How to Save Your Stuff from a Disaster Scott M. Haskins 1996-01-01

When Trash Becomes Art Lea Vergine 2007 The result of painstaking research by Lea Vergine, this volume explores the meaning of the "trash" phenomenon in contemporary art from the early 20th century (Boccioni, Carrà, Depero, Picabia, Schwitters), through the Sixties and Seventies (Burri, Kounellis, Fontana, Vautier, Rotella, César, Arman, Manzoni, Pistoletto, Beuys, Spoerri), and up to the present (Cragg, Parmiggiani, Boltanski, Sherman, Bourgeois, Serrano, Cattelan). It examines the challenge launched by these artists, who use waste as a material for creating art. In an era marked by great concern about the environment, the artistic use of the discarded object expresses the alienation and distress that appear to be eroding the wantonly consumeristic social model represented by the West. Recovering and preserving refuse is a means of trying to hold on to it, of making it survive by saving it from a void, from being nothing, from the dissolution to which it is destined; it is about the desire to leave a mark, a trace, a clue for those who remain, hence touching a dimension that is psychological as well as political.

Sweet Air Edward P. Comentale 2013-02-28 *Sweet Air* rewrites the history of early twentieth-century pop music in modernist terms. Tracking the evolution of popular regional genres such as blues, country, folk, and rockabilly in relation to the growth of industry and consumer culture, Edward P. Comentale shows how this music became a vital means of exploring the new and often overwhelming feelings brought on by modern life. Comentale examines these rural genres as they translated the traumas of local experience--the racial violence of the Delta, the mass exodus from the South, the Dust Bowl of the Texas panhandle--into sonic form. Considering the accessibility of these popular music forms, he asserts the value of music as a source of progressive cultural investment, linking poor, rural performers and audiences to an increasingly vast network of commerce, transportation, and technology.

Inside the White Cube Brian O'Doherty 1999 These essays explicitly confront a particular crisis in postwar art, seeking to examine the assumptions on which the modern commercial and museum gallery was based.

100 Things to Recycle and Make Fiona Hayes 2019-06-18 Keep crafty children of all ages entertained and inspired for hours with Fiona Hayes' 100 Things to Recycle and Make. Everyday materials are transformed into all kinds of stunning and practical projects, from toy animals and vehicles to dressing-up props, decorations, games, and even fun storage solutions. Bringing together the best projects from the popular Crafty Makes series, each section is dedicated to a different base object: cardboard boxes; paper plates; cardboard tubes; materials from nature; and egg cartons. With twenty projects per section to choose from, and 100 projects overall, this book will appeal to a wide range of ages and interests. Simple cardboard tubes become a set of pirate skittles, a friendly octopus, and an entire castle. Plain cardboard boxes are turned into a pirate ship, a money box, and a robot; twigs, leaves and other outdoors materials become picture frames, masks, and a dinosaur. Paper plates make a great bug or flower hat, a dotty frog, and a cute panda, while egg cartons are turned into a fire engine, a pencil holder, and a Christmas tree. Children will be entertained for hours with this invaluable collection of crafty makes, and even the whole family can be involved in recycling everyday objects and turning them into exciting projects. Create entire animal kingdoms and alien worlds, or simply a new favourite toy or mascot. With such a huge range of exciting projects to make from the simplest of objects, 100 Things to Recycle and Make is the ultimate craft inspiration for creative children.

Drawing Leo Duff 2008-12-01 To clear their minds and organize their ideas, artists will often start projects by drawing sketches. *Drawing - The Purpose* asks why artists and designers use drawing in this way to kick-start their creative thinking, considering the application of drawing and its various uses across disciplines. From the interdisciplinary perspectives of archaeology, jewellery design, illustration and landscape architecture, this innovative volume highlights how drawing is used in the professional world. With examples from both contemporary and historical contexts, *Drawing - The Purpose* will be an invaluable resource for practitioners and scholars seeking a rationale for why we draw. *Drawing - The Purpose* follows on from the book of essays, *Drawing - The Process* (Intellect, 2005) which investigated drawing as an interdisciplinary activity with historical and contemporary examples."

Stick to the Skin Celeste-Marie Bernier 2019-01-08 The first comparative history of African American and Black British artists, artworks, and art movements, *Stick to the Skin* traces the lives and works of over fifty painters, photographers, sculptors, and mixed-media, assemblage, installation, video, and performance artists working in the United States and Britain from 1965 to 2015. The artists featured in this book cut to the heart of hidden histories, untold narratives, and missing memories to tell stories that "stick to the skin" and arrive at a new "Black lexicon of liberation." Informed by extensive research and invaluable oral testimonies, Celeste-Marie Bernier's remarkable text forcibly asserts the originality and importance of Black artists' work and emphasizes the need to understand Black art as a distinctive category of cultural production. She launches an important intervention into European histories of modern and contemporary art and visual culture as well as into debates within African American studies, African diasporic studies, and Black British studies. Among the artists included are Benny Andrews, Bessie Harvey, Lubaina Himid, Claudette Johnson, Noah Purifoy, Faith Ringgold, Betye Saar, Joyce J. Scott,

The Malcontents Reginald Keith 2007-10-01 Author Reginald Keith, in his novel "The Malcontents," paints a portrait of war-torn Germany, the lives of those ravaged by violence and betrayal within the Third Reich. Enter into the society and culture of post-war Germany still populated by those who believed and supported the philosophy of The Malcontents, a group of former officials in the Nazi regime, whose plan was to convert prestigious works of art into cash as recompense, ultimately financing a resurrection of Aryan Supremacy through political power. Andre Von Kunst, owner of Von Kunst Gallery, Berlin, finds himself fascinated by Katya Preznoski, first violinist with the Polish State Orchestra. Determined to meet her in person, he follows the orchestra across Germany, as his partner, Hannelore Hassenfeld, a friend since childhood, manages the gallery. Unbeknownst to Andre, she continues to perpetuate an illicit plan set up by her father with a group of former Nazi government officials, known as the Kreis, to funnel stolen artworks to the gallery for eventual sale in the U.S. An unlikely turn of events sheds light on personal betrayals, blatant prejudices, unrequited love, and conflicting loyalties, as this intense journey into the German society of the sixties proffers that things are not often what they appear to be.

The Art of Richard Thompson Nick Galifianakis 2014-11-25 Richard Thompson is renowned among cartoonists as an "artist's" cartoonist. Little known to all but those close to him is the extent of his art talent. This is the book that will enlighten the rest of us and delight us with the sheer beauty of his work. Divided into six sections, each beginning with an introductory conversation between Thompson and six well-known peers, including Bill Watterson, the book will present Thompson's illustration work, caricatures, and his creation, Richard's Poor Almanack. Each section is highly illustrated, many works in color, most of them large and printed one-to-a-page. The diversity of work will help cast a wider net, well beyond Cul de Sac fans.

Cardboard Condo Robert C. Greene 2005-01 This is a book about homeless people. What do you feel when you encounter one? Fear? Pity? Revulsion? Guilt? Indifference? Or, do you not see them at all? In an effort to make the reader see homeless persons as real people, each one a separate and unique individual, the author has interviewed many of them on the streets and in shelters. Most are still homeless while some have managed to re-enter society. The author wanted to know how they came to be homeless, how they survived on the street and, for those who have overcome it, how they did it. The next time you see someone sleeping in a doorway or digging half-eaten sandwiches out of a garbage can, this book will hopefully make you want to look at them in a different light.

Save Your Stuff in the Workplace Scott M. Haskins 2013-04-01 In 1994, in response to the Northridge Earthquake in the Los Angeles area, Scott Haskins was asked to write a pamphlet entitled "How To Respond After An Earthquake." 500,000 units were distributed to the public through the Human Resource department of The Bank of America Corporation. Following this event, he was asked to write "Save Your Stuff in the Workplace" because there was (and is) no other information available to the corporate and government world. "Save Your Stuff" fills the need for public outreach and education on the subject of Emergency Preparedness and Disaster Response. There is no other resource available to provide this information and education in an entrepreneurial way. The presentation of the educational information is unique in that it translates the professional conservation/preservationese into plain public English.

How Spaces Become Places John F. Forester 2021-10-12 Useful and inspiring cases illustrate participatory placemaking practices and strategies These are stories of community members acting together to transform empty, contested, or unsafe spaces into functional, safe, convivial places. A diverse set of place makers, from activists to architects, moderators to planners, spanning four countries and ten US locales tell their stories in their own words. The complex and challenging cases range from building affordable housing to community building in the aftermath of racial violence. After grappling with issues like immigration, climate change, and coalition-building, place makers recount how they worked alongside once-suspicious community residents to enhance and enrich the places in which they live. You will learn how place makers build trust, diagnose local problems, convene stakeholders, and invent possible solutions based on the physical, spatial, and engineering possibilities at hand.

How to Host a Viking Funeral Kyle Scheele 2022-02-08 An inspiring speaker and artist asked 20,000 people around the world to share the regrets they wanted him to burn in a mock Viking ship. This is the story of what he learned about letting go of the pain of the past and embracing the future with hope. Turning 30, artist and speaker Kyle Scheele wanted to do something unusual to mark this milestone. Instead of a birthday bash, he decided to hold a funeral to memorialize the decade of his life that was ending. Building a 16-foot Viking ship out of cardboard, he invited friends to help him set it on fire—a symbolic farewell to his 20s and all the grief, regret, and mistakes that accompanied those years. When video of his Viking funeral went viral, it encouraged many others to let go of past hurts as well. Moved by the response he received, Kyle planned a second funeral (this time with a 30-foot cardboard Viking ship) and asked people to share the things they carried—the bad choices, disappointments, heartaches, and negative thinking that they wanted to lay to rest. He received more than 20,000 responses from around the world—stories both heartbreaking and hilarious, painful and inspiring. In this entertaining and wise book, Kyle reflects on what he discovered about freeing ourselves from the pain of the past, interweaving anecdotes from those who participated with the story of his own journey of renewal. “This story involves multiple Viking funerals, thousands of square feet of cardboard, and enough hot glue to supply your mother-in-law's craft night for the rest of time,” he writes. “But it also involves regret, self-doubt, insecurity, and ultimately, redemption. So buckle up. It's about to get bumpy.” *How to Host a Viking Funeral* is the story of letting go of the people we used to be, but no longer want to be. It's about renewal; where there was once regret there is now blank space—an opportunity for a fresh start.
