Practical Guide to Clinical Computing Systems Thomas Payne 2014-11-21 Although informatics trainees and practitioners who assume operational computing roles in their organization may have reasonably advanced understanding of theoretical informatics, many are unfamiliar with the practical topics - such as downtime procedures, interface engines, user support, JCAHO compliance, and budgets - which will become the mainstay of their working lives. Practical Guide to Clinical Computing Systems 2nd edition helps prepare these individuals for the electronic age of health care delivery. It is also designed for those who migrate into clinical computing operations roles from within their health care organization. A new group of people interested in this book are those preparing for Clinical Informatics board certification in the US. The work provides particular differentiation from the popular first edition in four areas: 40% more content detailing the many practical aspects of clinical informatics. Addresses the specific needs of the Clinical Informatics board certification course - for which it is presently recommended by the ABPM Focus on new tech paradigms including cloud computing and concurrency - for this rapidly changing field. Focuses on the practical aspects of operating clinical computing systems in medical centers rather than abstruse theory. Provides deepened and broadened authorship with a global panel of contributors providing new wisdom and new perspectives - reflecting inclusion of the first edition on the clinical informatics study guide materials. Presents a practical treatment of workday but often unfamiliar issues - downtime procedures, interface engines, user support, JCAHO compliance, and budgets.

Political Animals So Mayer 2015-10-22 Feminist filmmakers are hitting the headlines. The last decade has witnessed: the first Best Director Academy Award won by a woman; female filmmakers reviving, or starting, careers via analogue and digital television; women filmmakers emerging from Saudi Arabia, Palestine, Pakistan, South Korea, Paraguay, Peru, Burkina Faso, Kenya and The Cree Nation; a bold emergent trans cinema; feminist porn screened at public festivals; Sweden's A-Markt for films that pass the Bechdel Test; and Pussy Riot's online videos sending shockwaves around the world. A new generation of feminist filmmakers, curators and critics is not only influencing contemporary debates on gender and sexuality, but starting to change cinema itself, calling for a film world that is intersectional, sustainable, family-friendly and far-reaching. Political Animals argues that, forty years since Laura

Mulvey's seminal essay 'Visual Pleasure and Narrative Cinema' identified the urgent need for a feminist counter-cinema, this promise seems to be on the point of fulfilment. Forty years of a transnational, trans-generational cinema has given rise to conversations between the work of now well-established filmmakers such as Abigail Child, Sally Potter and Agnes Varda, twenty-first century auteurs including Kelly Reichardt and Lucretia Martel, and emerging directors such as Sandrine Bonnaire, Shonali Bose, Zeina Daccache, and Hana Makhmalbaf. A new and diverse generation of British independent filmmakers such as Franny Armstrong, Andrea Arnold, Amma Asante, Clio Barnard, Tina Gharavi, Sally El Hoseini, Carol Morley, Samantha Morton, Penny Woolcock, and Campbell X join a worldwide dialogue between filmmakers and viewers hungry for a new and informed point of view. Lovely, vigorous and brave, the new feminist cinema is a political animal that refuses to be domesticated by the persistence of everyday sexism, striking out boldly to claim the public sphere as its own.

Brand Singapore (Second Edition): Nation Branding After Lee Kuan Yew, in a Divisive World Koh Buck Song 2017-06-15 Without nation branding, there would be no Singapore. Reputation is precious. Top talent and hot money gravitate only to the most attractive, respected nations. For a country as small and as young as Singapore, its brand is its most valuable asset. Singapore's stunning ascent from Third World to First World in a matter of 30 years was spearheaded by a concerted, closely-coordinated programme of nation branding. Brand Singapore helped to attract the investments, business, trade, tourism and talented human resources that are the lifeblood of a successful nation. Today, the city-state is known internationally as a dynamic, safe, corruption-free place to do business, a Garden City, and increasingly, a vibrant city of culture and the arts. In global surveys of quality of life, Singapore regularly tops the charts. How did Singapore create this country brand, cultivate and guard it, sell it to its "shareholders", and make it known to the world? Drawing on two decades in the nation branding game, Koh Buck Song offers an illuminating inside look at - and candid critique of - a country brand that is as rich in resource as it is potent with promise. Since the first publication of this book in 2011, Singapore has celebrated its golden jubilee of independence, undergone a watershed general election and the death of founding father Lee Kuan Yew, and seen its nation brand rise and fall amid the disruptions of an increasingly divisive world (Brexit, Trump, China, etc). This timely second edition explores the implications of all these factors on Singapore's future.
