A History of the World in 12 Maps Jerry Brotton 2014-10-28 A New York Times Bestseller “Maps allow the armchair traveler to roam the world, the diplomat to argue his points, the ruler to administer his country, the warrior to plan his campaigns and the propagandist to boost his cause... rich and beautiful.” - Wall Street Journal Throughout history, maps have been fundamental in shaping our view of the world, and our place in it. But far from being purely scientific objects, maps of the world are unavoidably ideological and subjective, intimately bound up with the systems of power and authority of particular times and places. Mapmakers do not simply represent the world, they construct it out of the ideas of their age. In this scintillating book, Jerry Brotton examines the significance of 12 maps - from the almost mystical representations of ancient history to the satellite-derived imagery of today. He vividly recreates the environments and circumstances in which each of the maps was made, showing how each conveys a highly individual view of the world. Brotton shows how each of his maps both influenced and reflected contemporary events and how, by considering it in all its nuances and omissions, we can better understand the world that produced it. Although the way we map our surroundings is more precise than ever before, Brotton argues that maps today are no more definitive or objective than they have ever been. Readers of this beautifully illustrated and masterfully argued book will never look at a map in quite the same way again. “A fascinating and panoramic new history of

World Terraced Landscapes: History, Environment, Quality of Life Mauro Varotto 2018-12-06

This volume collects the best scientific contribution presented in the 3rd World Conference on Terraced Landscapes held in Italy from 6th to 15th October 2016, offering a deep and multifaceted insight into the remarkable heritage of terraced landscapes in Italy, in Europe and in the World (America, Asia, Australia). It consists of 2 parts: a geographical overview on some of the most important terraced systems in the world (1st part), and a multidisciplinary approach that aims to promote a multifunctional vision of terraces, underlining how these landscapes meet different needs: cultural and historical values, environmental and hydrogeological functions, quality and variety of food, community empowerment and sustainable development (2nd part). The volume offers a great overview on strengths, weaknesses, functions and strategies for terraced landscapes all over the world, summarizing in a final manifest the guidelines to provide a future for these landscapes as natural and cultural heritage.

Five Albanian Villages Antonio Laurià 2020-12-27 This book is the result of a research project designed and carried out at the Department of Architecture, University of Florence. This research was based on the transfer of knowledge from members of the Albanian Diaspora in Italy (university students, young architects and researchers) to their home country. This unique process blazed a trail in the Albania-related studies by creating a methodology, which could be replicated not only in Albanian rural contexts, but also elsewhere. The book constitutes a structured tool for generating sustainable and socially inclusive territorial development processes in five lesser-known Albanian cultural sites. Their tangible and intangible cultural heritage was seen as a driving factor for triggering development processes aimed at improving the inhabitants' quality of life and strengthening local identity and social networks. Through concrete proposals and strategies, the book offers scenarios and solutions capable of enhancing the potential of each village and, at the same time, counteracting the effects of land abandonment that so often characterise them.

Pioneers of Motoring. Ediz. Multilingue Aldo Carrer 2017

A Moving Border Marco Ferrari 2019 Italy's northern border follows the watershed that separates the drainage basins of Northern and Southern Europe. Running mostly at high altitudes, it crosses

snowfields and perennial glaciers--all of which are now melting as a result of anthropogenic climate change. As the watershed shifts so does the border, contradicting its representations on official maps. Italy, Austria, and Switzerland have consequently introduced the novel legal concept of a "moving border," one that acknowledges the volatility of geographical features once thought to be stable. *A Moving Border: Alpine Cartographies of Climate Change* builds upon the Italian Limes project by Studio Folder, which was devised in 2014 to survey the fluctuations of the boundary line across the Alps in real time. The book charts the effects of climate change on geopolitical understandings of border and the cartographic methods used to represent them. Locating the Italian condition alongside a longer political history of boundary making, the book brings together critical essays, visualizations, and unpublished documents from state archives. By examining the nexus of nationalism and cartography, *A Moving Border* details how borders are both material and imagined, and the ways global warming challenges Western conceptions of territory. Even more, it provides a blueprint for spatial intervention in a world where ecological processes are bound to dominate geopolitical affairs. *A Moving Border* features a foreword by Bruno Latour and texts by Stuart Elden, Mia Fuller, Francesca Hughes, and Wu Ming 1, and is co-published with ZKM | Center for Art and Media, Karlsruhe.

Soul of the Border Matteo Righetto 2019-06-11 In this exhilarating coming-of-age tale set in the late 19th century, a daring young woman braves the wilds of the mountainous Austrian-Italian border—and the dangerous men who conspired with her missing father to smuggle tobacco—in order to save her family. Jole de Boer is just fifteen years old the first time she accompanies her father—a tobacco grower named Augusto—as he smuggles his product across the Italian border into Austria. She knows the dangers of the treacherous high mountain passes—border guards, brigands, wild animals, ferocious weather—but she is proud that her father has asked her to join him. After all, without the extra money Augusto’s smuggling brings in, their family would starve. But when Augusto mysteriously disappears during one of his trips, Jole must retrace the route he took to both find a buyer for her family’s tobacco—and the truth behind her father’s disappearance. An epic tale of revenge, corruption, and salvation, *The Soul of the Border* is an unforgettable journey into the wild.
