*Yvain* Chretien de Troyes 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

**The Marine Aquarium Handbook** Martin A. Moe 2009 The Marine Aquarium Handbook is the bestselling saltwater aquarium book of all time, selling more than 250,000 copies since first published in 1982 and launching aspiring aquarists into the marine aquarium hobby. Out of print since 2006, this indispensable resource is now available in a completely updated and redesigned third edition that includes world-class color photography to help guide the reader through setup of their first marine aquarium and then progresses to reefkeeping and breeding of marine fishes. Written by an acclaimed marine biologist and pioneering fish and invertebrate breeder, the book provides sound advice in a clear, readable, and engaging voice. New content exclusive to this edition includes recent advances in biofiltration and energy-efficient lighting, brand new chapters on marine foods and refugia, greatly expanded coverage of fish species and hardy invertebrate species, and information about those species best suited for breeding. Each featured fish has a species profile, behavior notes, native range, maximum size, and essential feeding and husbandry advice. The Marine Aquarium Handbook covers everything a marine hobbyist needs to know to get started and be successful, including aquarium choices, water chemistry, filtration, biological filtration and live rock, setup and maintenance, fish selection, and identification and treatment of common diseases.

**Indoor Bonsai** Paul Lesniewicz 2021-07-06 "Excellent guide...with specifics on individual plants." - The New York Times. A bonsai is a miniature tree. Grown in a shallow dish, it resembles larger trees in all respects except size, and lives to an equally old age. The conventional bonsai requires a site in the open air where the plant is exposed to the sun, wind and rain in order to develop and remain healthy. In this book, however, Paul Lesniewicz looks at those species that can successfully be kept indoors all year round. He explores a vast variety of bonsai trees, including mini versions, which are only 3-6 inches tall, for those who are really lacking in space. Indoor Bonsai includes sections such as choosing a plant or growing it from seed, planting, general care, pests and diseases, shaping, wiring and pruning, and many other aspects, all explained in simple and straightforward terms. Advice is accompanied by step-by-step illustrations and spectacular colour photography throughout, to help you choose and care for your bonsai tree. Paul's guidance is not a one-size-fits-all approach; his sensible and easy-to-follow advice will help each gardener to create their own individual work of art.

**On the Nose** Hans Florine 2016-09-01 Hans Florine embodies the genius of "and"—collaborative and competitive, fast and safe, audacious and disciplined, visionary and quantitative. The themes that run through Florine's 101 ascents of Yosemite's most iconic route can benefit people who will never climb a rock, indeed anyone inspired by the idea of a passionate, lifelong quest of any type. —Jim Collins, author of *Good to Great* Hans Florine is a big-wall climbing legend in his own time. He holds the speed record on the Nose route of El Capitan, a 3,000-foot granite cliff in Yosemite Valley that's considered the Everest of the rock-climbing world. Ascending the Nose takes most climbers anywhere from 12 to 96 hours. Florine, along with climbing partner Alex Honnold, does it in an astounding 2.5 hours. But Florine's story is not one of super-human athletic prowess; it's one of persistence and dogged determination. In 30 years of climbing, he's ascended the Nose a mind-blowing, death-defying 100 times, more than anyone else ever has, and most likely ever will. In *On the Nose*, Florine describes the most dangerous, pivotal, and inspirational of those climbs, providing a rare look inside the adrenaline-charged world of competitive climbing in Yosemite Valley. He tells of his very first attempt on the Nose, which ended in failure after 14 hours, his friendships (and rivalries) with climbing's most colorful personalities, and his battle with Dean Potter to secure the definitive speed record on the Nose—an endeavor that's been called the wildest competition known to man. Perhaps most interestingly, Florine attempts to answer the question why. Why would anyone undertake one of the greatest adventure epics on earth 100 times? His answers provide unique insights on how to live a satisfying life, how to achieve big goals, and how an otherwise ordinary guy can become a rock star.
