*CIMA E2* BPP Learning Media 2012-08-01 CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. New syllabus CIMA Paper E2 Enterprise Management is a compulsory paper at the Management level and is the second of three papers progressing up the Enterprise pillar. It builds on the functional knowledge found in Paper E1 Enterprise Operations toward an integrated view of management in the organisation. E2 introduces strategic ideas, tools and techniques essential for passing the three strategic level papers. Project Management comprises 40% of the syllabus with the remainder split evenly between Strategic Management and Assessing the Competitive Environment, and Management of Relationships. Credit will be given to students who passed Paper P5 under the 2005 syllabus against E2 in the 2010 syllabus. The E2 Study Text is your complete guide to the E2 syllabus. All areas of the syllabus are explained fully and links to E1 and E3 clearly identified. Section introductions ease you into the chapter topics and key terms you must know are shown clearly throughout. There are plenty of questions to sharpen your knowledge and case studies to bring material to life. Exam alerts and skills are signposted to guide you on approaching the exam.

**CIMA Certificate Paper C1** BPP Learning Media 2011-01-01 CIMA C1 - Fundamentals of Management Accounting: Paper C1, Fundamentals of management accounting, introduces the knowledge and skills needed in the application of management accounting. Students will need to have knowledge of management accounting techniques and have an understanding of when and when not to use them. C1 is examined via a computer-based assessment containing fifty objective test questions. The syllabus has five sections: \* Cost determination \* Cost behavior and breakeven analysis \* Standard costing \* Costing and accounting systems \* Financial planning and control The C1 Study Text contains all you need to know

for C1, featuring step-by-step guides to management accounting techniques such as process costing, which many students find tricky. All areas of the syllabus are explained fully and no prior knowledge is assumed. Key terms are identified throughout as grasping terminology is vital for both C1 and for future studies.

**CIMA E3** BPP Learning Media 2012-08-01 CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper E3 'Enterprise Strategy' is a wide-ranging exam that includes aspects of strategic analysis, choice and implementation. To pass, candidates need both technical knowledge and the ability to apply their knowledge to specific scenarios. The syllabus is split into four areas: \* Interacting with the Competitive Environment (20%) \* Change Management (20%) \* Evaluation of Strategic Options (30%) \*

Implementation of Strategic Plans (30%)The first section explores the impact and influence of an organisation's environment on its strategy. An organisation needs to take account of its environmental context as well as its own internal capabilities when assessing the strategic options available to it. Having identified these options, it then has to evaluate them to decide which is the most appropriate to pursue.The E3 syllabus recognises that implementing strategic plans involves managing change, and 20% of the syllabus is now devoted to issues involved in managing the change process. Change Management has not previously been examined at Strategic Level in the CIMA exams. The final section of the syllabus looks at the ways organisations control and measure the performance of the strategies they have implemented. The E3 Study Text provides you with comprehensive coverage of the principles of business strategy and how they can be applied to design and implement enterprise strategies. The Text also offers a range of short case studies which illustrate how business strategy ideas are applied in the real world. In the E3 exam, your ability to apply knowledge to a scenario is as important as pure knowledge, but it is still crucial to have a sound understanding of the key terms and ideas. The 'key terms' feature in the text will help you identify these key terms, while the 'section summaries' provide a convenient overview of each section of the text.&quote;

CIMA P3 BPP Learning Media 2012-08-01 CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. The P3 Performance Strategy exam covers how organisations respond to risks through systems and controls. The syllabus emphasises the wide-ranging risks organisations face, and particularly financial and information risks, because of the severe consequences these can have. It includes the methods organisations use to reduce risks, including: \* Management and accounting systems \* Corporate governance \* Control environment and procedures \* Internal audit

Key skills are: \* Recognising risks \* Recommending appropriate actions to counter those risks. The syllabus also requires appreciation of how risks and control systems link with the strategies the organisation pursues. The Study Text provides all you need to know for P3. It gives many examples of the strategic and operational risks organisations face when they try to fulfil their objectives. It explains the frameworks organisations use for controlling risks. It demonstrates the importance of key elements of control systems including corporate governance, ethics support, control procedures and internal audit.

*Accounting in a Nutshell* Janet Walker 2011-04-08 Designed primarily for middle and junior management who deal with financial information without really understanding the content; students who are studying accounting as a non-specialist subject, for example on a business studies or engineering course. The book serves as a basic reference to be used throughout the course. It will also be particularly helpful in providing the basic grounding that is required before moving on to the more technical and in-depth study of the subject that may be required on some courses. Students who are embarking on a course of study to become a professional accountant will also find this book of major benefit. In addition to revisions through out, a new new chapter 'Making long-term investment decisions' covering capital investment decisions, extends and rounds out the final part of the book: using Financial Information to Manage a Business. The chapter deals with the investment appraisal process and covers the main investment appraisal techniques from the point of view of a non-specialist: payback periods, accounting rate of return and discounted cash flow methods are just some of the new topics covered. The focus will be on the level of understanding that a non-specialist requires in the work place as such, in keeping with the rest of the book, the chapter includes practical examples and exercises to enhance the reader's understanding. \* Jargon free and easy to understand - no prior knowledge of the subject necessary \* Focuses on the principles and use of accounting information \* Review questions to assess progress at each stage and many fully worked exercises and examples
