*Super Tuesday* Barbara Norrander 2014-10-17 Super Tuesday 1988 was the first successful attempt to get several states in one region to hold their presidential primaries on the same day. Its success -- or lack thereof -- will affect the way presidents are elected for many years to come. Reaching beyond Super Tuesday and the nominations of George Bush and Michael Dukakis, Barbara Norrander's book presents the nation's first regional primary as the latest chapter in the ever-changing system through which U.S. political parties choose their presidential candidates. Norrander's research details how changes in technology, candidate and media strategies, and historical circumstances have influenced recent presidential nominations and how they set the stage for the South's primary in 1988. *Super Tuesday: Regional Politics and Presidential Primaries* emerges as an authoritative source not only on Super Tuesday but on many other aspects of presidential nominations. This book demonstrates that much of current conventional wisdom about presidential nominations is wrong. Norrander traces candidate strategies from 1976 to 1988 and calculates turnout rates from 1960 to 1988. She also examines the composition of the Super Tuesday electorate with respect both to preconceived notions of who participates in presidential primaries and to deliberate attempts by the Democratic and Republican parties to manipulate voter turnout in the South's regional primary. Her analysis of the timing and process of nomination victories from 1976 to 1988 emphasizes the importance of the overlooked role of candidate attrition over candidate momentum. Of special interest to political scientists -- and to political observers -- concerned with parties, elections, and voting behavior, Norrander's book will reshape the examination of presidential contests in 1992 and beyond.

Getting to Zero Sinead Walsh 2018-07-15 In 2014, a 28-year old British doctor

found himself co-running the Ebola isolation unit in Sierra Leone's main hospital after the doctor in charge had been killed by the virus. Completely overwhelmed and wrapped in stifling protective suits, he and his team took it in turns to provide care to patients while removing dead bodies from the ward. Against all odds he battled to keep the hospital open, as the queue of sick and dying patients grew every day. Only a few miles down the road the Irish Ambassador and Head of Irish Aid worked relentlessly to rapidly scale up the international response. At a time when entire districts had been quarantined, she travelled around the country, and met with UN agencies, the President and senior ministers so as to be better placed in alerting the world to the catastrophe unfolding in front of her. In this blow-by-blow account, Walsh and Johnson expose the often shocking shortcomings of the humanitarian response to the outbreak, both locally and internationally, and call our attention to the immense courage of those who put their lives on the line every day to contain the disease. Theirs is the definitive account of the fight against an epidemic that shook the world.

**Georgia's Last Frontier** James C. Bonner 2010-04-01 Published in 1971, Georgia's Last Frontier presents the history of one of the state's least developed regions. During the 1830s, Carroll County was a large part of Georgia's most rugged frontier. James C. Bonner examines how life in this isolated region was complicated by the presence of Native Americans, cattle rustlers, and horse thieves. He details how the discovery of gold in the Villa Rica area resulted in drunkenness and violence, but also laid the foundations of mining technology that were later used in Colorado and California. The region remained isolated until after the Civil War, when a rail line was constructed to stimulate cotton cultivation. With the development of the railway, Carroll County's frontier traditions waned in the early twentieth century.

Time at Emar Daniel E. Fleming 2000 The recent large-scale watershed projects in northern Syria, where the ancient city of Emar was located, have brought this area to light, thanks to salvage operation excavations before the area was submerged. Excavations at Meskeneh-Qadimeh on the great bend of the Euphrates River revealed this large town, which had been built in the late 14th century and then destroyed violently at the beginning of the 12th, at the end of the Bronze Age. In the town of Emar, ritual tablets were discovered in a temple that are demonstrated to have been recorded by the supervisor of the local cult, who was called the "diviner." This religious leader also operated a significant writing center, which focused on both administering local ritual and fostering competence in Mesopotamian lore. An archaic local calendar can be distinguished from other calendars in use at Emar, both foreign and local. A second, overlapping calendar emanated from the palace and represented a rising political force in some tension with rooted local institutions. The archaic local calendar can be partially reconstructed from one ritual text that outlines the rites performed during a period of six months. The main public rite of Emar's religious calendar was the zukru festival. This event was celebrated in a simplified annual ritual and in a more elaborate version of the ritual for seven days during every seventh year, probably serving as a pledge of loyalty to the chief god, Dagan. The Emar ritual calendar was native, in spite of various levels of outside influence, and thus offers important evidence for ancient Syrian culture. These texts are thus important for ancient Near Eastern cultic and ritual studies. Fleming's comprehensive study lays the basic groundwork for all future study of the ritual and makes a major contribution to the study of ancient Syria.

Fighting for US Scot Brown 2003 In *Fighting for US*, historian Scot Brown presents the first comprehensive account of the US Organization, a California-based group that played a leading role in Black Power politics and culture during the late 1960s and early 1970s. Founded in 1965 by Maulana Karenga, US developed an extensive network of activists, artists, and organizations throughout the United States for the purpose of igniting an African American cultural revolution. Brown examines US's philosophy, internal dynamics, political activism, and influence on African American art, drawing from organizational archives, interviews, Federal Bureau of Investigation files, newspaper accounts, and other primary sources of the period. Engaging and original, *Fighting for US* is the definitive work on the US organization, Maulana Karenga, and Black cultural nationalism in America.

Olive Kitteridge Elizabeth Strout 2008-03-25 WINNER OF THE PULITZER PRIZE • THE EMMY AWARD-WINNING HBO MINISERIES STARRING FRANCES MCDORMAND, RICHARD JENKINS, AND BILL MURRAY In a voice more powerful and compassionate than ever before, New York Times bestselling author Elizabeth Strout binds together thirteen rich, luminous narratives into a book with the heft of a novel, through the presence of one larger-than-life, unforgettable character: Olive Kitteridge. At the edge of the continent, Crosby, Maine, may seem like nowhere, but seen

through this brilliant writer's eyes, it's in essence the whole world, and the lives that are lived there are filled with all of the grand human drama—desire, despair, jealousy, hope, and love. At times stern, at other times patient, at times perceptive, at other times in sad denial, Olive Kitteridge, a retired schoolteacher, deplures the changes in her little town and in the world at large, but she doesn't always recognize the changes in those around her: a lounge musician haunted by a past romance: a former student who has lost the will to live: Olive's own adult child, who feels tyrannized by her irrational sensitivities; and Henry, who finds his loyalty to his marriage both a blessing and a curse. As the townspeople grapple with their problems, mild and dire, Olive is brought to a deeper understanding of herself and her life—sometimes painfully, but always with ruthless honesty. Olive Kitteridge offers profound insights into the human condition—its conflicts, its tragedies and joys, and the endurance it requires. NAMED ONE OF THE BEST BOOK OF THE YEAR BY People • USA Today • The Atlantic • The Washington Post Book World • Seattle Post-Intelligencer • Entertainment Weekly • The Christian Science Monitor • San Francisco Chronicle • Salon • San Antonio Express-News • Chicago Tribune • The Wall Street Journal "Perceptive, deeply empathetic . . . Olive is the axis around which these thirteen complex, relentlessly human narratives spin themselves into Elizabeth Strout's unforgettable novel in stories."—O: The Oprah Magazine "Fiction lovers, remember this name: Olive Kitteridge. . . . You'll never forget her. . . . [Elizabeth Strout] constructs her stories with rich irony and moments of genuine surprise and intense emotion. . . . Glorious, powerful stuff."—USA Today BONUS: This edition includes an excerpt from Elizabeth Strout's *The Burgess Boys*.

The Headmaster John McPhee 1992-09-01 Starting in 1902 at a country school that had an enrollment of fourteen, Frank Boyden built an academy that has long since taken its place on a level with Andover and Exeter. Boyden, who died in 1972, was the school's headmaster for sixty-six years. John McPhee portrays a remarkable man "at the near end of a skein of magnanimous despots who...created enduring schools through their own individual energies, maintained them under their own absolute rule, and left them forever imprinted with their own personalities." More than simply a portrait of the Headmaster of Deerfield Academy, it is a revealing look at the nature of private school education in America.

**Network Simulation** Richard M. Fujimoto 2007 Network Simulation presents a detailed introduction to the design, implementation, and use of network simulation tools. Discussion topics include the requirements and issues faced for simulator design and use in wired networks, wireless networks, distributed simulation environments, and fluid model abstractions. Several existing simulations are given as examples, with details regarding design decisions and

why those decisions were made. Issues regarding performance and scalability are discussed in detail, describing how one can utilize distributed simulation methods to increase the scale and performance of a simulation environment. Finally, a case study of two simulation tools is presented that have been developed using distributed simulation methodology. This text is essential to any student, researcher, or network architect in need of a detailed understanding of how network simulation tools are designed, implemented, and used.

The Leader in Me Stephen R. Covey 2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind,

put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

*A Country Calendar, and Other Writings* Flora Thompson 1979 A collection of the articles Flora Thompson wrote for a small magazine, the Catholic fireside, between 1916 and 1928, when she lived in Liphook in Hampshire as the postmaster's wife. Her interest was captured by many things, including a kestrel hunting in the January skies, the return of migrant birds in April, the remedial properties of the elder tree, and the solitary life of the ploughman. Flora Thompson is perhaps best-known as the author of the country classic, *Lark Rise to Candleford*, and her remarkable observations about the countryside form a valuable part of the history of rural England.

**Song and Season** Consulting Professor Music and Symbolic Systems Eleanor Selfridge-Field 2007 Two systems of timekeeping were in concurrent use in Venice between 1582 and 1797. Government documents conformed to the Venetian year (beginning 1 March), church documents to the papal year (from 1 January). *Song and Season* defines the many ways in which time was discussed, resolving a long-standing fuzziness imposed on studies of personnel, institutions, and cultural dynamics by dating conflicts. It is in this context that the standardization of timekeeping coincided with the collapse of the *dramma per musica* and the rise of scripted comedy and the *opera buffa*. Selfridge-Field discloses fascinating relationships between the musical stage and the cultures it served, such as the residues of medieval liturgical feasts embedded in the theatrical year. Such associations were transmuted into lingering seasonal associations with specific dramatic genres. Interactions between culture and chronology thus operated on both general and specific levels. Both are fundamental to understanding theatrical dynamics of the sixteenth to eighteenth centuries.

**Station Eleven** Emily St. John Mandel 2014-09-09 NATIONAL BESTSELLER • An audacious, darkly glittering novel set in the eerie days of civilization's collapse—the spellbinding story of a Hollywood star, his would-be savior, and a nomadic group of actors roaming the scattered outposts of the Great Lakes region, risking everything for art and humanity. Now an original series on HBO Max. Over one million copies sold! Kirsten Raymonde will never forget the night Arthur Leander, the famous Hollywood actor, had a heart attack on stage during a production of King Lear. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves The Traveling Symphony, and they have dedicated themselves to keeping the remnants of art and humanity alive. But when they arrive in St. Deborah by the Water, they encounter a violent prophet who will threaten the tiny band's existence. And as the story takes off, moving back and forth in time, and vividly depicting life before and after the pandemic, the strange twist of fate that connects them all will be revealed. Look for Emily St. John Mandel's new novel, Sea of Tranquility, coming soon!
