Hip-Hop Architecture Sekou Cooke 2021-03-25 "This book is not for you. It is not for architectural academic elites. It is not for those who have gentrified our neighborhoods, overly intellectualized the profession, and ignored all contemporary Black theory within the discipline. You have made architecture a symbol of exclusion, oppression, and domination rather than expression, aspiration, and inspiration. This book is not for conformists-Black, White, or other." As architecture grapples with its own racist legacy, Hip-Hop Architecture outlines a powerful new manifesto-the voice of the underrepresented, marginalized, and voiceless within the discipline. Exploring the production of spaces, buildings, and urban environments that embody the creative energies in hip-hop, it is a newly expanding design philosophy which sees architecture as a distinct part of hip-hop's cultural expression, and which uses hip-hop as a lens through which to provoke new architectural ideas. Examining the present and the future of Hip-Hop Architecture, the book also explores its historical antecedents and its theory, placing it in a wider context both within architecture and within Black and African American movements. Throughout, the work is illustrated with inspirational case studies of architectural projects and creative practices, and interspersed with interludes and interviews with key architects, designers, and academics in the field. This is a vital and provocative work that will appeal to architects, designers, students, theorists, and anyone interested in a fresh view of architecture, design, race and culture. Includes Foreword by Michael Eric Dyson.

Sleeping Beauties Stephen King 2017-09-26 In this spectacular New York Times bestselling father/son collaboration that "barrels along like a freight train" (Publishers Weekly), Stephen King and Owen King tell the highest of high-stakes stories: what might happen if women disappeared from the world of men? In a future so real and near it might be now, something happens when women go to sleep: they become shrouded in a cocoon-like gauze. If they are awakened, if the gauze wrapping their bodies is disturbed or violated, the women become feral and spectacularly violent. And while they sleep they go to another place, a better place, where harmony prevails and conflict is rare. One woman, the mysterious "Eve Black," is immune to the blessing or curse of the sleeping disease. Is Eve a medical anomaly to be studied? Or is she a demon who must be slain? Abandoned, left to their increasingly primal urges, the men divide into warring factions, some wanted to kill Eve, some to save her. Others exploit the chaos to wreak their own vengeance on new enemies. All turn to violence in a suddenly all-male world. Set in a small Appalachian town whose primary employer is a woman's prison, *Sleeping Beauties* is a wildly provocative, gloriously dramatic father-son collaboration that feels particularly urgent and relevant today.

When a living corpse climbs out of her during an awkward night of sex, Stacy learns that her vagina is actually a doorway to another world. She persuades Steve to climb inside of her to explore this strange new place. But once inside, Steve finds it difficult to return... especially once he meets an oddly attractive woman named Fig, who lives within the lonely haunted world between Stacy's legs. The School on Heart's Content Road Carolyn Chute 2009-07-08 A New York Times Notable Book: A group forms its own surrogate family on the margins of society in this novel by the author of *The Beans of Egypt, Maine*. Mickey Gammon, fifteen, has dropped out of school and been kicked out of his home. But he has found a new place in the Settlement—a rural cooperative that deals in alternative energy, farm produce, and locally made goods. Run by “The Prophet,” the Settlement is demonized by the media as a compound of sin, but its true nature remains foreign to outsiders. It is here where Mickey meets another deserted child, six-year-old Jane, whose mother is in jail on trumped-up drug charges. Playing “secret agent,” Jane cunningly prowls the Settlement in her heart-shaped sunglasses, imagining that her plans to bring down the community will reunite her with her mother. As they struggle to adjust to their new, complex surrogate family, Mickey and Jane are about to witness mounting unrest within the Settlement’s ranks—which soon builds to a shocking and devastating crescendo. *The School on Heart’s Content Road* is “a profoundly human novel . . . Absolutely one of a kind” (USA Today), from an author who, “like Flannery O’Connor . . . has a gift for expressing the true spirit of a culture” (San Francisco Chronicle). “Chute can’t help but create characters who live and breathe.” —The Washington Post

Eve in the Land of Kali Prema Raghavan 2020-11-20 Priyanka knew the moment Manoj entered, without turning around. That awareness was like the waft of perfume only she could recognize. Would that

change when she married another man? His infant daughter had her fist in her mouth, and Arun removed it to gaze into eyes, the colour of indigo and could not look away. What he did not know was that she had the gift of clairvoyance; she would warn him of events, which would change their lives irrevocably. Prerana's conflict-ridden relationship with her mother had left scars even time could not erase. Now she had to prevent her mother from usurping her child. Who would win this age-old battle? Twelve stories about people who will seem familiar. You know them all too well; perhaps some of them are you.

The Beans of Egypt, Maine Carolyn Chute 2008-09-09 A novel of a down-and-out New England family that "seizes the reader on its opening page with . . . a knock-about country humor unmistakably its own" (Newsweek). There are families like the Beans all over America. They live on the wrong side of town in mobile homes strung with Christmas lights all year round. The women are often pregnant, the men drunk and just out of jail, and the children too numerous to count. In this novel that "pulses with kinetic energy," we meet the God-fearing Earlene Pomerleau, and experience her obsession with the whole swarming Bean tribe (Newsweek). There is cousin Rubie, a boozier and a brawler; tall Aunt Roberta, the earth mother surrounded by countless clinging babies; and Beal, sensitive, often gentle, but doomed by the violence within him. In *The Beans of Egypt, Maine*, Carolyn Chute—whose jobs included waitress, chicken factory worker, and hospital floor scrubber before gaining renown as a prize-winning novelist—creates "a fictional world so vivid and compelling that one feels at a loss when it ends. The Beans belong with the Snopes clan of Faulkner's Yoknapatawpha County, with Erskine Caldwell's white Southerners, and with the rural blacks of Alice Walker's *The Color Purple*" (San Jose Mercury News).

Coyota in the Kitchen Anita Rodríguez 2016-05-01 This book of stories and recipes introduces two eccentric families that would never have eaten together, let alone exchanged recipes, but for the

improbable marriage of the author's parents: a nuevomexicano from Taos and a painter who came from Texas to New Mexico to study art. Recalling the good and the terrible cooks in her family, Anita Rodríguez also shares the complications of navigating a safe path among contradictory cultural perspectives. She takes us from the mountain villages of New Mexico in the 1940s to sipping mint juleps on the porch of a mansion in the South, and also on a prolonged pilgrimage to Mexico and back again to New Mexico. Accompanied by Rodríguez's vibrant paintings—including scenes of people eating on fiesta nights and plastering an adobe church—Coyota in the Kitchen shows how food reflects the complicated family histories that shape our lives.

The Legend of Lakshmi Prasad Lakshmi Prasad 2016-10-28 I am Lakshmi Prasad, native of Bitihar. I am doing PhD on a very important subject "Mating habits of gay chimpanzees in West Africa" at PANU University, the best University in India and possibly the best University in the world. My idols are "Faizal Guru", "Janab Kasab Sahib", "Focus Carat", "Baba Badkar", "Zakir Nalayak", "Gharkha Dutt", "Dr. Kana Ayyub" and all PhD students who had committed suicide since they failed to solve their PhD problems. I personally feel that, all deprived Indians should automatically be awarded a PhD degree coupled with a free pension of 1 lakh rupees/month to be delivered in cash via post at door step. Till then we are going to fight for azaadi from India. Imagine a day, when no PhD student would have to commit suicide, imagine a day, when no lower caste will be humiliated by upper caste, s/he can use his/her doctorate degree and force others to call him/her Dr. X, Dr. Y ,etc.

Lone Survivor Marcus Luttrell 2007-06-12 The inspiration for a major motion picture by Mark Wahlberg: A Navy SEAL's firsthand account of American heroism during a secret military operation in Afghanistan. On a clear night in late June 2005, four U.S. Navy SEALs left their base in northern Afghanistan for the mountainous Pakistani border. Their mission was to capture or kill a notorious al Qaeda leader known to be ensconced in a Taliban stronghold surrounded by a small but heavily armed force. Less than twenty-four hours later, only one of those Navy SEALs remained alive. This is the story of fire team leader Marcus Luttrell, the sole survivor of Operation Redwing, and the desperate battle in the mountains that led, ultimately, to the largest loss of life in Navy SEAL history. But it is also, more than anything, the story of his teammates, who fought ferociously beside him until he was the last one left—blasted unconscious by a

rocket grenade, blown over a cliff, but still armed and still breathing. Over the next four days, badly injured and presumed dead, Luttrell fought off six al Qaeda assassins who were sent to finish him, then crawled for seven miles through the mountains before he was taken in by a Pashtun tribe, who risked everything to protect him from the encircling Taliban killers. A six-foot-five-inch Texan, Leading Petty Officer Luttrell takes us, blow by blow, through the brutal training of America's warrior elite and the relentless rites of passage required by the Navy SEALs. He transports us to a monstrous battle fought in the desolate peaks of Afghanistan, where the beleaguered American team plummeted headlong a thousand feet down a mountain as they fought back through flying shale and rocks. In this rich, moving chronicle of courage, honor, and patriotism, Marcus Luttrell delivers one of the most powerful narratives ever written about modern warfare -- and a tribute to his teammates, who made the ultimate sacrifice for their country.

Desi Land Shalini Shankar 2008-10-06 Desi Land is Shalini Shankar's lively ethnographic account of South Asian American teen culture during the Silicon Valley dot-com boom. Shankar focuses on how South Asian Americans, or "Desis," define and manage what it means to be successful in a place brimming with the promise of technology. Between 1999 and 2001 Shankar spent many months "kickin' it" with Desi teenagers at three Silicon Valley high schools, and she has since followed their lives and stories. The diverse high-school students who populate Desi Land are Muslims, Hindus, Christians, and Sikhs, from South Asia and other locations; they include first- to fourth-generation immigrants whose parents' careers vary from assembly-line workers to engineers and CEOs. By analyzing how Desi teens' conceptions and realizations of success are influenced by community values, cultural practices, language use, and material culture, she offers a nuanced portrait of diasporic formations in a transforming urban region. Whether discussing instant messaging or arranged marriages, Desi bling or the pressures of the model minority myth, Shankar foregrounds the teens' voices, perspectives, and stories. She investigates how Desi teens interact with dialogue and songs from Bollywood films as well as how they use their heritage language in ways that inform local meanings of ethnicity while they also connect to a broader

South Asian diasporic consciousness. She analyzes how teens negotiate rules about dating and reconcile them with their longer-term desire to become adult members of their communities. In *Desi Land* Shankar not only shows how Desi teens of different socioeconomic backgrounds are differently able to succeed in Silicon Valley schools and economies but also how such variance affects meanings of race, class, and community for South Asian Americans.

The Sea Is My Country Joshua L. Reid 2015-05-26 For the Makahs, a tribal nation at the most northwestern point of the contiguous United States, a deep relationship with the sea is the locus of personal and group identity. Unlike most other indigenous tribes whose lives are tied to lands, the Makah people have long placed marine space at the center of their culture, finding in their own waters the physical and spiritual resources to support themselves. This book is the first to explore the history and identity of the Makahs from the arrival of maritime fur-traders in the eighteenth century through the intervening centuries and to the present day. Joshua L. Reid discovers that the “People of the Cape” were far more involved in shaping the maritime economy of the Pacific Northwest than has been understood. He examines Makah attitudes toward borders and boundaries, their efforts to exercise control over their waters and resources as Europeans and Americans arrived, and their embrace of modern opportunities

and technology to maintain autonomy and resist assimilation. The author also addresses current environmental debates relating to the tribe's customary whaling and fishing rights and illuminates the efforts of the Makahs to regain control over marine space, preserve their marine-oriented identity, and articulate a traditional future.

A History of Saudi Arabia Madawi al-Rasheed 2002-07-11 Saudi Arabia is a wealthy and powerful country which wields influence in the West and across the Islamic world. Yet it remains a closed society. Its history in the twentieth century is dominated by the story of state formation. After the collapse of the Ottoman Empire, Ibn Sa'ud fought a long campaign to bring together a disparate people from across the Arabian peninsula. In 1932 the Kingdom of Saudi Arabia was born. Madawi al-Rasheed traces its extraordinary history from the age of emirates in the nineteenth century, through the 1990 Gulf War, to the present day. She fuses chronology with analysis, personal experience with oral histories, and draws on local and foreign documents to illuminate the social and cultural life of the Saudis. This is a rich and rewarding book which will be invaluable to students, and to all those trying to understand the enigma of Saudi Arabia.
