The LOGISTIC Procedure - SAS

The LOGISTIC procedure fits linear logistic regression models for discrete response data by the method of maximum likelihood. It can also perform conditional logistic regression for binary response data and exact logistic regression for binary and nominal response data. The maximum likelihood estimation is carried out

154-2010: Using PROC SGPLOT for Quick High-Quality Graphs ...

plots, band plots, fit and confidence plots, distribution graphs for continuous DATA, and distribution graphs for categorical DATA. The VECTOR statement is new with SAS 9.2 Phase 2; all the others are available with SAS 9.2 Phase 1. Many of these plot types can be used together in the same graph. In the preceding examples, we used the
