Betrayed Elaine Eisenman 2019-07-02 Betrayal comes in many forms. In the corporate world, there are big lies, white lies, and lies of omission. In relationships, there are cheaters, two-faced lovers and friends, as well as out-and-out family fraudsters. The more trusting the relationship, the more devastating the betrayal. What is it that causes us such deep reaction to betrayal? Why do we relive it with such passion and intensity? Why does even the memory of a betrayal spark such feelings of shame, anger, and resentment? In *Betrayed*, Dr. Elaine Eisenman and Susan Stautberg dive into over fifty true stories of betrayal to learn how to successfully handle the trauma in setbacks, overcome the urge for quick revenge, consider the possibilities of forgiveness, and most importantly, to set a positive path into the future.

The Cost of Betrayal Dee Henderson 2018-09-04 In Dee Henderson's novella "Betrayed," Janelle Roberts is freed--thanks to people she doesn't know--after serving six years of a twenty-year sentence for a murder she did not commit. But a murderer is still at large, and Janelle needs to be somewhere safe with someone she can trust. She may not survive another betrayal. In Dani Pettrey's "Deadly Isle," Tennyson Kent is trapped on the isolated island of her childhood by a storm surge, and she is shocked when the typically idyllic community turns into the hunting grounds of a murderer. Cut off from any help from the mainland, will she and first love Callen Frost be able to identify and stop a killer bent on betrayal before they become the next victims? In Lynette Eason's "Code of Ethics," trauma surgeon Ruthie St. John saves the life of Detective Isaac Martinez. After a betrayal leads to him getting shot and then attacked while in recovery, Isaac is now a key witness determined to testify. But someone is intent on silencing him--and those around him--forever. Together, Ruthie and Isaac go on the run, desperate to escape the killers hunting him.

Betrayed (The Cost of Betrayal Collection) Dee Henderson 2019-02-05 Janelle Roberts is freed--thanks to the actions of strangers--after serving six years

of a twenty-year sentence for a murder she did not commit. But a murderer is still at large, and Janelle needs to be somewhere safe with someone she can trust. She may not survive another betrayal.

Oath of Honor (Blue Justice Book #1) Lynette Eason 2018-01-02 Police officer Isabelle St. John loves her crazy, loud, law-enforcement family. With three brothers and two sisters, she's never without someone to hang out with--or fight with. And she knows they'll be there for her when things get tough. Like when her partner is murdered and she barely escapes with her own life. Determined to discover exactly what happened, Izzy's investigation sends her headfirst into a criminal organization, possibly with cops on the payroll--including someone from her own family. With her dead partner's handsome homicide detective brother Ryan shadowing her every move, Izzy's head is spinning. How can she secure justice for her partner when doing so could mean sending someone she loves to prison? And how will she guard her heart when the man she's had a secret crush on for years won't leave her side? With her signature fast-paced, edge-of-your-seat action, Lynette Eason invites readers into a captivating new series where justice is a family affair.

Encyclopedia of Ethical Failure Department of Defense 2009-12-31 The Standards of Conduct Office of the Department of Defense General Counsel's Office has assembled an "encyclopedia" of cases of ethical failure for use as a training tool. These are real examples of Federal employees who have intentionally or unwittingly violated standards of conduct. Some cases are humorous, some sad, and all are real. Some will anger you as a Federal employee and some will anger you as an American taxpayer. Note the multiple jail and probation sentences, fines, employment terminations and other sanctions that were taken as a result of these ethical failures. Violations of many ethical standards involve criminal statutes. This updated (end of 2009) edition is organized by type of violations, including conflicts of interest, misuse of Government equipment, violations of post-employment restrictions, and travel.

Model Rules of Professional Conduct American Bar Association. House of Delegates 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Deadly Isle (The Cost of Betrayal Collection) Dani Pettrey 2019-02-05 Tennyson Kent is trapped on the isolated island of her childhood by a storm surge, and she is shocked when the typically idyllic community turns into the hunting grounds of a murderer. Cut off from any help from the mainland, will she and

first love Callen Frost be able to identify and stop a killer bent on revenge before they become the next victims?

Business Ethics and Values Colin M. Fisher 2006 "Business Ethics and Values" introduces students to the complexities and principles of ethical issues by focusing on developing ethical awareness and the ability to argue business ethics matters. A proven resource, the second edition of this text continues to present a successful blend of concrete issues and academic theory, suitable for undergraduate and postgraduate students with or without practical experience of the world of organisations. It gives as much importance to individual conscience at work as it does to socially responsible behaviour at the corporate level and within the global business world. Hallmark features: Broad coverage of the many issues in this subject ensures that students see the whole picture. The use of real-world case studies and simulations helps to stimulate debate and appreciate the multi-faceted aspects of ethical arguments. New to this edition: New material on the ethics of e-communication, sustainability and the ethical impact of globalisation ensures that students are learning from the most up-to-date material available. Further analysis of Anglo-American approaches to corporate governance and their ethical underpinnings. Short test and assignment questions at the end of each chapter help students to consolidate their learning. More simulation exercises and activities give students the opportunity to reflect on their attitudes to this engaging subject. A well-developed supplements package to support tutors and students includes an instructor's manual, PowerPoint slides and a companion website. Colin Fisher is Professor of Managerial Ethics and Values, Nottingham Business School, Nottingham Trent University. Alan Lovell is Professor of Organisational Accountability and Head of the Department of Accounting, Finance & Economics, Nottingham Business School, Nottingham Trent University.

Managing Business Ethics Linda K. Trevino 2016-09-13 TRY (FREE for 14 days), OR RENT this title: www.wileystudentchoice.com Linda Treviño and Kate Nelson bring together a mix of theory and practice in *Managing Business Ethics: Straight Talk about How to Do It Right*, 7th Edition. In this new edition, the dynamic author team of Linda Treviño, prolific researcher and Distinguished Professor, and Kate Nelson, Professor and longtime practitioner of strategic organizational communications and human resources, equip students with the pragmatic knowledge they need to identify and solve ethical dilemmas, understand their own and others' ethical behavior, and promote ethical behavior in their organization. *Managing Business Ethics* is the perfect text to prepare students for a range of roles in the business world--managers across business functions, communications professionals, compliance officers, corporate counsels, human resources managers, and senior executives.

Caring Nel Noddings 2013-09-14 With numerous examples to supplement her rich theoretical discussion, Nel Noddings builds a compelling philosophical argument for an ethics based on natural caring, as in the care of a mother for her child. In *Caring*--now updated with a new preface and afterword reflecting on the ongoing relevance of the subject matter--the author provides a wide-ranging

consideration of whether organizations, which operate at a remove from the caring relationship, can truly be called ethical. She discusses the extent to which we may truly care for plants, animals, or ideas. Finally, she proposes a realignment of education to encourage and reward not just rationality and trained intelligence, but also enhanced sensitivity in moral matters.

Codes of Betrayal Dorothy Uhnak 2014-10-14 Irish-Italian detective Nick O'Hara, grandson of a Mafia don, knows who is responsible for his son's death, but his hands are tied. Abandoned by his wife, he grows increasingly desperate, going into a tailspin from which he can see only one escape: revenge. As Nick's life goes into freefall, he must choose between duty, family loyalty and his desperate need for justice.

Business Ethics Stephen M. Byars 2018-09-24

Economics and Ethics of Private Property Hans-Hermann Hoppe 2006

The Ethics Challenge in Public Service Carol W. Lewis 2005-03-11 Since it was first published in 1991, *The Ethics Challenge in Public Service* has become a classic text used by public managers and in public management programs across the country. This second edition is filled with practical tools and techniques for making ethical choices in the ambiguous, pressured world of public service. It explores the day-to-day ethical dilemmas managers face in their work, including what to do when rules recommend one action and compassion another, and whether it is ethical to dissent from agency policy. This essential text explores managers' accountability to different stakeholders and how to balance the often competing responsibilities.

The Honest Truth About Dishonesty Dr. Dan Ariely 2013-06-18 The New York Times bestselling author of *Predictably Irrational* and *The Upside of Irrationality* returns with thought-provoking work to challenge our preconceptions about dishonesty and urge us to take an honest look at ourselves. Does the chance of getting caught affect how likely we are to cheat? How do companies pave the way for dishonesty? Does collaboration make us more honest or less so? Does religion improve our honesty? Most of us think of ourselves as honest, but, in fact, we all cheat. From Washington to Wall Street, the classroom to the workplace, unethical behavior is everywhere. None of us is immune, whether it's the white lie to head off trouble or padding our expense reports. In *The (Honest) Truth About Dishonesty*, award-winning, bestselling author Dan Ariely turns his unique insight and innovative research to the question of dishonesty. Generally, we assume that cheating, like most other decisions, is based on a rational cost-benefit analysis. But Ariely argues, and then demonstrates, that it's actually the irrational forces that we don't take into account that often determine whether we behave ethically or not. For every Enron or political bribe, there are countless puffed résumés, hidden commissions, and knockoff purses. In *The (Honest) Truth About Dishonesty*, Ariely shows why some things are easier to lie about; how getting caught matters less than we think; and how business practices pave the way for unethical behavior, both intentionally and

unintentionally. Ariely explores how unethical behavior works in the personal, professional, and political worlds, and how it affects all of us, even as we think of ourselves as having high moral standards. But all is not lost. Ariely also identifies what keeps us honest, pointing the way for achieving higher ethics in our everyday lives. With compelling personal and academic findings, *The (Honest) Truth About Dishonesty* will change the way we see ourselves, our actions, and others.

The Cost of Betrayal Dee Henderson 2018-09-04 In Dee Henderson's novella "Betrayed," Janelle Roberts is freed--thanks to people she doesn't know--after serving six years of a twenty-year sentence for a murder she did not commit. But a murderer is still at large, and Janelle needs to be somewhere safe with someone she can trust. She may not survive another betrayal. In Dani Pettrey's "Deadly Isle," Tennyson Kent is trapped on the isolated island of her childhood by a storm surge, and she is shocked when the typically idyllic community turns into the hunting grounds of a murderer. Cut off from any help from the mainland, will she and first love Callen Frost be able to identify and stop a killer bent on betrayal before they become the next victims? In Lynette Eason's "Code of Ethics," trauma surgeon Ruthie St. John saves the life of Detective Isaac Martinez. But someone is intent on silencing him--and those around him--forever. Together, Ruthie and Isaac go on the run, desperate to escape the killers hunting him.

The Killing Tide (Coastal Guardians Book #1) Dani Pettrey 2019-08-06 When one Coast Guard officer is found dead and another goes missing, Coast Guard Investigative Service special agent Finn Walker faces his most dangerous crime yet. His only clues are what little evidence remains aboard the dead officer's boat, and the direction the clues point to will test Finn and the Guard to their limits. When investigative reporter--and Finn's boss's sister--Gabby Rowley arrives, her unrelenting questions complicate an already volatile situation. Now that she's back, the tug on Finn's heart is strong, but with the risks she's taking for her next big story, he fears she might not live through it. Thrown together by the heinous crime, Finn and Gabby can't ignore the sparks or judgments flying between them. But will they be able to see past their preconceptions long enough to track down an elusive killer, or will they become his next mark?

Betrayal of the American Right, The Murray Newton Rothbard 2007

Coercion Tim Tigner 2015-07-07 The phone rings and the offer is made, leaving you only seconds to decide. Betray your country, or watch your family drop dead before your eyes. After the Iron Curtain's collapse, Russia appears to be finished as a superpower. But KGB general Vasily Karpov is secretly working to restore Russia's superpower status by forcing Americans into traitorous acts of espionage and sabotage, thanks to a new secret weapon. Meanwhile, his biggest target is within Russia, where Karpov is plotting to capture the Kremlin for himself. Former US soldier and spy Alex Ferris becomes the first to fathom

Karpov's grand plans. Racing from San Francisco to Siberia, Alex must elude ambushes, assassins, and death from exposure as he wages a one-man war against a growing global threat and the resurgence of the Soviet Union.

Ethics in Psychotherapy and Counseling Kenneth S. Pope 2021-07-08 Take your ethical reasoning and practice to the next level with timely discussions of new and reoccurring issues in psychology and counseling. In the newly revised Sixth Edition of *Ethics in Psychotherapy and Counseling: A Practical Guide*, a distinguished team of psychologists deliver a compilation of practical and creative approaches to the responsibilities, challenges, and opportunities encountered by therapists and counselors in their work. The book covers the many changes and difficulties created by new technologies like electronic health records, videoconferencing, texting, and practicing across state and provincial boundaries. Using a new, easy-to-navigate structure and including brand new chapters on cultural ethics, social justice and human rights ethics, and the application of strategies for self-care, the authors discuss complex issues in a straightforward and accessible way. Conversations about moral distress and moral courage and actionable steps to strengthen ethics in organizational settings round out the useful material contained within. Once referred to as the "conscience of psychology," this must-read book also includes: A thorough introduction to the foundations of psychotherapeutic ethics, including ethics in real life, ethics in theories and codes, cultural context, ethical decision making, and moral courage. An exploration of common sources of ethical problems and pitfalls, including: pseudoscience, ethical fallacies, ethical judgement errors, language and rationalizations Practical discussions of special topics in ethics, including informed consent and informed refusal, using strategies for self-care, responding to ethics, licensing, and malpractice complaints, and confidentiality. In-depth examination of timely issues, including sexual attraction to patients, digital therapy, and responding to suicidal risk. Perfect for individual practitioners and teachers of graduate courses, seminars, and continuing education classes, *Ethics in Psychotherapy and Counseling: A Practical Guide* will also earn a place in the libraries of forensic psychologists and other expert witnesses preparing to testify on the standard of care in malpractice cases.

At Any Cost Rebecca Rosenberg 2021-04-06 *At Any Cost* unravels the twisted story of Rod Covlin, whose unrepentant greed drove him to an unspeakable act of murder and betrayal that rocked New York City. Wealthy, beautiful, and brilliant, Shele Danishefsky had fulfillment at her fingertips. Having conquered Wall Street, she was eager to build a family with her much younger husband, promising Ivy League graduate Rod Covlin. But when his hidden vices surfaced, marital harmony gave way to a merciless divorce. Rod had long depended on Shele's income to fund his tastes for high stakes backgammon and infidelity--and she finally vowed to sever him from her will. In late December 2009, Shele made an appointment with her lawyer to block him from her millions. She would never make it to that meeting. Two days later, on New Year's Eve, Shele was found dead in the bathtub of her Upper West Side apartment. Police ruled it an accident, and Shele's deeply Orthodox Jewish family quickly buried

her without an autopsy on religious grounds. Rod had a clear path to his ex-wife's fortune, but suspicions about her death lingered. As the two families warred over custody of Shele's children—and their inheritance— Rod concocted a series of increasingly demented schemes, even plotting to kill his own parents, to secure the treasure. And as investigators closed in, Rod committed a final, desperate act to frame his own daughter for her mother's death. Journalists Rebecca Rosenberg and Selim Algar reconstruct the ten years that passed between the day Shele was found dead and the day her killer faced justice in this riveting account of how one man's irrepressible greed devolved into obsession, manipulation, and murder.

Nicomachean Ethics Aristotle 2021-11-13 Nicomachean Ethics Aristotle - The Nicomachean Ethics is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the Ethics that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's Ethics in his political philosophy as a whole. The Nicomachean Ethics has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

A Gift of Fire Sara Baase 2013 This timely revision will feature the latest Internet issues and provide an updated comprehensive look at social and ethical issues in computing from a computer science perspective.

Lying and Deception Thomas L. Carson 2010-04-29 Thomas Carson offers the most comprehensive and up-to-date investigation of moral and conceptual questions about lying and deception. Part I addresses conceptual questions and offers definitions of lying, deception, and related concepts such as withholding information, "keeping someone in the dark," and "half truths." Part II deals with questions in ethical theory. Carson argues that standard debates about lying and deception between act-utilitarians and their critics are inconclusive because they rest on appeals to disputed moral intuitions. He defends a version of the golden rule and a theory of moral reasoning. His theory implies that there is a moral presumption against lying and deception that causes harm – a presumption at least as strong as that endorsed by act-utilitarianism. He uses this theory to justify his claims about the issues he addresses in Part III: deception and withholding information in sales, deception in advertising,

bluffing in negotiations, the duties of professionals to inform clients, lying and deception by leaders as a pretext for fighting wars, and lying and deception about history (with special attention to the Holocaust), and cases of distorting the historical record by telling half-truths. The book concludes with a qualified defence of the view that honesty is a virtue.

Ethical Decision Making in Social Work Wade L. Robison 2000 "This textbook is a valuable part of the learning process; it will help you to acquire the skills and knowledge you will need in an ever-changing global society. Your text will also help you to connect with the latest research and debates in the field; visit our accompanying website at www.abacon.com/socialwork. There you will find additional information or weblinks that will help you make the best use of what you have learned."--BOOK JACKET.

Ethics in Psychology and the Mental Health Professions Gerald P. Koocher 2008-01-16 Most mental health professionals and behavioral scientists enter the field with a strong desire to help others, but clinical practice and research endeavors often involve decision-making in the context of ethical ambiguity. Good intentions are important, but unfortunately, they do not always protect the practitioner and client from breaches in ethical conduct. Academics, researchers, and students also face a range of ethical challenges from the classroom to the laboratory. Now in a new expanded edition, *Ethics in Psychology and the Mental Health Professions*, the most widely read and cited ethics textbook in psychology, has emerged with a broadened scope extending across the mental health and behavioral science fields. The revised volume considers many of the ethical questions and dilemmas that mental health professionals encounter in their everyday practice, research, and teaching. The book has been completely updated and is now also relevant for counselors, marriage and family therapists, social workers, and psychiatrists, and includes the ethics codes of those groups as appendices. Providing both a critical assessment and elucidation of key topics in the APA's guidelines, this comprehensive volume takes a practical approach to ethics and offers constructive means for both preventing problems, recognizing, approaching, and resolving ethical predicaments. Written in a highly readable and accessible style, this new edition retains the key features which have contributed to its popularity, including hundreds of case studies that provide illustrative guidance on a wide variety of topics, including fee setting, advertising for clients, research ethics, sexual attraction, how to confront observed unethical conduct in others, and confidentiality, among others. *Ethics in Psychology and the Mental Health Professions* will be important reading for practitioners and students-in training. An instructors manual is available for professors on <http://www.oup.com/us/companion.websites/9780195149111>

All American Boys Jason Reynolds 2015-09-29 When sixteen-year-old Rashad is mistakenly accused of stealing, classmate Quinn witnesses his brutal beating at the hands of a police officer who happens to be the older brother of his best friend. Told through Rashad and Quinn's alternating viewpoints.

The Shadow University Alan Charles Kors 1999-07-15 Universities once believed themselves to be sacred enclaves, where students and professors could debate the issues of the day and arrive at a better understanding of the human condition. Today, sadly, this ideal of the university is being quietly betrayed from within. Universities still set themselves apart from American society, but now they do so by enforcing their own politically correct worldview through censorship, double standards, and a judicial system without due process. Faculty and students who threaten the prevailing norms may be forced to undergo "thought reform." In a surreptitious aboutface, universities have become the enemy of a free society, and the time has come to hold these institutions to account. The Shadow University is a stinging indictment of the covert system of justice on college campuses, exposing the widespread reliance on kangaroo courts and arbitrary punishment to coerce students and faculty into conformity. Alan Charles Kors and Harvey A. Silverglate, staunch civil libertarians and active defenders of free inquiry on campus, lay bare the totalitarian mindset that undergirds speech codes, conduct codes, and "campus life" bureaucracies, through which a cadre of deans and counselors indoctrinate students and faculty in an ideology that favors group rights over individual rights, sacrificing free speech and academic freedom to spare the sensitivities of currently favored groups. From Maine to California, at public and private universities alike, liberty and fairness are the first casualties as teachers and students find themselves in the dock, presumed guilty until proven innocent and often forbidden to cross-examine their accusers. Kors and Silverglate introduce us to many of those who have firsthand experience of the shadow university, including: The student at the center of the 1993 "Water Buffalo" case at the University of Pennsylvania, who was brought up on charges of racial harassment after calling a group of rowdy students "water buffalo" -- even though the term has no racial connotations. The Catholic residence adviser who was fired for refusing, on grounds of religious conscience, to wear a symbol of gay and lesbian causes. The professor who was investigated for sexual harassment when he disagreed with campus feminists about curriculum issues. The student who was punished for laughing at a statement deemed offensive to others and who was ordered to undergo "sensitivity training" as a result. The Shadow University unmasks a chilling reality for parents who entrust their sons and daughters to the authority of such institutions, for thinking people who recognize that vigorous debate is the only sure path to truth, and for all Americans who realize that when even one citizen is deprived of liberty, we are all diminished.

Betrayal of the Child Stewart Rein 2001

The 48 Laws Of Power Robert Greene 2010-09-03 THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout

Downloaded from avenza-dev.avenza.com
on October 4, 2022 by guest

and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, *Volume Three*, was wack. People set higher standards for me, and I love it.

Paying the Price Sara Goldrick-Rab 2016-09-01 A “bracing and well-argued” study of America’s college debt crisis—“necessary reading for anyone concerned about the fate of American higher education” (Kirkus). College is far too expensive for many people today, and the confusing mix of federal, state, institutional, and private financial aid leaves countless students without the resources they need to pay for it. In *Paying the Price*, education scholar Sara Goldrick-Rab reveals the devastating effect of these shortfalls. Goldrick-Rab examines a study of 3,000 students who used the support of federal aid and Pell Grants to enroll in public colleges and universities in Wisconsin in 2008. Half the students in the study left college without a degree, while less than 20 percent finished within five years. The cause of their problems, time and again, was lack of money. Unable to afford tuition, books, and living expenses, they worked too many hours at outside jobs, dropped classes, took time off to save money, and even went without adequate food or housing. In many heartbreaking cases, they simply left school—not with a degree, but with crippling debt. Goldrick-Rab combines that data with devastating stories of six individual students, whose struggles make clear the human and financial costs of our convoluted financial aid policies. In the final section of the book, Goldrick-Rab offers a range of possible solutions, from technical improvements to the financial aid application process, to a bold, public sector–focused “first degree free” program. “Honestly one of the most exciting books I've read, because [Goldrick-Rab has] solutions. It's a manual that I'd recommend to anyone out there, if you're a parent, if you're a teacher, if you're a student.”—Trevor Noah, *The Daily Show*

Moving Up Without Losing Your Way Jennifer Morton 2021-04-20 The dilemmas faced by disadvantaged college students seeking upward mobility and what educators can do to help these students flourish Upward mobility through higher education has been an article of faith for generations of working-class, low-income, and immigrant college students. While this path usually entails financial sacrifices and hard work, little attention has been paid to the personal compromises such students make as they enter worlds vastly different from their own. Measuring the true cost of higher education for those from disadvantaged

backgrounds, *Moving Up without Losing Your Way* looks at the ethical dilemmas of upward mobility—the broken ties with family and friends, and the loss of community and identity—faced by students as they strive to earn a successful place in society. Drawing upon philosophy, social science, personal stories, and interviews, Jennifer Morton reframes the college experience, factoring in not just educational and career opportunities but also essential relationships. She urges educators to empower students with a new narrative, one that might allow them to achieve social mobility while retaining their best selves.

Code of Ethics (The Cost of Betrayal Collection) Lynette Eason 2019-02-05 When Detective Isaac Martinez lands in the ER with a gunshot wound, he pulls through thanks to trauma surgeon Ruthie St. John. But as the witness to a crime and possible corruption, Martinez is at risk from someone intent on silencing him--and those around him--forever. When he barely survives another attack while recovering, both he and Ruthie must flee, trying to outrun deadly killers while locating the evidence they need to end the danger.

Codes of Ethics in Tourism David A. Fennell 2007-05-16 With ethics fast becoming a mainstay in tourism studies and the tourism industry in general, this volume provides a timely and intensive look at the theory and practice of codes of ethics in tourism. While the book includes a broad overview of what has been done to date in tourism studies in the area of code development and implementation, it ranges much more widely to incorporate theoretical work from outside the tourism field. This interdisciplinary approach serves two essential purposes. First, it furnishes the study of tourism codes of ethics with a theoretical foundation, which up to the present has been lacking. Second, it affords tourism scholars the opportunity to investigate codes in tourism from a multiplicity of perspectives, with direct relevance to the industry at many levels.

Ethical Issues in Social Work Richard Hugman 1995 This book provides up-to-date critical analyses of the ethical implications of new legislation in community care and criminal justice, and of trends in social work thought and policy, such as managerialism, user empowerment and feminism.

Ethics 101 Brian Boone 2017-11-07 Explore the mysteries of morality and the concept of right and wrong with this accessible, engaging guide featuring basic facts along with an overview of modern-day issues ranging from business ethics and bioethics to political and social ethics. *Ethics 101* offers an exciting look into the history of moral principles that dictate human behavior. Unlike traditional textbooks that overwhelm, this easy-to-read guide presents the key concepts of ethics in fun, straightforward lessons and exercises featuring only the most important facts, theories, and ideas. *Ethics 101* includes unique, accessible elements such as: -Explanations of the major moral philosophies including utilitarianism, deontology, virtue ethics, and eastern philosophers including Avicenna, Buddha, and Confucius. -Classic thought exercises including the trolley problem, the sorites paradox, and agency theory -Unique profiles of the greatest characters in moral philosophy -An explanation of modern applied

ethics in bioethics, business ethics, political ethics, professional ethics, organizational ethics, and social ethics From Plato to Jean-Paul Sartre and utilitarianism to antirealism, Ethics 101 is jam-packed with enlightening information that you can't get anywhere else!

Silent Hill: Betrayal Shaun M Jooste 2016-10-31

Military Review 2002

Betrayal of Trust Stanley J. Grenz 2001-09-01 Sexual misconduct by clergy is a devastating issue that reaches across all denominations, damaging the credibility of the church in its wake. The media regularly reports on the moral failure of leaders and abuse at the hands of those who are supposed to be trustworthy. *Betrayal of Trust* focuses on a common scenario of abuse--sexual involvement between a male pastor and a female congregant--and offers practical solutions on how to respond to and prevent this betrayal of trust. This book presents methods that will help churches respond sensitively to victims and implement policies and procedures to prevent abuse from taking place. For clergy who may be at risk for this behavior, it offers help in establishing appropriate boundaries. This second edition includes a new chapter that offers help for the wandering pastor and a risk-determination questionnaire for pastors who may become abusers.

On Being a Scientist National Academy of Engineering 1995-02-10 Since the first edition of *On Being a Scientist* was published in 1989, more than 200,000 copies have been distributed to graduate and undergraduate science students. Now this well-received booklet has been updated to incorporate the important developments in science ethics of the past 6 years and includes updated examples and material from the landmark volume *Responsible Science* (National Academy Press, 1992). The revision reflects feedback from readers of the original version. In response to graduate students' requests, it offers several case studies in science ethics that pose provocative and realistic scenarios of ethical dilemmas and issues. *On Being a Scientist* presents penetrating discussions of the social and historical context of science, the allocation of credit for discovery, the scientist's role in society, the issues revolving around publication, and many other aspects of scientific work. The booklet explores the inevitable conflicts that arise when the black and white areas of science meet the gray areas of human values and biases. Written in a conversational style, this booklet will be of great interest to students entering scientific research, their instructors and mentors, and anyone interested in the role of scientific discovery in society.
