**The Cambridge Companion to Ancient Rome** Paul Erdkamp 2013-09-05 Rome was the largest city in the ancient world. As the capital of the Roman Empire, it was clearly an exceptional city in terms of size, diversity and complexity. While the Colosseum, imperial palaces and Pantheon are among its most famous features, this volume explores Rome primarily as a city in which many thousands of men and women were born, lived and died. The thirty-one chapters by leading historians, classicists and archaeologists discuss issues ranging from the monuments and the games to the food and water supply, from policing and riots to domestic housing, from death and disease to pagan cults and the impact of Christianity. Richly illustrated, the volume introduces groundbreaking new research against the background of current debates and is designed as a readable survey accessible in particular to undergraduates and non-specialists.

The Routledge Companion to Performance Management and Control Elaine Harris 2017-08-15 Performance management is key to the ongoing success of any organisation, allowing it to meet its strategic objectives by designing and implementing management control systems. This book goes beyond the usual discussion of performance management in accounting and finance, to consider strategic management, human behaviour and performance management in different countries and contexts. With a global mix of world-renowned researchers, this book systematically covers the what, the who, the where and the why of performance management and control (PMC) systems. A comprehensive, state-of-the-art collection edited by a leading expert in the field, this book is a vital resource for all scholars, students and researchers with an interest in business, management and accounting.

Comparative Sport Development Kirstin Hallmann 2013-11-26 The aim of this book is to provide an overview of perspectives and approaches to sports development focusing on sport systems, sport participation and public policy towards sports. It includes twelve European countries covering all regions of Europe and eleven countries from around the globe. The objective is to present an overview of the diversity of approaches taken to sport development, focusing on the different sport systems and how sport is financed, the underlying

applications of sport policy and how it is reflected in sport participation. This book takes a comparative approach which is reflected in each chapter following a similar structure. The diversity of sports systems in Europe and other continents and their (historical) context is shown. Thereby a range of policy approaches underpinning sport development around the world are presented, making it of interest to both academics and policy-makers concerned with sports economics and policy.

Newsmaking Cultures in Africa Hayes Mawindi Mabweazara 2018-06-05 This book contributes to a broadened theorisation of journalism by exploring the intricacies of African journalism and its connections with the material realities that underpin the profession on the continent. It pulls together theoretically driven studies that collectively deploy a wide range of evidence to shed some light on newsmaking cultures in Africa – the everyday routines, defining epistemologies, as well as ethical dilemmas. The volume digs beneath the standardised and universalised veneer of professionalism to unpack routine practices and normative trends shaped by local factors, including the structural conditions of deprivation, entrenched political instability (and interference), pervasive neo-patrimonial governance systems, and the influences of technological developments. These varied and complex circumstances are shown to profoundly shape the foundations of journalism in Africa, resulting in routine practices that are both normatively distinct and equally in tune with (imported) Western journalistic cultures. The book thus broadly points to the dialectical nature of news production and the inconsistent and contradictory relationships that characterise news production cultures in Africa.

*The Report: Ghana 2014* Oxford Business Group 2014-12-18 The economy has a history of strong government involvement and a legacy of socialist policies in

the 1960s and 1970s, with statist companies involved in both energy and agriculture; yet, the country's market is now among the more liberalised in the region. Ghana has a strong export profile, although it is somewhat dependent on commodities. It is the world's second-largest exporter of cocoa, behind Côte d'Ivoire, and one of the continent's largest gold producers, while new reserves of oil and gas have helped further expand its resource wealth. The economy saw expansion of 7.1% in 2013, while inflation reached 14.5% in March 2014. Although inflation and balance of payments remain the country's biggest economic challenges, measures have been taken to strengthen the cedi and curb inflation.

Unified Theory of Business Strategy Rod Samimi 2020-12-11 Unified Theory of Business Strategy (UTBS) Successful businesses require strategic thinking, well-formulated goals and a clear approach to implementation. These are widely accepted as essential to business success. But describing these factors is not the same as making them happen. What corporate executives and business owners increasingly need is a practical, workable approach to business strategy that is supported by theory (but not drowned in it). That is where this book comes in. In Unified Theory of Business Strategy, Dr Rod Samimi combines theory and practice to give readers a solid understanding of how to formulate and implement a pragmatic business strategy. It includes a theoretical framework and applied interpretations, plus a detailed guide for compiling business plans. Using the Sentinel 9 multidisciplinary approach, the book configures an innovative way to look at business strategy.

Assembling for Development Leslie Sklair 2013-05-13 First published in 1989, this book focuses upon the phenomenon of export-led industrialisation fuelled by foreign investment and technology. He concentrates on Mexico, where US companies have been taking advantage of inexpensive labour to establish "maquila" factories that assemble US parts for export. Through this detailed study of the maquila industry, Sklair charts the progress from the political imperialism of colonial days to the economic imperialism of today.

**Online Arab Spring** Reza Jamali 2014-12-03 What is the role of social media on fundamental change in Arab countries in the Middle East and North Africa? Online Arab Spring responds to this question, considering five countries: Egypt, Libya, Jordan, Yemen, and Tunisia, along with additional examples. The book asks why the penetration rate for social media differs in different countries: are psychological and social factors at play? Each chapter considers national identity, the legitimacy crisis, social capital, information and media literacy, and socialization. Religious attitudes are introduced as a key factor in social media, with Arabic countries in the Middle East and North Africa being characterized by Islamic trends. The insight gained will be helpful for analysing online social media effects internationally, and predicting future movements in a social context. provides innovative interdisciplinary research, incorporating media studies, cultural aspects, identity and psychology presents a detailed study of factors such as national heritage, cultural homogeneity, belief system and consumer ethnocentrism focuses on religious attitudes in the context of online media

*Surgical Patient Care* Juan A. Sanchez 2017-05-29 This book focuses exclusively on the surgical patient and on the perioperative environment with its unique socio-technical and cultural issues. It covers preoperative, intraoperative, and postoperative processes and decision making and explores both sharp-end and latent factors contributing to harm and poor quality outcomes. It is intended to be a resource for all healthcare practitioners that interact with the surgical patient. This book provides a framework for understanding and addressing many of the organizational, technical, and cultural aspects of care to one of the most vulnerable patients in the system, the surgical patient. The first section presents foundational principles of safety science and related social science. The second exposes barriers to achieving optimal surgical outcomes and details the various errors and events that occur in the perioperative environment. The third section contains prescriptive and proactive tools and ways to eliminate errors and harm. The final section focuses on developing continuous quality improvement programs with an emphasis

on safety and reliability. **Surgical Patient Care: Improving Safety, Quality and Value** targets an international audience which includes all hospital, ambulatory and clinic-based operating room personnel as well as healthcare administrators and managers, directors of risk management and patient safety, health services researchers, and individuals in higher education in the health professions. It is intended to provide both fundamental knowledge and practical information for those at the front line of patient care. The increasing interest in patient safety worldwide makes this a timely global topic. As such, the content is written for an international audience and contains materials from leading international authors who have implemented many successful programs.

**Management Accounting in China and Southeast Asia** Robert C. Rickards 2021-04-29 This book is an essential guide to understanding how managers in China and Southeast Asia make effective economic decisions. In today's competitive global economy, it's vital to grasp how the most dynamic part of Asia is employing accounting tools in actual practice. The carefully crafted empirical studies presented here demonstrate the application of management accounting concepts in a variety of economic scenarios. Overall, these comparative investigations describe theory and common practices in a way that yields insights for both strategic and day-to-day problem solving. Accordingly, **Management Accounting in China and Southeast Asia** will interest graduate students, professional practitioners, and researchers in accounting, management, and finance.

**International Accounting and Reporting Issues** United Nations Conference on Trade and Development (UNCTAD) 2016-05-17 **The International Accounting and Reporting Issues 2015 Review** presents country case studies of Germany and the United Kingdom on the interrelated topics of compliance monitoring and enforcement mechanisms in relation to corporate reporting, auditing and regulation of professional accountants within the context of achieving high-quality corporate reporting. These country case studies are a continuation of similar studies that have already been published in the 2014 volume of this series covering Australia, Belgium and Canada. The respective case studies are contained in Chapters I and II. An analysis of the main findings of all the case studies- including the ones presented in the 2014 volume- is contained in chapter III.

**Introduction to Built Asset Management** Anthony Higham 2022-02-22 **Introduction to Built Asset Management** Provides a multidisciplinary introduction to building maintenance management and execution, covering a wide range of current technical and management issues The maintenance and upgrading of existing buildings is no longer viewed as separate from the operational phase of the completed building. Maintenance and management are now regarded as fundamental parts of a building's life cycle, forming a significant percentage of the construction industry's total output. As higher education programmes in the UK and elsewhere continue to place greater emphasis on the longer-term view of construction projects, students and instructors require a thorough and up-to-date textbook that emphasises the comprehensive nature of building maintenance. **Introduction to Built Asset Management** is a systematic introduction to both the

technology and management issues central to building maintenance and refurbishment. Covering the entire life cycle of built assets, the textbook reviews the role of framework agreements, describes key performance indicators, discusses recent advancements in the procurement of maintenance activities and more. Detailed yet accessible chapters include illustrative examples, seminar questions and self-assessment tasks that enable students to measure their progress as they work through the material. Designed to meet the needs of today's learners, this much-needed textbook: Addresses a variety of both environmental and commercial concerns Evaluates important concepts of sustainability, sustainable maintenance and carbon resilience Discusses the growing retrofit market in the wider context of asset management and maintenance Describes information management tools such as building information modelling (BIM) and geographic information systems (GIS) Introduction to Built Asset Management is ideally suited for courses in construction, construction management, building surveying and facilities management with modules in built asset management and maintenance.

comparative balance of twenty years' international media assistance in the five countries of the Western Balkans. The central question was what happens to imported models when they are transposed onto the newly evolving media systems of transitional societies. Albania, Bosnia-Herzegovina, Kosovo, Macedonia and Serbia undertook a range of media reforms to conform with accession requirements of the European Union and the standards of the Council of Europe, among others. The essays explore the nexus between the democratic transformation of the media and international media assistance. The cross-national analysis concludes that the effects of international assistance are highly constrained by the local context. From today's vantage point it becomes obvious, that scaling media assistance does not necessarily improve outcomes. The experiences in the region suggest that imported solutions have not been very cognitive in all aspects of local conditions but international strategies tend to be rather schematic and lacked strategic approaches to promote media policy stability, credible media reform and implementation. The book offers valuable insights into the nature and effects of media assistance and the strategies deployed by international aid agencies, local political forces, media professionals, civil society organizations and other actors.

**The New Global Rulers** Tim Büthe 2013-07-21 Over the past two decades, governments have delegated extensive regulatory authority to international private-sector organizations. This internationalization and privatization of rule making has been motivated not only by the economic benefits of common rules for global markets, but also by the realization that government regulators often lack the expertise and resources to deal with increasingly complex and urgent regulatory tasks. *The New Global Rulers* examines who writes the rules in international private organizations, as well as who wins, who loses--and why. Tim Büthe and Walter Mattli examine three powerful global private regulators: the International Accounting Standards Board, which develops financial reporting rules used by corporations in more than a hundred countries; and the International Organization for Standardization and the International Electrotechnical Commission, which account for 85 percent of all international product standards. Büthe and Mattli offer both a new framework for understanding global private regulation and detailed empirical analyses of such regulation based on multi-country, multi-industry business surveys. They find that global rule making by technical experts is highly political, and that even though rule making has shifted to the international level, domestic institutions remain crucial. Influence in this form of global private governance is not a function of the economic power of states, but of the ability of domestic standard-setters to provide timely information and speak with a single voice. Büthe and Mattli show how domestic institutions' abilities differ, particularly between the two main standardization players, the United States and Europe.

**Infinite Jest** David Foster Wallace 2009-04-13 A gargantuan, mind-altering comedy about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, *Infinite Jest* explores essential

questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, *Infinite Jest* bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." --Sven Birkerts, *The Atlantic*

**Strangers in Their Own Land** Arlie Russell Hochschild 2016-09-06 In *Strangers in Their Own Land*, the renowned sociologist Arlie Hochschild embarks on a thought-provoking journey from her liberal hometown of Berkeley, California, deep into Louisiana bayou country—a stronghold of the conservative right. As she gets to know people who strongly oppose many of the ideas she famously champions, Hochschild nevertheless finds common ground and quickly warms to the people she meets—among them a Tea Party activist whose town has been swallowed by a sinkhole caused by a drilling accident—people whose concerns are actually ones that all Americans share: the desire for community, the embrace of family, and hopes for their children. *Strangers in Their Own Land* goes beyond the commonplace liberal idea that these are people who have been duped into voting against their own interests. Instead, Hochschild finds lives ripped apart by stagnant wages, a loss of home, an elusive American dream—and political choices and views that make sense in the context of their lives. Hochschild draws on her expert knowledge of the sociology of emotion to help us understand what it feels like to live in "red" America. Along the way she finds answers to one of the crucial questions of contemporary American politics: why do the people who would seem to benefit most from "liberal" government intervention abhor the very idea?

**Corporate Governance Ethics and CSR** Justine Simpson 2013-01-03 The rise of CSR (corporate social responsibility) is creating a paradigm shift in contemporary corporate culture and organizational behaviour with shareholder and stakeholder activism on the rise as international banking crises and global corporate scandals dominate the headlines. Through accountability and transparency, fiduciary capitalism is being challenged to tie sustainability and corporate conscience to the bottom line. With the emergence of impact investing, social responsibility and ethics in corporate governance is becoming essential to long-term success in the new global marketplace. Corporations need to demonstrate that ethical, environmentally conscious business practices and profit are no longer mutually exclusive. Justine Simpson and John R. Taylor's *Corporate Governance Ethics and CSR* gives the reader a comprehensive guide to today's requirements for governance and reporting that organizations must adopt to successfully strike a balance between financial gain and socially responsible, green business practices that enhance the greater good. Employing current examples (Walmart, Goldman Sachs, Citigroup) and case studies in both the public and private sectors, Simpson and Taylor have compiled a thorough and fascinating roadmap, including historical context, for anyone seeking to

understand the complex workings of the international corporate economy that affects us all. This book is perfect for students of, and those wishing to participate in, this revolutionary wave sweeping our planet.

**The Marketing Manifesto** David James Hood 2013 Marketing is key to the health and wealth of organisations and a vital component in business strategy. Despite the fact that it produces three times more value than any other facet of a business and continual major improvements in its evolution as a profession, marketing and marketers are often undervalued as part of the business and underexploited as a force for profit. It is time marketing - and the Marketer - became critical. The Marketing Manifesto tackles and exposes the problems that stand in the way of the marketer realising marketing's prime objective and role - to improve and sustain revenue whilst improving the lives of the customer and consumer. Delivered in a refreshing style, by a marketer at the sharp end of successful business practice, The Marketing Manifesto offers unique steps to creating and delivering a successful marketing strategy in any organization and to improve your own a personal impact - on your role, career and organisation. The Marketing Manifesto is an innovative and highly practical title that crystallizes precisely how professional marketers can not only create a goal-oriented personal and company strategy, but also competitive advantage through applying marketing in the way it could and should be practised.

**Soft Power With Chinese Characteristics** Ying Zhu 2019-12-05 This book examines the Chinese Communist Party's attempts to improve China's image around the world, thereby increasing its "soft power." This soft, attractive form of power is crucial if China is to avoid provoking an international backlash against its growing military and economic might. The volume focuses on the period since Xi Jinping came to power in 2012, and is global in scope, examining the impact of Chinese policies from Hong Kong and Taiwan to Africa and South America. The book explains debates over soft power within China and delves into case studies of important policy areas for China's global image campaign, such as film, news media and the Confucius Institutes. The most comprehensive work of its kind, the volume presents a picture of a Chinese leadership that has access to vast material resources and growing global influence but often struggles to convert these resources into genuine international affection. With a foreword by Joseph Nye, *Soft Power With Chinese Characteristics* will be invaluable to students and scholars of Chinese politics and Chinese media, as well as international relations and world politics more generally.

**Management Accounting in a Dynamic Environment** Cheryl S. McWatters 2015-12-22 Whether students pursue a professional career in accounting or in other areas of management, they will interact with accounting systems. In all organizations, managers rely on management accounting systems to provide information to deal with changes in their operating environment. This book provides students and managers with an understanding and appreciation of the strengths and limitations of an organization's accounting system, and enables them to be intelligent and critical users of the system. The text highlights the role of management accounting as an integral part of the organization's strategy and not merely a set of individual concepts and computations. An analytical framework for organizational change is used throughout the book to underscore how organizations must adapt to create customer and organizational value. This framework provides a way to examine and analyze the organization's accounting system, and as a basis for evaluating proposed changes to the system. With international examples that bring the current business environment to the forefront, problems and cases to promote critical thinking, and online support for students and instructors, *Management Accounting in a Dynamic Environment* is no mere introductory textbook. It prepares readers to use accounting systems intelligently to achieve organizational success. The authors have identified several cases to accompany each chapter in the textbook. These are available through Ivey Publishing:
