Modernity Britain David Kynaston 2013-06-20 The late 1950s was an action-packed, often dramatic time in which the contours of modern Britain began to take shape. These were the 'never had it so good' years, when the Carry On film series and the TV soap Emergency Ward 10 got going, and films like Room at the Top and plays like A Taste of Honey brought the working class to the centre of the national frame; when the urban skyline began irresistibly to go high-rise; when CND galvanised the progressive middle class; when 'youth' emerged as a cultural force; when the Notting Hill riots made race and immigration an inescapable reality; and when 'meritocracy' became the buzz word of the day. The consequences of this 'modernity' zeitgeist, David Kynaston argues, still affect us today.

How to Sell Your Art Online Cory Huff 2016-06-28 An essential guide for artist that teaches them how to skip the gallery system, find their niche, and connect directly with collectors to profitably sell their art. For years, galleries have acted as gatekeeper separating artists and collectors. But with the explosion of the Internet, a new generation of savvy, independent artists is connecting with buyers and making a substantial living doing what they love. How to Sell Your Art Online shows any artist how to make a successful living from their work. Cory Huff dispels the myth of the starving artist and provides the effective business strategies necessary to make artistic creations pay. He helps individual artists find their niche; outlines the elements essential for an effective website; and provides invaluable advice on e-mail marketing, blogging, social media marketing, and paid advertising—explaining how to tie all these online activities into offline success. Most importantly, he shares the secret to overcoming the biggest challenge artists face when self-marketing: learning how to tell their unique stories. Every artist has a reason for making art, but can't always find the right way to express it. Huff provides exercises artists can use to clarify the intellectual and emotional process behind their art, and teaches them how turn that knowledge into stories they can tell online and in person—and expand their reach through blogs and social media to build their art business. Drawing from the stories of successful artists, thoroughly describing how art is sold today, and providing tips on how to build connections personally and electronically, How to Sell Your Art Online illustrates the countless ways artists can take control of their creative careers—and sell their work without selling out.

The Stroke Gerrit Noordzij 2006-01-01 Appearing for the first time in an English-language edition, *The Stroke* puts forward a genuine theory of writing that is, the concepts behind letters on the page, whether by pen, pencil, or brush. Concerned not with art calligraphy and beautiful forms, *The Stroke* is a description of the phenomenon of letters and how they are made in writing. Starting from basic principles, Noordzij begins with the white space that creates definition by surrounding letters. Then, using simple geometrical concepts, he describes in minute detail how the strokes of writing can be formed. His theory serves to repair the split that grew up, with the invention of printing, between written and typographic letters. With *The Stroke*, Noordzij can be seen as a prophet of digital typography committed to freeing typefaces from the constraints of their embodiment in metal.

The Poetry of Andrew Marvell Andrew Marvell 2017-01-11 In 1661 Marvell was re-elected MP for Hull in the Cavalier Parliament. He eventually came to write several long and bitterly satirical verses against the corruption of the court. Although circulated in manuscript form, some finding anonymous publication in print, they were too politically sensitive and thus dangerous to be published under his name until well after his death. Marvell took up opposition to the 'court party', and satirised them anonymously. In his longest verse satire, *Last Instructions to a Painter*, written in 1667, Marvell responded to the political corruption that had contributed to English failures during the Second Anglo-Dutch War. From 1659 until his death in 1678, Marvell was serving as London agent for the Hull Trinity House, a shipmasters' guild. He travelled on their behalf to the Dutch Republic and Russia, Sweden, and Denmark. He died suddenly on August 16th, 1678, while in attendance at a popular meeting of his old constituents at Hull. His health had been remarkably good; and it was speculated that he was poisoned by political or clerical enemies. Marvell was buried in the church of St Giles in the Fields in central London. His monument, erected by his grateful constituency, bears the following inscription: Near this place lyeth the body of Andrew Marvell, Esq., a man so endowed by Nature,

so improved by Education, Study, and Travel, so consummated by Experience, that, joining the peculiar graces of Wit and Learning, with a singular penetration and strength of judgment; and exercising all these in the whole course of his life, with an unutterable steadiness in the ways of Virtue, he became the ornament and example of his age, beloved by good men, feared by bad, admired by all, though imitated by few; and scarce paralleled by any. But a Tombstone can neither contain his character, nor is Marble necessary to transmit it to posterity; it is engraved in the minds of this generation, and will be always legible in his inimitable writings, nevertheless. He having served twenty years successfully in Parliament, and that with such Wisdom, Dexterity, and Courage, as becomes a true Patriot, the town of Kingston-upon-Hull, from whence he was deputed to that Assembly, lamenting in his death the public loss, have erected this Monument of their Grief and their Gratitude, 1688.

It gives designers the practical know-how to combine type and image for dynamic effect as well as to use them in contrast to create tension and meaning in design. Creating strong layouts is the most important as well as the most challenging of any project. This book inspires through excellence by exhibiting great design work then deconstructing the processes in simple visual terms. *Type, Image, Message: Merging Pictures and Ideas* looks at this respected art form while providing practical information that can be used by any designer wishing to hone the skills needed to merge type with images in an inspired manner.

The Touch Aurore Leigh Barrett 2013-10 "Fear Not my dear, Fear not of me Fear Not for fear shall not help thee The time is short, my plans are made Your casket shall be trimmed with jade." Thus begins Aurore Leigh Barrett's poem, "Fear Not" – an homage to one of her favorite poets, Edgar Allan Poe. It masterfully combines the macabre with the humorous. This stellar work, which Poe, no doubt, would wish he had written, is just one of a few poems in this current collection written in his honor – and one of many poems you will find that ably represent Barrett's enormous talent. This collection of poems and stories by Aurore Leigh Barrett invites you to step into the world of this creative artist, and sample the breadth and depth of her literary world. Rather than being an exhaustive representation of a solitary style or mood, this book is a buffet of delights as it takes you from the lows of her loneliness to the heights of her happiness - from the dark and scary side of her imagination to the forthright and intelligent adventures of her alter-ego, Holly Hedges Whistler. Through it all, we share in her view of the world, and the way she makes the most of every day this life has to offer. In "Stardust", Barrett tells how she begins each day - throwing a spoonful of stardust into the wind. "The Stardust flies, the light sparkles, the grass begins to twinkle as the blades catch each falling 'star', and the flowers bow their heads as if to receive this glistening gift." As Barrett lays bare her feelings, she tells us that writing is "a beautiful sweet torture of the soul". She tells us that "writing is the pain of pulling away precious bits of memory or time. It is the quickening of birth within the loins of creation. It is the delicious ecstasy of desire that only I can satisfy." Welcome to her world. This all-too-brief collection of Aurore Leigh Barrett's writing will leave you hungry for more.

Type Now Fred Smeijers 2003 "In the mid-1980s - with the widespread adoption of the personal computer and small laser printers, with the introduction of cheap software packages for making pages and typefaces - a revolution in typography was set in train. Among several unforeseen consequences was an overthrow of the old way of making typefaces: the initiative passed from the old industrially-based companies to small, often one- or two-person outfits. Now we are far enough into this new era to begin to make an assessment." "The first part of this book is a personal statement. Fred Smeijers considers the gains and also the illusions and pitfalls of technical advance. Bringing a deep historical awareness to bear on the topic, he puts this brief recent phase into perspective. Along the way are sharp remarks on the place of the designer in the social world, on the question of copying and copyright. This realistic view brings high-flown pretensions down to earth, yet puts forward a more solid and enduring vision. Smeijers ends this modest manifesto with a new code of conduct for designers." "The second part of the book presents Smeijers's own work as a type designer and graphic designer, over twenty years. It shows all his types and fonts, including several that have until now been hidden from public view, and includes the designer's own narrative of his work so far." "The book has been made in connection with the award to Fred Smeijers of the Gorrit Noordzij Prize, in recognition of his contribution as a designer, teacher, and writer." --Book Jacket.

Modern Typography Robin Kinross 2004 *Modern Typography*, 2nd Edition is a completely updated and revised edition of Robin Kinross's classic survey of European and North American typography since 1700, first published in 1992. In addition to numerous new illustrations and revised text, *Modern Typography* has been re-scaled to a new, convenient pocket format. Kinross's overview breaks ground by focusing on the history of typography as an intricate web of social, technical, and material processes, rather than a parade of typeface styles. Eye magazine calls *Modern Typography* the book that tells "how modern typography got to be the way it is." Together, Kinross's clear, concise writing combined with his extensive knowledge of the history of typography create a gold standard for how design history ought to be written.
