noir Jody Blake 1999-01-01 Jody Blake demonstrates in this book that although the impact of African-American music and dance in France was constant from 1900 to 1930, it was not unchanging. This was due in part to the stylistic development and diversity of African-American music and dance, from the prewar cakewalk and ragtime to the postwar Charleston and jazz. Successive groups of modernists, beginning with the Matisse and Picasso circle in the 1900s and concluding with the Surrealists and Purists in the 1920s, constructed different versions of la musique and la danse negre. Manifested in creative and critical works, these responses to African-American music and dance reflected the modernists' varying artistic agendas and historical climates.

Young People Re-Generating Politics in Times of Crises Sarah Pickard 2017-07-31 This book provides insight into the diverse ways young people from around the world are regenerating politics in innovative and multifaceted ways. The

authors, who include academics and activists, challenge claims that young people are apolitical, apathetic and living up to the 'me generation' stereotype. Contributions cover a rich body of case examples of traditional and new forms of youth politics in response to situated injustices and political and socio-economic crises. Significant and optimistic, the collection presents strong evidence from across the globe that these developments are not isolated incidences, but are in fact part of a systemic, large-scale transformation leading to a regeneration of the political landscape by young people. The book is aimed at students and scholars in the fields of politics, sociology, policy studies and youth and childhood studies.

A Portrait in Letters John Henry Stape 1996-01-01 A Portrait in Letters: Correspondence to and about Joseph Conrad offers an annotated selection of letters to Conrad preserved in widely scattered archives. Augmented by letters about his work and personality, the volume also contains a calendar of all known surviving correspondence addressed to him. An essential supplement to the Cambridge Edition of The Collected Letters of Joseph Conrad, A Portrait in Letters presents Conrad in the round, offering glimpses not only of the working writer but of the husband, parent, and friend. The letters offer new information about Conrad's literary circle and fill out numerous details about his career. Brief, authoritative biographies of the correspondents are included, and an introduction, description of editorial principles, and full index to the volume provide the scholarly contextualization and tools necessary for easy access to its contents.

On Curiosity Franck Cochoy 2016-07-25 What draws us towards a shop window display? What drives us to grab a special offer, to enter the privileged circle of premium newspaper subscribers, to peruse the pages of an enticing magazine? Without doubt, it is curiosity - that essential force of everyday action which invites us to break from our habits and to become transported beyond our very selves. Curiosity (whether healthy or unhealthy) is one of the favourite tricks of market seduction. Capturing a public - attracting the attention of a reader, seducing a customer, meeting the expectations of a user, persuading a voter ... - often requires the construction of a set of technical devices that can play upon people's inner motivations. Cochoy invites us to take a sociological trip into these cabinets of curiosity, accompanied throughout by Bluebeard, a fairy tale that is both a model of the genre and a pure curiosity machine. At once a work of history and economic anthropology, the book meticulously analyses the devices designed by markets to arouse, excite, and sustain curiosity: a window display, practices of 'teasing', packaging, bus shelters, mobile internet technologies, to name but a few. In the Bettencourt and Strauss-Kahn affairs and the Wikileaks controversy, Cochoy also uncovers the work of investigative journalism and its attention-grabbing 'scoops', revealing the secrets of the revealers of secrets. Available in English for the first time, this major work will arouse readers' curiosity over the course of its unusual and colourful journey. By the end, now better informed and more cautious, they will be able to identify the traps of which they are the target. So long as curiosity is kept at bay, at least!

Smart Grid Fereidoon P. Sioshansi 2011-10-06 The creation of a flexible, efficient, digitized, dependable and resilient power grid may well be the best route to increasing energy efficiency & security, as well as boosting the

potential of renewable & distributed power sources. This book covers smart grids from A-Z, providing a complete treatment of the topic, covering both policy and technology, explaining the most recent innovations supporting its development, and clarifying how the smart grid can support the integration of renewable energy resources. Among the most important topics included are smart metering, renewable energy storage, plug-in hybrids, flexible demand response, strategies for offsetting intermittency issues, micro-grids for off-grid communities, and specific in-depth coverage of wind and solar power integration. The content draws lessons from an international panel of contributors, whose diverse experiences implementing smart grids will help to provide templates for success. Provides critical information on the technological, design and policy issues that must be taken into account to ensure that the smart grid is implemented successfully Demonstrates how smart grids can help utilities adhere to increased renewable portfolio standards Provides examples of successful microgrid/smart metering projects from around the world that can act as templates for developers, operators and investors embarking upon similar projects

Stigmata H  l  ne Cixous 2002-01-31 H  l  ne Cixous -- author, playwright and French feminist theorist -- is a key figure in twentieth-century literary theory. Stigmata brings together her most recent essays for the first time. Acclaimed for her intricate and challenging writing style, Cixous presents a collection of texts that get away -- escaping the reader, the writers, the book. Cixous's writing pursues authors such as Stendhal, Joyce, Derrida, and Rembrandt, da Vinci, Picasso -- works that share an elusive movement in spite of striking differences. Along the way these essays explore a broad range of poetico-philosophical questions that have become characteristic of Cixous' work: * love's labours lost and found * feminine hours * autobiographies of writing * the prehistory of the work of art Stigmata goes beyond theory, becoming an extraordinary writer's testimony to our lives and times.

Language and Literacy in Roman Judaea Michael Owen Wise 2015-05-26 This comprehensive exploration of language and literacy in the multi-lingual environment of Roman Palestine (c. 63 B.C.E. to 136 C.E.) is based on Michael Wise's extensive study of 145 Hebrew, Aramaic, Greek, and Nabataean contracts and letters preserved among the Bar Kokhba texts, a valuable cache of ancient Middle Eastern artifacts. His investigation of Judean documentary and epistolary culture derives for the first time numerical data concerning literacy rates, language choices, and writing fluency during the two-century span between Pompey's conquest and Hadrian's rule. He explores questions of who could read in these ancient times of Jesus and Hillel, what they read, and how language worked in this complex multi-tongued milieu. Included also is an analysis of the ways these documents were written and the interplay among authors, secretaries, and scribes. Additional analysis provides readers with a detailed picture of the people, families, and lives behind the texts.

Regional Economic Outlook, May 2007, Middle East and Central Asia International Monetary Fund. Middle East and Central Asia Dept. 2007-05-04 Strong economic performance across the Middle East and Central Asia is examined against the background of high prices for energy and other commodities. Common economic trends are presented, while prospects and policies are reviewed for the coming year in light of the global economic environment. This latest REO includes boxes treating specific regional topics, such as financial sector reforms and

integration in Maghreb countries; economic developments in oil-exporting countries in response to changes in petroleum prices; and the growth boom in the Caucasus and Central Asia.

The Enigmatic Netherworld Books of the Solar-Osirian Unity John Coleman Darnell 2004 In Egypt, from the Old to the New Kingdom, enigmatic texts were created on the basis of non-standardized lists of characters and phonetic signs, the exact principles of which are still unclear to this day. For the first time, this study examines in detail the three most comprehensive known inscription texts from the New Kingdom, which were discovered in the tombs of Tutenchamun, Ramses VI and Ramses IX. Darnell shows that these three texts have a theological, iconographic and formal connection, and calls them collectively the "Book of the Solar-Osirian Unity". Differentiated and lively, he presents the content and theological peculiarities of these texts that deal with the afterlife with each other and in relation to other enigmatic texts of the new as well as the Middle and Old Kingdom.

Geography and Religious Knowledge in the Medieval World Christoph Mauntel 2021-06-08 In the medieval world, geographical knowledge was influenced by religious ideas and beliefs. Whereas this point is well analysed for the Latin-Christian world, the religious character of the Arabic-Islamic geographic tradition has not yet been scrutinised in detail. This volume addresses this desideratum and combines case studies from both traditions of geographic thinking. The contributions comprise in-depth analyses of individual geographical works as for example those of al-Idrisi or Lambert of Saint-Omer, different forms of presenting geographical knowledge such as TO-diagrams or globes as well as performative aspects of studying and meditating geographical knowledge. Focussing on texts as well as on maps, the contributions open up a comparative perspective on how religious knowledge influenced the way the world and its geography were perceived and described in the medieval world.

Let's Go (So We Can Get Back) Jeff Tweedy 2019-10-01 The singer, guitarist, and songwriter—best known for his work with Wilco—opens up about his past, his songs, the music, and the people who have inspired him in this personal memoir. This ideal addition to your Wilco collection also makes a perfect gift for music lovers. *A New York Times Bestseller* *A Rolling Stone Best Music Books of 2018 selection* *A Pitchfork Pick: Best Music Books of 2018* Few bands have encouraged as much devotion as the Chicago rock band Wilco, and it's thanks, in large part, to the band's singer, songwriter, and guiding light: Jeff Tweedy. But while his songs and music have been endlessly discussed and analyzed, Jeff has rarely talked so directly about himself, his life, or his artistic process. Until now. In his long-awaited memoir, Jeff will tell stories about his childhood in Belleville, Illinois; the St. Louis record store, rock clubs, and live-music circuit that sparked his songwriting and performing career; and the Chicago scene that brought it all together. He also talks in-depth about his

collaborators in Uncle Tupelo, Wilco, and more; and writes lovingly about his parents; wife, Susie; and sons, Spencer and Sammy. Honest, funny, and disarming, Tweedy's memoir will bring readers inside both his life and his musical process, illuminating his singular genius and sharing his story, voice, and perspective for the first time.

How to Write One Song Jeff Tweedy 2020-10-13 There are few creative acts more mysterious and magical than writing a song. But what if the goal wasn't so mysterious and was actually achievable for anyone who wants to experience more magic and creativity in their life? That's something that anyone will be inspired to do after reading Jeff Tweedy's *How to Write One Song*. Why one song? Because the difference between one song and many songs isn't a cute semantic trick—it's an important distinction that can simplify a notoriously confusing art form. The idea of becoming a capital-S songwriter can seem daunting, but approached as a focused, self-contained event, the mystery and fear subsides, and songwriting becomes an exciting pursuit. And then there is the energizing, nourishing creativity that can open up. *How to Write One Song* brings readers into the intimate process of writing one song—lyrics, music, and putting it all together—and accesses the deep sense of wonder that remains at the heart of this curious, yet incredibly fulfilling, artistic act. But it's equally about the importance of making creativity part of your life every day, and of experiencing the hope, inspiration, and joy available to anyone who's willing to get started.

Experiencing Europe Wilfried Loth 2009 "This book discusses how the EC/EU changed from its beginnings, and in which respect the present situation is different from the past. Which trends of evolution can be observed, and which factors may influence the future evolution? In this volume, 19 historians from seven countries, all of them well known experts of the field, are balancing the different aspects of the European experience. Based on broad archival research the volume offers a comprehensive look on the history of European integration and a discussion of the present situation and possible developments in the light of this balance. *Experiencing Europe* is seen as a response to the challenges Europeans have to meet in the 20th and 21st centuries." --Book Jacket.

Building Sustainable Agriculture for Food Security in the Euro-Mediterranean Area Maria Cristina Paciello 2015-06-19 Sustainable agriculture and food security are of particular concern for the countries of the Middle East and North Africa (MENA) region, and represent one of the biggest challenges facing the area. As a consequence of the region's heavy reliance on food imports, the sharp increase in food prices since 2007 and the consequent world food crisis has had macro-economic problems (inflation, trade deficits, fiscal pressure), increased poverty and political instability. This challenge, coupled with the consequences of environmental degradation, water scarcity, urbanization and climate stress, call for the urgent development of sustainable agriculture has mostly been ignored in Euro-Mediterranean relations, due to strong opposition from the EU. However, academics and policymakers have increasingly acknowledged that agriculture that needs to be placed at the core of Euro-Mediterranean regional cooperation. Given the sensitiveness and strategic importance of agriculture for both shores of the Mediterranean, the IAI and the OCP Policy Center jointly organized a two-day conference in Rabat on November 20-21, 2014, to discuss food security and agriculture challenges in the framework of Euro-Mediterranean relations. The present volume collects the updated and revised versions of the twelve papers that were discussed in that meeting.

Hard Core Cartels OECD 2003-05-23 Anti-cartel measures seek to prevent violations of competition law such as agreements among competitors to fix prices, restrict product supply or submit collusive tenders. This report examines the harm caused by cartels and the progress made to strengthen methods of investigation and sanctions systems to tackle this problem. It also outlines and identifies the challenges that lie ahead.

The European Landscape Convention Michael Jones 2011-02-09 This important and insightful book provides, for the first time, a broad presentation of ongoing research into public participation in landscape conservation, management and

planning, following the 2000 European Landscape Convention which came into force in 2004. The book examines both the theory of participation and what lessons can be learnt from specific European examples. It explores in what manner and to what extent the provisions for participation in the European Landscape Convention have been followed up and implemented. It also presents and compares different experiences of participation in selected countries from northern, southern, eastern and western Europe, and provides a critical examination of public participation in practice. However, while the book's focus is necessarily on Europe, many of the conclusions drawn are of global relevance. The book provides a valuable reference for researchers and advanced students in landscape policies and management, as well as for professionals and others interested in land-use planning and environmental management.

Displaced Archives James Lowry 2017-02-17 Displaced archives have long been a problem and their existence continues to trouble archivists, historians and government officials. *Displaced Archives* brings together leading international experts to comprehensively explore the current state of affairs for the first time. Drawing on case studies from around the world, the authors examine displaced archives as a consequence of conflict and colonialism, analysing their impact on government administration, nation building, human rights and justice. Renewed action is advocated through considerations of the legal approaches to repatriation, the role of the international archival community, 'shared heritage' approaches and other solutions. The volume offers new theoretical, technical and political insights and will be essential reading for practitioners, academics and students in the field of archives, cultural property and heritage management, as well as history, politics and international relations.

Sustainable Community Health Elias Mpofu 2021-01-21 Applying a trans-disciplinary approach, this book provides a comprehensive, research-based guide to understanding, implementing, and strengthening sustainable community health in diverse international settings. By examining the interdependence of environmental, economic, public health, community wellbeing and development factors, the authors address the systemic factors impacting health disparities, inequality and social justice issues. The book analyzes strategies based on a partnership view of health, in which communities determine their health and wellness working alongside local, state and federal health agencies. Crucially, it demonstrates that communities are themselves health systems and their wellbeing capabilities affect the health of individuals and the collective alike. It identifies health indicators and tools that communities and policy makers can utilize to sustain truly inclusive health systems. This book offers a unique resource for researchers and practitioners working across psychology, mental health, rehabilitation, public health, epidemiology, social policy, healthcare and allied health.
