**Music, Travel, and Imperial Encounter in 19th-Century France** Ruth Rosenberg 2014-09-19 This book considers the activities and writings of early song collectors and proto-ethnomusicologists, memoirists, and other "musical travelers" in 19th-century France. Each of the book's discrete but interrelated chapters is devoted to a different geographic and discursive site of empire, examining French representations of musical encounters in North America, the Middle East, as well as in contested areas within the borders of metropolitan France. Rosenberg highlights intersections between an emergent *ethnographie musicale* in France and narratives of musical encounter found in French travel literature, connecting both phenomena to France's imperial aspirations and nationalist anxieties in the period from the Revolution to the late-nineteenth century. It is therefore an excellent research tool for scholars in the fields of ethnomusicology, musicology, cultural studies, literary history, and postcolonial studies.

**The Oxford Handbook of the New Cultural History of Music** Jane F. Fulcher 2013-11-01 As the field of Cultural History grows in prominence in the academic world, an understanding of the history of culture has become vital to scholars across disciplines. The Oxford Handbook of the New Cultural History of Music cultivates a return to the fundamental premises of cultural history in the cutting-edge work of musicologists concerned with cultural history and historians who deal with music. In this volume, noted academics from both of these disciplines illustrate the continuing endeavor of cultural history to grasp the realms of human experience, understanding, and communication as they are manifest or expressed symbolically through

various layers of culture and in many forms of art. The Oxford Handbook of the New Cultural History of Music fosters and reflects a sustained dialogue about their shared goals and techniques, rejuvenating their work with new insights into the field itself.

**From Vocal Poetry to Song** Jean Nicolas De Surmont 2017-11-23 Although the song is often the subject of monographs, one of its forms remains insufficiently researched: the vocalised song, communicated to the spectator through performance. The study of the song takes one back to the study of vocal practices, from aesthetic objects to forms and to plural styles. To conceive a song means approaching it in its different instances of creation as well as its linguistic diversity. Jean Nicolas De Surmont proposes ways of research and analysis useful to musicians, musicologists, and literary critics alike. In his book he takes up the issue of vocal poetry in addition to examining the theoretic aspects of song objects. Rather than offering an autonomous model of analysis, De Surmont extends the research fields and suggests responses to debates that have involved everyone interested in vocal poetic forms.

Post-War French Popular Music: Cultural Identity and the Brel-Brassens-Ferré Myth Adeline Cordier 2016-04-08 Jacques Brel, Georges Brassens and Léo Ferré are three emblematic figures of post-war French popular music who have been constantly associated with each other by the public and the media. They have been described as the epitome of chanson, and of 'Frenchness'. But there is more to the trio than a musical trinity: this new study examines the factors of cultural and national identity that have held together the myth of the trio since its creation. This book identifies the combination of cultural and historical circumstances from which the works of these three singers emerged. It presents an innovative analysis of the correlation between this iconic trio and the evolution of national myths that nurtured the cultural aspirations of post-war French society. It explores the ways in which Brel, Brassens and Ferré embody the myth of the left-wing intellectual and of the authentic 'Gaul' spirit, and it discusses the ambiguous attitude of post-war French society towards gender relations. The book takes an original look

at the trio by demonstrating how it illustrates the popular representation of a key issue of French national identity: the paradoxical aspiration to both revolution and the maintenance of the status quo.

Society and Culture in Early Modern France Natalie Zemon Davis 1975 These essays, three of them previously unpublished, explore the competing claims of innovation and tradition among the lower orders in sixteenth-century France. The result is a wide-ranging view of the lives and values of men and women (artisans, tradesmen, the poor) who, because they left little or nothing in writing, have hitherto had little attention from scholars. The first three essays consider the social, vocational, and sexual context of the Protestant Reformation, its consequences for urban women, and the new attitudes toward poverty shared by Catholic humanists and Protestants alike in sixteenth-century Lyon. The next three essays describe the links between festive play and youth groups, domestic dissent, and political criticism in town and country, the festive reversal of sex roles and political order, and the ritualistic and dramatic structure of religious riots. The final two essays discuss the impact of printing on the quasi-literate, and the collecting of common proverbs and medical folklore by learned students of the "people" during the Ancien Régime. The book includes eight pages of illustrations.

The Oxford Handbook of the New Cultural History of Music Jane F. Fulcher 2013-12 This volume demonstrates a new approach to cultural history, as it now being practiced by both historians and musicologists, and the field's quest to grasp the realms of human experience, understanding, communication and meaning through the study of music and of musical practices. The contributors employ a resonant new methodological synthesis which combines the theoretical perspectives drawn from the "new cultural history" and "new musicology" of the 1980s with recent social, sociological, and anthropological theories.

*Detroit's Hidden Channels* Karen Marrero 2020-04-01 French-Indigenous families were a central force in shaping Detroit's history. *Detroit's Hidden Channels: The Power of French-Indigenous Families in the Eighteenth Century* examines the role of these kinship networks in Detroit's development as a site of singular political and economic importance in the continental interior. Situated where Anishinaabe, Wendat, Myaamia, and later French communities were established and where the system of waterways linking the Atlantic Ocean to the Gulf of Mexico narrowed, Detroit's location was its primary attribute. While the French state viewed Detroit as a decaying site of illegal activities, the influence of the French-Indigenous networks grew as members diverted imperial resources to bolster an alternative configuration

of power relations that crossed Indigenous and Euro-American nations. Women furthered commerce by navigating a multitude of gender norms of their nations, allowing them to defy the state that sought to control them by holding them to European ideals of womanhood. By the mid-eighteenth century, French-Indigenous families had become so powerful, incoming British traders and imperial officials courted their favor. These families would maintain that power as the British imperial presence splintered on the eve of the American Revolution.

Prayers, Petitions, and Protests Jack D. Cecillon 2013-07-01 In 1912, the Ontario Conservative government issued the controversial Regulation 17 in an attempt to improve the quality of English-language teaching in the province, while effectively restricting French-language instruction within bilingual schools. *Prayers, Petitions, and Protests* explores popular reaction to the policy in the Windsor border area and the radical opposition of the Catholic hierarchy to bilingual schooling. Jack Cecillon presents a comprehensive study of divisions that were created or exacerbated within the local francophone communities, as well as the pivotal role played by the bishop of London, Michael Francis Fallon, who strongly opposed bilingual education within his diocese. Also instrumental was the Catholic Church's desperation to stave off challenges to the province's separate schools system, which was met with aggressive resistance from congregations of French-speaking Catholics. This dispute was of such grave concern to church officials that the Pope had to intervene twice to manage the conflict between the warring Irish- and French-Canadian factions. Although much of the province effectively resisted the school reforms, what emerged in Windsor was very different. *Prayers, Petitions, and Protests* uncovers a conflict within the church where priests and laypeople challenged the hierarchy, disobeyed orders, and stirred public resistance.

**Les Cadiens et leurs ancêtres acadiens** Shane K. Bernard 2013-04-15 Cajuns and Their Acadian

Ancestors: A Young Reader's History traces the four-hundred-year history of this distinct American ethnic group. In its original English, the book proved a perfect package, comprehensible to junior-high and high-school students, while appealing to and informing adult readers seeking a one-volume exploration of these remarkable people and their predecessors. It is now available for the first time translated into French. The narrative follows the Cajuns' early ancestors, the Acadians, from seventeenth-century France to Nova Scotia, where they flourished until British soldiers expelled them in a tragic event called Le Grand Dérangement (The Great Upheaval)--an episode regarded by many historians as an instance of ethnic cleansing or genocide. Up to one-half of the Acadian population died from disease, starvation, exposure, or outright violence in the expulsion. Nearly three thousand survivors journeyed through the thirteen American colonies to Spanish-controlled Louisiana. There they resettled, intermarried with members of the local population, and evolved into the Cajun people, who today number over a half-million. Since their arrival in Louisiana, the Cajuns have developed an unmistakable identity and a strong sense of ethnic pride. In recent decades they have contributed their lively cuisine and accordion-and-fiddle dance music to American popular culture. *Les Cadiens et leurs ancêtres acadiens: l'histoire racontée aux jeunes* includes numerous images and over a dozen sidebars on topics ranging from Cajun music and horse racing heroes to Mardi Gras. Shane K. Bernard's welcomed and cherished history of the Cajun people is translated into French by Faustine Hillard. The book offers a long-sought immersion text, ideal for the young learner and adult alike.

Traditional Music in Coastal Louisiana Joshua Clegg Caffery 2013-11-05 Alan Lomax's prolific sixty-four-year career as a folklorist and musicologist began with a trip across the South and into the heart of Louisiana's Cajun country during the height of the Great Depression. In 1934, his father John, then curator of the Library of Congress's Archive of American Folk Song, took an eighteen-year-old Alan and a 300-pound aluminum disk recorder into the rice fields of Jennings, along the waterways of New Iberia, and behind the gates of Angola State Penitentiary to collect vestiges of African American and Acadian musical tradition. These recordings now serve as the foundational document of indigenous Louisiana music. Although widely recognized by scholars as a key artifact in the understanding of American vernacular music, most of the recordings by John and Alan Lomax during their expedition across the central-southern fringe of Louisiana were never transcribed or translated, much less studied in depth. This volume presents, for the first time, a comprehensive examination of the 1934 corpus and unveils a multifaceted story of traditional song in one of the country's most culturally dynamic regions. Through his textual and comparative study of the songs contained in the Lomax collection, Joshua Clegg Caffery provides a musical history of Louisiana that extends beyond Cajun music and zydeco to the rural blues, Irish and English folk songs, play-party songs, slave spirituals, and traditional French folk songs that thrived at the time of these recordings. Intimate in its presentation of Louisiana folklife and broad in its historical scope, *Traditional Music in Coastal Louisiana* honors the legacy of John and Alan Lomax by retrieving these musical relics from obscurity and ensuring their understanding and appreciation for generations to come. Includes: Complete transcriptions of the 1934 Lomax field recordings in southwestern Louisiana Side-by-side translations from French to English Photographs from the 1934 field trip and biographical details

**Detour de France** Michael Simkins 2009-05-27 Though happy enough with his lot, Michael Simkins has

never truly shaken the nagging doubt - helpfully upheld by his partner Julia - that he somehow lacks worldly sophistication. While she spent her teenage years as a nanny on a boat moored at Cannes, his utter lack of travel experience (Weymouth, Cleethorpes and a day trip to Dieppe) still has the power to shock people into leaving dinner parties early. So as he hits middle-age, Michael takes up the challenge of broadening his horizons. He decides to improve himself in the same way English gentlemen lacking refined edges have for centuries: by learning from our more cultured French neighbours. Michael, an English provincial ingénue, sets off to discover just what the Gallic nation can teach him and the rest of us Anglo-Saxons about living the good life. Armed only with 50 Useful Phrases in French, he waits to see if his odyssey from La Manche to the Riviera will finally turn him from the scotch-egg eating spawn of Anne Widdecombe and John McCririck into the champagne-sipping love child of Serge Gainsbourg and Catherine Deneuve. Julia is saying a prayer for him at Lourdes.
