SADC Gender Protocol 2014 Barometer Morna, Colleen Lowe 2014-10-25 In August 2008, Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. By the 2013 Heads of State summit, 13 countries had signed and 12 countries had ratified the SADC Gender Protocol. The Protocol is now in force. With one year to go, time is ticking to 2015, when governments need to have achieved 28 targets for the attainment of gender equality. In keeping with the Alliance slogan: Yes we must! this 2014 Barometer provides a wealth of updated data against which progress will be measure by all those who cherish democracy in the region. The world, and SADC, is also looking to the future with the post 2015 agenda. Now is the time to strengthen resolve, reconsider, reposition, and re-strategise for 2030.

Responding to the Educational Needs of Post-school Youth Nico Cloete 2009 The research reflected in this volume indicates that in South Africa there are almost three million youth between the ages of 18 and 24 who are not in education, training or employment-a situation which points not only to a grave wastage of talent, but also to the possibility of serious social disruption. The authors in this work paint a picture of the enormous reservoir of human talent which exists in the country, but is not provided with the means to develop. Responding to the Educational Needs of Post-School Youth attempts not only to sketch the scope and extent of the current post-school educational crisis, but also to explore possible solutions through collaboration in the higher education sector. The findings reported here are a result of three distinctive but linked research components conducted by the Further Education and Training Institute (University of Western Cape), the Centre for Higher Education Transformation, and the Southern Africa Labour and Development Research Unit (university of Cape Town). The research was funded by the Ford Foundation and the project conducted in consultation with the Department of Education.
