**German Reformation** R. W. Scribner 2017-03-14 Over the past twenty years, new approaches to the history of the Reformation of the Church have radically altered our understanding of that event within its broadest social and cultural context. In this classic study R. W. Scribner provided a synthesis of the main research, with a special emphasis on the German Reformation, and presented his own interpretation of the period. Paying particular attention to the social history of the broader religious movements of the German Reformation, Scribner examined those elements of popular culture and belief which are now seen to have played a central role in shaping the development and outcome of the movements for reform in the sixteenth century. Scribner concluded that 'the Reformation', as it came to be known, was only one of a wide range of responses to the problem of religious reform and revival, and suggested that the movement as a whole was less successful than previously claimed. In the second edition of this invaluable text, C. Scott Dixon's new Introduction, supplementary chapter and bibliography continue Scribner's original lines of inquiry, and provide additional commentary on developments within German Reformation scholarship over the sixteen years since its first publication.

*Cosmic Miniatures and the Future Sense* Leslie Adelson 2017-04-10 Alexander Kluge's revolutionary storytelling for the 21st-century pivots on the production of anti-realist hope under conditions of real catastrophe. Rather than relying on possibility alone, his experimental miniatures engender counterfactual horizons of futurity that are made incrementally accessible to lived experience through narrative form. Innovative close readings and theoretical reflection alike illuminate the dimensional quality of future time in Kluge's radical prose, where off-worldly orientation and unnatural narrative together yield new sensory perspectives on associative networks, futurity, scale, and perspective itself. This study also affords new perspectives on the importance of Kluge's creative writing for critical studies of German thought (including Kant, Marx, Benjamin, and especially Adorno), Holocaust memory, contemporary globalization, literary miniatures, and narrative studies of futurity as form. *Cosmic Miniatures* contributes an experiential but non-empirical sense of hope to future studies, a scholarly field of pressing public

interest in endangered times.

*Hito Steyerl: I Will Survive* Hito Steyerl 2021-05-04 A massive, long-overdue retrospective on the multimedia image critique of Hito Steyerl, influential artist and author of *Duty-Free Art* and *The Wretched of the Screen*. Over the past 30 years, through video and installation, the immensely influential German artist and writer Hito Steyerl (born 1966) has been tracking the ways that images have mutated--from the analogue image and its manifold possibilities for montage to the fluidity of the split digital image--and the implications these mutations have had for the representation of wars, genocides and the flow of capital. "We are no longer dealing with the virtual but with a confusing and possibly alien concreteness that we are only beginning to understand," writes Brian Kuan Wood of the digital visual worlds that the artist presents. At nearly 500 pages, this book--the first substantial overview on Steyerl--looks at multimedia installations and film projects of the past ten years, as well as earlier works, all of which are united by the artist's unflagging interrogation of the politics of the image.

**Émigré Cultures in Design and Architecture** Alison Clarke 2017-11-02 This new volume addresses the lasting contribution made by Central European émigré designers to twentieth-century American design and architecture. The contributors examine how oppositional stances in debates concerning consumption and modernism's social agendas taken by designers such as Felix Augenfeld, Joseph Binder, Josef Frank, Paul T. Frankl, Frederick Kiesler, Richard Neutra, and R. M. Schindler in Europe prefigured their later adoption or rejection by American culture. They argue that émigrés and refugees from fascist Europe such as György Kepes, Paul László, Victor Papanek, Bernard Rudofsky, Xanti Schawinsky, and Eva Zeisel drew on the particular experiences of their home countries, and networks of émigré and exiled designers in the United States, to develop a humanist, progressive, and socially inclusive design culture which continues to influence design practice today.

*A history of the world as it has become known to me* Ellen Cantor 2018-04-13

Ellen Cantor (1961–2013) combined ready-made materials with diaristic notes and drawings to probe her perceptions and experiences of personal desire and institutional violence. This book is concerned with, and a document of, Cantor's work through the lens of *Pinochet Porn* (2008–16) and its making—an epic experimental film embodying and radically extending her multifaceted artistic practice. Taking the form of an episodic narrative about five children growing up under the regime of General Augusto Pinochet in Chile, and shot between her dual hometowns of London and New York, history is observed through Cantor's fictive speculations on private experience within a totalizing political order. A history of the world as it has become known to me brings together writings and archival materials of Cantor's, including a reproduction in full of her drawing-based script *Circus Lives from Hell* (2004), alongside contributions by writers, artists, collaborators, and friends reflecting on Cantor's practice, *Pinochet Porn*, and a singularly transgressive vision: explicitly feminist, remorselessly emotional, dramatic in tone, and, as Cantor herself liked to put it, adult in subject matter. This publication follows the exhibitions “Cinderella Syndrome,” CCA Wattis Institute for Contemporary Arts (December 8, 2015–February 13, 2016) and “Ellen Cantor,” Künstlerhaus Stuttgart (April 2–July 31, 2016). **Sheep Machine** Vi Khi Nao 2018-06-27 Poetry. Asian & Asian American Studies. Film. SHEEP MACHINE is a textual inscape, a poetically painted nonfictional pasture where mechanical violence and visceral fear coalesce into a kind of science prosody, a post-human panorama whose beauty lies in the ruins of reality it depicts. Influenced by Leslie Thornton's film of sheep feeding in a field as a conveyor belt of cable cars ascend and return from a mountain in the Swiss Alps, Vi Khi Nao takes perception into tumultuous terrains, into a pastoral-celestial void in which temporality is transcended, progress is a bourgeois invention, and god is a liability for our life spent in hunger and

**Affective Societies** Jan Slaby 2019-01-21 Affect and emotion have come to dominate discourse on social and political life in the mobile and networked societies of the early 21st century. This volume introduces a unique collection of essential concepts for theorizing and empirically investigating societies as Affective Societies. The concepts promote insights into the affective foundations of social coexistence and are indispensable to comprehend the many areas of conflict linked to emotion such as migration, political populism, or local and global inequalities. Adhering to an instructive narrative, Affective Societies provides historical orientation; detailed explication of the concept in question, clear-cut research examples, and an outlook at the end of each chapter. Presenting interdisciplinary research from scholars within the Collaborative Research Center "Affective Societies," this insightful monograph will appeal to students and researchers interested in fields such as affect and emotion, anthropology, cultural studies, and media studies.

**Klingsor's Last Summer** Hermann Hesse 2013-01-22 This is the first English-language edition of Klingsor's Last Summer, which was originally published in 1920, a year after *Demian* and two years before *Siddhartha*. The book has three parts: a story called *A Child's Heart*, followed by *Klein and Wagner* and *Klingsor's Last Summer*, Hesse's two longest and finest novellas. These novellas, along with *Siddhartha* (the three works were republished in 1931 under the title *The Inward Way*), are the first fruits of the period that began in the spring of 1919, when Hesse settled in the Ticino mountain village of Montagnola to start a new life without his wife and children. *A Child's Heart*, written in January 1919, in Basel, concerns the transmutation of a boy's innocence into knowledge of good and evil, and the painful guilt that accompanies this process. Both *Klein and Wagner* (written in May-June 1919, immediately after the arrival in Montagnola) and *Klingsor's Last Summer* (written shortly after) are set in a southern landscape that reflects Hesse's life that summer; both novellas have heroes who are more or less Hesse's age at the time; and in both the hero's death is preceded by a grand vision of unity in which the polarities of life are resolved. Hesse exposes himself mercilessly in *Klein and Wagner*, a story of escape, wrenching loose, letting go. But the expressionist painter Klingsor is a more direct self-portrait of the Hesse of 1919.

*Poets Laureate in the Holy Roman Empire* John Flood 2006-01-01 Petrarch's revival of the ancient practice of laureation in 1341 led to the laurel being conferred on poets throughout Europe in the later Middle Ages and the Early Modern period. Within the Holy Roman Empire, Maximilian I conferred the title of Imperial Poet Laureate especially frequently, and later it was bestowed with unbridled liberality by Counts Palatine and university rectors too. This handbook identifies more than 1300 poets laureated within the Empire and adjacent territories between 1355 and 1804, giving (wherever possible) a sketch of their lives, a list of their published works, and a note of relevant scholarly literature. The introduction and various indexes provide a detailed account of a now largely forgotten but once significant literary-sociological phenomenon and illuminate literary networks in the Early Modern period.

**History in the Plural** Niklas Olsen 2012-01-30 Reinhart Koselleck (1923–2006) was one of most imposing and influential European intellectual historians in the twentieth century. Constantly probing and transgressing the boundaries of mainstream historical writing, he created numerous highly innovative approaches, absorbing influences from other academic disciplines as represented in the work of philosophers and political thinkers like Hans Georg Gadamer and Carl Schmitt and that of internationally renowned scholars such as Hayden White, Michel Foucault, and Quentin Skinner. An advocate of "grand theory," Koselleck was an inspiration to many scholars and helped move the discipline

into new directions (such as conceptual history, theories of historical times and memory) and across disciplinary and national boundaries. He thus achieved a degree of international fame that was unusual for a German historian after 1945. This book not only presents the life and work of a "great thinker" and European intellectual, it also contributes to our understanding of complex theoretical and methodological issues in the cultural sciences and to our knowledge of the history of political, historical, and cultural thought in Germany from the 1950s to the present.

*Berlin Metropolis 1918-1933* Olaf Peters 2015-10-19 This lavishly illustrated book examines Berlin in depth during a period of explosive growth between the two world wars. Between 1871 and 1919, the population of Berlin quadrupled, and the city became the political center of Germany, as well as the turbulent crossroads of the modern age. This was reflected in the work of artists, directors, writers, and critics of the time. As an imperial capital, Berlin was the site of violent political revolution and radical aesthetic innovation. After the German defeat in World War I, artists employed collage to challenge traditional concepts of art. Berlin Dadaists reflected upon the horrors of war, and the terrors of revolution and civil war. Between 1924 and 1929 as the spirit of modernity took hold, jazz, posters, magazines, advertisements, and cinema played a central role in the development of Berlin's urban experience. The concept of the "Neue Frau"--the modern, emancipated woman--helped move the city in a new direction. Finally, Berlin became a stage for political confrontation between the left and the right and was deeply affected by the economic crisis and mass unemployment at the end of the 1920s. This book explores in numerous essays and illustrations the artistic, cultural, and social upheavals in Berlin between 1918 and 1933, and places them in a broader historical framework.
