*France Atlantique* Marco Paoluzzo 2012-01-03 The wild beauty of the French Atlantic coast captured in atmospheric images. With its spectacular forms and lines, France's atlantic coast holds a unique, understated beauty. The photographer Marco Paoluzzo has captured austere, almost bleak scenes of sand, cliff and sky. Silhouettes that imply the presence of humans. The sea stretches desert-like from Dunkirk in the far north of France to Biarritz in the south. A lighthouse, a tree, a ship, the spray of the Atlantic - the photographs read like an ancient saga and seem to harbor endless secrets.

*Nudes in Steel* Yoram Roth 2018 A must for fans of Yoram Roth's works and any contemporary art lover. A lush photography coffee table book that includes four separate series of work and a focus on the human body. With a thematic explanatory introduction by the artist and fascinating behind-the-scene images, illustrating the ideas and inspirations for the artworks and their production process.

**Elephants in Space** Ben Moore 2014-05-30 This book is about the history and future of life and the universe, written at a level that any educated lay-person can understand and enjoy. It describes our place in time and space, how we got here and where we are going. It will take you on a journey from the beginning of time to the end of the universe to uncover our origins and reveal our destiny. It will explain how mankind acquired this knowledge starting from the beginning of civilization when the ancient Greeks first began to ask questions about the nature of the world around them. Ben Moore takes us on a path of discovery that connects astrophysics with subjects as varied as biology, neuroscience and evolution; from the origin of atoms to how stars shine and die, from ants and elephants to space travel and extra-terrestrial life. But as our universe grows older and its stars fade away and stop shining, can

life continue for eternity or is all life destined for complete extinction? And what is the purpose of all of this anyway?! On the German edition: "With his public talks and his new book "Elefanten im All" the Brit is on his way of becoming a popstar of science. Moore has a story to tell. The story of everything. From the beginning to the end of our existence. And he does so with esprit and catching passion." Rico Bandle, Weltwoche, 1. November 2012 "The kind of book you come across only every few years." Artur K. Vogel, Der Bund, September 2012.

**The Oxford Handbook of Roman Law and Society** Paul J du Plessis 2016-09-29 The Oxford Handbook of Roman Law and Society surveys the landscape of contemporary research and charts principal directions of future inquiry. More than a history of doctrine or an account of jurisprudence, the Handbook brings to bear upon Roman legal study the full range of intellectual resources of contemporary legal history, from comparison to popular constitutionalism, from international private law to law and society, thereby setting itself apart from other volumes as a unique contribution to scholarship on its subject. The Handbook brings the study of Roman law into closer alignment and dialogue with historical, sociological, and anthropological research into law in other periods. It will therefore be of value not only to ancient historians and legal historians already focused on the ancient world, but to historians of all periods interested in law and its complex and multifaceted relationship to society.

*Nikon N80, F80* Artur Landt 2001-05-01 This feature-laden, affordable single-lens-reflex (SLR) camera was designed for the serious, advanced-amateur photographer. With an in-depth look at the camera's capabilities and functions, you'll be able to use such features as the Matrix metering mode, exposure compensation, auto exposure bracketing, autofocus mode and area selection, tracking focus, and more. More informative and user-friendly than the manufacturer's instruction book, and with plenty of hands-on suggestions to put the photo enthusiast well on the way to sophisticated picture-taking.

**The New American Heart Association Cookbook** American Heart Association 2010-01-27 When the American Heart Association, the country's most-trusted authority on heart-healthy living, published the first edition of its cookbook twenty-five years ago, it could hardly have predicted that the book would become a runaway bestseller and set the standard for healthful and delicious eating. To celebrate the book's silver anniversary, the AHA has completely updated and revised this jewel of its renowned cookbook library. This latest edition is a must-have for every chef who wants tasty, good-for-you recipes in step with how we eat today. Each of the more than 600 recipes--including over 150 that are brand-new--has been kitchen-tested for high flavor and ease of preparation. Dishes such as Risotto with Broccoli and Leeks, Grilled Tuna with Pineapple-Nectarine Salsa, and Minted Cantaloupe Soup with Fresh Lime prove that healthful food doesn't have to be boring, spartan, or old-fashioned. Here you'll find recipes for the hottest trends in cooking, from wrap sandwiches and pesto to vegetarian entrées and ethnic cuisines. If you're a chef on the go, you'll appreciate the many recipes that will help you put a meal on the table in a flash--from quick-and-easy offerings and twofer recipes that let you have delicious planned-overs for later in the work week to one-dish meals and microwave recipes. The handy menus will help you mix and match recipes not only for weekday dining but also for the perfect holiday meal, party, or other special occasion. And with the AHA's suggestions, you can turn treasured family favorites into heart-healthy classics. You'll also read the latest on how what you eat can affect your health. In addition to the AHA's dietary guidelines and recommendations, you'll find discussions about the importance of fiber, folic acid, and eating a variety of foods. Each kitchen-tested recipe is accompanied by a complete nutritional breakdown, including total fat, saturated fat, cholesterol, sodium, calories, fiber, and more, so it's easy to work any of the recipes into any eating plan. The New American Heart Association Cookbook will be the basic cookbook you'll find yourself reaching for again

and again. The American Heart Association is the nation's most-trusted authority on heart-healthy living and diet. Its best-selling library of cookbooks includes: American Heart Association Low-Fat, Low-Cholesterol Cookbook, Second Edition American Heart Association Low-Salt Cookbook American Heart Association Quick & Easy Cookbook American Heart Association Around the World Cookbook American Heart Association Kids' Cookbook From the Hardcover edition.

**The Quotable Feynman** Richard P. Feynman 2015-09-29 A treasure-trove of illuminating and entertaining quotations from beloved physicist Richard P. Feynman "Some people say, 'How can you live without knowing?' I do not know what they mean. I always live without knowing. That is easy. How you get to know is what I want to know."—Richard P. Feynman Nobel Prize-winning physicist Richard P. Feynman (1918–88) was that rarest of creatures—a towering scientific genius who could make himself understood by anyone and who became as famous for the wit and wisdom of his popular lectures and writings as for his fundamental contributions to science. The Quotable Feynman is a treasure-trove of this revered and beloved scientist's most profound, provocative, humorous, and memorable quotations on a wide range of subjects. Carefully selected by Richard Feynman's daughter, Michelle Feynman, from his spoken and written legacy, including interviews, lectures, letters, articles, and books, the quotations are arranged under two dozen topics—from art, childhood, discovery, family, imagination, and humor to mathematics, politics, science, religion, and uncertainty. These brief passages—about 500 in all—vividly demonstrate Feynman's astonishing yet playful intelligence, and his almost constitutional inability to be anything other than unconventional, engaging, and inspiring. The result is a unique, illuminating, and enjoyable portrait of Feynman's life and thought that will be cherished by his fans at the same time that it provides an ideal introduction to Feynman for readers new to this intriguing and important thinker. The book features a foreword in which physicist Brian Cox pays tribute to Feynman and describes how his words reveal his particular genius, a piece in which cellist Yo-Yo Ma shares his memories of Feynman and reflects on his enduring appeal, and a personal preface by Michelle Feynman. It also includes some previously unpublished quotations, a chronology of Richard Feynman's life, some twenty photos of Feynman, and a section of memorable quotations about Feynman from other notable figures. Features: Approximately 500 quotations, some of them previously unpublished, arranged by topic A foreword by Brian Cox, reflections by Yo-Yo Ma, and a preface by Michelle Feynman A chronology of Feynman's life Some twenty photos of Feynman A section of quotations about Feynman from other notable figures Some notable quotations of Richard P. Feynman: "The thing that doesn't fit is the most interesting." "Thinking is nothing but talking to yourself inside." "It is wonderful if you can find something you love to do in your youth which is big enough to sustain your interest through all your adult life. Because, whatever it is, if you do it well enough (and you will, if you truly love it), people will pay you to do what you want to do anyway." "I'd hate to die twice. It's so boring."

**The Photoshop Elements 3 Book for Digital Photographers** Scott Kelby 2004-10-11 If you're ready for an Elements 3 book that breaks all the rules, this is it, because it does something for digital photographers that's never been done before--it cuts through the bull and shows you exactly "how to do it." It tells you, flat-out, which settings to use, when to use them, and why. This book is not a bunch of theory; it doesn't challenge you to come up with your own settings or figure things out on your own. It gives you the same settings used by some of the top digital pros, settings you can use today to get professional results you've always dreamed of. Plus, since this book is designed for photographers, it doesn't waste your time talking about how to frame a shot, setting your exposure, etc. and there's no talk which camera or printer to buy. It's all Elements, step-by-step, cover-to-cover in the only book of its kind, and you're gonna love it! Besides learning the inside tips and the tricks of the trade for correcting, editing, sharpening, retouching, and presenting your photos like a pro. You'll learn how to

unlock the power of all the new Elements 3 features, including how to manage your photos using the new Organizer, how to use the new "pro tools" like the Healing Brush and the Shadow/Highlight controls, and how to master the new "Creation" section to take your photos to an entirely new level. Plus, you'll see it all step-by-step, in plain English, and you'll be absolutely amazed at how easy and effective these techniques are, once you know the secrets. You'll learn: The secrets of how the pros retouch portraits How to incorporate the amazing new features of Elements 3 into your work today! How to color correct any photo without breaking a sweat (you'll be amazed at how they do it!) How to repair and restore damaged photos The sharpening techniques the pros really use (there's an entire chapter just on this!) Dealing with common digital camera image problems, including removing noise and avoiding halos When to use Quick Fix, and when to do it yourself (using our step-by-step methods). The most-requested photographic special effects and much more! But besides all that, this book has a "secret weapon" that makes it the most important, most useful Elements book yet. The reason is this--although Elements 3 offers some digital photography features Photoshop CS doesn't offer, there are plenty of features that Photoshop CS has, that Elements 3 still doesn't have (things like Layer Masking, Channel Mixer, etc.). But in this book, you'll learn some slick workarounds, cheats, and some fairly ingenious ways to replicate many of those Photoshop features from right within Elements. There's never been a book like it, and if you're a digital photographer using Photoshop Elements 3, this is the book you've been waiting for.

**The Nightingales are Drunk** Hafez 2015-02-26 'Drunk or sober, king or soldier, none will be excluded' Sensual, profound, delighted, wise, Hafez's poems have enchanted their readers for more than 600 years. One of the greatest figures of world literature, he remains today the most popular poet in modern Iran. Introducing Little Black Classics: 80 books for Penguin's 80th birthday. Little Black Classics celebrate the huge range and diversity of Penguin Classics, with books from around the world and across many centuries. They take us from a balloon ride over Victorian London to a garden of blossom in Japan, from Tierra del Fuego to 16th century California and the Russian steppe. Here are stories lyrical and savage; poems epic and intimate; essays satirical and inspirational; and ideas that have shaped the lives of millions. Rumi (1207-73). Rumi's Selected Poems is available in Penguin Classics.

*The Portable Edmund Burke* Edmund Burke 1999-07-01 The intellectual wellspring of modern political conservatism, Edmund Burke is also considered a significant figure in aesthetic theory and cultural studies. As a member of the House of Commons during the late eighteenth century, Burke shook Parliament with his powerful defense of the American Revolution and the rights of persecuted Catholics in England and Ireland; his indictment of the English rape of the Indian subcontinent; and, most famously, his denouncement of English Jacobin sympathizers during the French Revolution. The Portable Edmund Burke is the fullest one-volume survey of Burke's thought, with sections devoted to his writings on history and culture, politics and society, the American Revolution, Ireland, colonialism and India, and the French Revolution. This volume also includes excerpts from his letters and an informative Introduction surveying Burke's life, ideas, and his reception and influence in the nineteenth and twentieth centuries.

**The New Woman Behind the Camera** Andrea Nelson 2020-10-16 An in-depth look at the many ways women around the world helped shape modern photography from the 1920s to the 1950s as they captured images of a radically changing world. During the 1920s the New Woman was easy to recognize but hard to define. Hair bobbed and fashionably dressed, this iconic figure of modernity was everywhere, splashed across magazine pages or projected on the silver screen. A global phenomenon, she embodied an ideal of female empowerment based on real women making revolutionary changes in life and art—including photography. This groundbreaking, richly illustrated book looks at those "new women" who embraced the camera as a mode of expression and made a profound impact on the medium from the 1920s to the 1950s. Thematic chapters explore how women emerged as a driving force in modern photography, bringing their own perspective to artistic experimentation, studio portraiture, fashion and advertising work, scenes of urban life, ethnography and photojournalism. Featuring work by 120 photographers, this volume expands the history of photography by critically examining an international array of canonical and less well-known women photographers, from Berenice Abbott, Dorothea Lange and Lola Álvarez Bravo to Germaine Krull, Tsuneko Sasamoto and Homai Vyarawalla. Against the odds, these women produced invaluable visual testimony that reflects both their personal experiences and the extraordinary social and political transformations of the era.

**Angel Rogue** Mary Jo Putney 1995 Half Mohawk and half English aristocrat, Mixima Collins is a stranger in a strange land, but nothing is going to stop her from learning the truth about her father's death, not even the handsome former spy, Robert Andreville.

*The Precarious in the Cinemas of the Americas* Constanza Burucúa 2018-05-29 Historically, cinema in the Americas has been signed by a state of precariousness. Notwithstanding the growing accessibility to video and digital technologies, access to the material means of film production is still limited, affecting the spheres of production, distribution, and reception. Equally, questions about the precarious can be traced in cultural and archival policies, film legislations, as well as in thematic and aesthetic choices. While conventional definitions of the precarious have been associated with notions of scarcity and insecurity, this volume looks at precariousness from a non-monolithic angle, exploring its productivity and potential for original, critical approaches, with the aim of providing new readings to the variedly rich and complex cinemas of the Americas.

**The Noise Within** Ian Whates 2010-05 On the brink of perfecting the long sought-after human/AI interface, Philip Kaufman finds his world thrown into turmoil as a scandal from the past returns to haunt him and dangerous information falls into his hands. Pursued by assassins and attacked in his own home, he flees.

**The Nova Scotia Atlas** Nova Scotia Geomatics Centre 2006-06-16 This sixth edition of the Nova Scotia Atlas provides in-depth coverage of the entire province unavailable anywhere else. The maps include numbered and colour-coded highways with exit numbers, hiking trails and national parks. There are details such as power lines, ferry routes, hospitals and communication towers. Airports, helipads and landing strips are mapped. Also included are all provincial parks (campgrounds, picnic sites, boat launches), with a text description of each. The maps clearly show physical features, including rivers, lakes, hills, islands, marshes and beaches. The revisions in this new edition include all new highway construction completed in the past five years, three new wilderness areas and six new nature reserves. Waterfalls are now shown, and Crown land information has been extensively updated. All paved and unpaved roads (longer than 200 m) are included, as are a myriad of protected areas including game sanctuaries, wilderness and wildlife management areas. County and municipal boundaries are shown.

**The Nightlife New York** Travis Luedke 2014-02-03 The Nightlife Series is violent, sexy, and occasionally violently sexy. Vampires, strippers, escorts, night clubs, pimps and dirty cops - the Nightlife New York is never boring. Aaron Pilan's life is forever changed when he's shot trying to rescue a drop-dead gorgeous woman on the streets of New York. Aaron is thrust into the shocking world of vampiric slavery when Michelle shares her blood to save his life. Michelle's existence as a solitary vampire is also altered when she accepts this naive young man into her life. Bound by her blood, Aaron is subject to her authority. He walks a tightrope of strictly controlled feeding regimens and intense sexual adventures while catering to the neurotic control-freak tendencies of his new master. She vows to eliminate him if he proves too difficult to control. This story is bold and evocative, infusing blood, sex, love and turmoil in an urban drama about two vampires battling evil outside and within themselves. >>> "If you like your vampires vicious and bloody, and your erotica with a plot, this is the book for you." >>> "Luedke brings his main characters to life, both incredibly flawed and powerfully charismatic, with a wonderful writing style, in this unique twist on the Vampire." >>> "This is unlike any vampire tale I have ever read, and is as far removed from Bram Stoker's Dracula, as New York is from Transylvania. Travis Luedke has fashioned a compelling tale of love, passion, violence and steamy hot sex, set against the backdrop of the Big Apple." Find out what happens in the first novel of the Nightlife Series...bite into your copy today!

it can do! An amazing photo begins with a quality camera and the know-how to use it. If you've selected the Canon EOS 90D, you now have a digital camera that serves a range of photographers, from novices to professionals. It takes some know-how to take advantage of the camera's upgrades to its sensor, shutter speed, and video capabilities. Fortunately, Canon EOS 90D For Dummies can help you maximize the potential of the camera and its features. Canon EOS 90D For Dummies lets you skip the photography class and start shooting high-quality images right away. The book introduces the camera's settings; explains how to take control of exposure, focus, and color; and shows how to put all this new-found knowledge to work to shoot great portraits or action shots. The book is co-written by a pair of photography pros who share their professional experience on how to apply simple techniques for great shots. Choose the best setting for your situation. Manage focus and color. Make the most of your lighting. Understand camera settings. Customize your camera to your needs. Create remarkable photos and memories, whether you stick with user-friendly automatic settings or decide to dive into more advanced features. With your Canon EOS 90D and this book at your side, you can shoot quality video and capture moving subjects confidently.

**The Psychology of Dexter** Bella Depaulo 2010-09-07 Peek inside the mind of Dexter Morgan—police forensic analyst, family man, serial killer, and the star of Showtime's most-watched series—with essays from seventeen psychologists and avid fans. Aimed at Dexter devotees and armchair psychologists, *The Psychology of Dexter* takes on the psychological complexities of the popular series with an eye towards insight and accessibility. It analyzes not just the title character, but his family, coworkers, and even his viewers. What makes Dexter tick? What makes a show about a serial killer so appealing to those of us at home. And do we need to be worried about our own Dark Passengers? From the implications of faking normalcy (could it be behind Dexter's still-in-progress emotional growth?) to where the show weighs in on the psychological debate between nature and nurture, this book gives fans a peek inside Dexter's psyche. Think you know Dexter? *The Psychology of Dexter* will make you think again.

*The Other Side of the Pillow* Zane 2015-07-28 The latest novel from the New York Times bestselling Queen of Erotica about a testy love affair between a woman who's had enough and a man who's had it all. Jemistry Daniels, the beautiful, intelligent, six-figures-a-year high school principal, suffered through one bad relationship after another. No wonder she adopted the "friends with benefits" mentality when it came to men. For Jemistry, there was to be no "catching feelings." Her biggest mistake would be to open her heart again. When Dr. Tevin Harris meets Jemistry at a poetry reading in a café, he knows from her confessional writing that her past with men has been difficult. The prominent vascular

surgeon, who has been only casually dating for years, is attracted to the embittered Jemistry nonetheless. With a little persistence, Tevin convinces Jemistry to go out with him. She has baggage, but so does he. What about his divorce? Despite their respective pasts, Jemistry and Tevin's chemistry is right and the relationship takes off, but not without bumps in the road. When Jemistry encounters her new beau in a compromising position with her bisexual best friend, what follows is an intense, sensuous, and unforgettable drama with surprises around every turn.

The Penguin Book of Russian Poetry Robert Chandler 2015-02-26 An enchanting collection of the very best of Russian poetry, edited by acclaimed translator Robert Chandler together with poets Boris Dralyuk and Irina Mashinski. In the late eighteenth and early nineteenth centuries, poetry's pre-eminence in Russia was unchallenged, with Pushkin and his contemporaries ushering in the 'Golden Age' of Russian literature. Prose briefly gained the high ground in the second half of the nineteenth century, but poetry again became dominant in the 'Silver Age' (the early twentieth century), when belief in reason and progress yielded once more to a more magical view of the world. During the Soviet era, poetry became a dangerous, subversive activity; nevertheless, poets such as Osip Mandelstam and Anna Akhmatova continued to defy the censors. This anthology traces Russian poetry from its Golden Age to the modern era, including work by several great poets - Georgy Ivanov and Varlam Shalamov among them - in captivating modern translations by Robert Chandler and others. The volume also includes a general introduction, chronology and individual introductions to each poet. Robert Chandler is an acclaimed poet and translator. His many translations from Russian include works by Aleksandr Pushkin, Nikolay Leskov, Vasily Grossman and Andrey Platonov, while his anthologies of Russian Short Stories from Pushkin to Buida and Russian Magic Tales are both published in Penguin Classics. Irina Mashinski is a bilingual poet and co-founder of the StoSvet literary project. Her most recent collection is 2013's *Ophelia i masterok* [Ophelia and the Trowel]. Boris Dralyuk is a Lecturer in Russian at the University of St Andrews and translator of many books from Russian, including, most recently, Isaac Babel's *Red Cavalry* (2014).

*The Pages of the Mind* Jeffe Kennedy 1949-01-01 A clever librarian is forced to marry a king she cannot understand in this award-winning, fantasy romance by the author of *The Talon of the Hawk*. Magic has broken free over the Twelve Kingdoms. The population is beset by shapeshifters and portents, landscapes that migrate, uncanny allies who are not quite human...and enemies eager to take advantage of the chaos. Dafne Mailloux is no adventurer—she's a librarian. But the High Queen trusts Dafne's ability with languages, her way of winnowing the useful facts from a dusty scroll, and even more important, the subtlety and guile that three decades under the thumb of a tyrant taught her. Dafne never thought to need those skills again. But she accepts her duty. Until her journey drops her into the arms of a barbarian king. He speaks no tongue she knows but that of power, yet he recognizes his captive as a valuable pawn. Dafne must submit to a wedding of alliance, becoming a prisoner-queen in a court she does not understand. If she is to save herself and her country, she will have to learn to read the heart of a wild stranger. And there are more secrets written there than even Dafne could suspect... 2017 RITA® Award Winner for Best Paranormal Fantasy Romance Perfect for Game of Thrones fans looking for more romance. Praise for *The Pages of the Mind* "Dafne and Nako'a's story is captivating, passionate and magical . . . . Readers will clamor to learn more about *The Uncharted Realms*." —RT Book Reviews, Top Pick "Kennedy has landed on my must buy list . . . . *The Pages of the Mind* is a definite and enthusiastic A." —Smart Bitches, Trashy Books

renowned erotic photographer Stefan Soell, after enjoying great success with his two lavish photographic volumes entitled "Alpenglow" and "Volcanic Girls". A completely new, modern style of portraying the nude was required, and Stefan has once more succeeded convincingly. He searched for the right type of woman to match his vision for three long years, finally settling on something between the young, successful, cool businesswoman and glamorous movie star. Oozing beauty, of course, fantastically built, with a confident, cheeky appearance, and unashamedly flaunting their sex appeal. Soell has discovered over 16 completely new, never-seen-before faces, and managed to fit all their glorious nudity into the unprecedented environment of finest, ultra-modern, minimalist architecture. The contrast between the wonderful, warm skin tones, sensual body shapes and the cool, modern architecture could not be greater, and the very unusual combination of hot eroticism and cool design increases the attraction of this volume of photographs immensely.

**Spy Camera** Michael Pritchard 1993 "Spy, subminiature and detective cameras have long held a fascination for collectors and the general public alike, who often associate these cameras with the Cold War period of the 1950s. The desire to make small and disguised cameras, however, goes back much further, as far as the 1860s - although it was not until the more sensitive plates of the 1880s and, later, rollfilms were developed that subminiature cameras began to appear in all sorts of shapes and sizes. Many such cameras are still being made for covert use and industrial espionage" -- Dust jacket.
