Lift-the-Flap Tab: First 50 Words Roger Priddy 2018-08-14 First 50 Words is a colorful, lift-the-flap board book from Roger Priddy, perfect for babies and toddlers starting to develop their vocabulary and understanding of key concepts. Each spread has a theme—getting dressed introduces color, playtime introduces numbers—and there are bright, beautiful photographs of familiar things in a young child's world, including lots of other children. The big, sturdy flaps reveal fun surprises, and the tabs make page-turning easy for little hands. This is an ideal book for any baby or toddler's first bookshelf!

Pig, Pigger, Piggest Rick Walton 2011 Three pig brothers--Pig, Pigger, and Piggest--leave their father's castle to build homes of their own, in a book that highlights comparisons in English grammar.

Immigration Regulation in Federal States Sasha Baglay 2014-03-18 The book examines the phenomenon of immigration federalism: its main characteristics, why and how it has developed, its implications for immigration systems (in general) and non-citizens' rights (in particular). The book

introduces the reader to theoretical perspectives on immigration federalism through three sets of literature - federalism, governance and non-citizens' rights - that provide a necessary framework for understanding immigration federalism's multiple facets and impacts. It also offers an analysis of immigration federalism through case studies of six jurisdictions: Australia, Canada, Germany, Switzerland, the EU and the US. Despite increased sub-national activity in immigration regulation in several federal states, very little research has been dedicated so far to comparing how federal states deal with immigration federalism. Comparative studies on the human rights implications of immigration federalism have received even less attention. This book seeks to fill the gap in this area and is an important contribution to the field, providing the reader with a better understanding of the complex issues surrounding immigration federalism and its impact on non-citizens.

My First 1000 Words Racehorse for Young Readers 2017-11-14 The basic building blocks for young, exuberant learners!

The Geometry of Holding Hands Alexander McCall Smith 2020-07-28 Isabel finds herself entangled in some tricky familial and financial situations that will require all of her kindness, charm, and philosophical expertise to navigate. Just when Isabel and Jamie finally seem to have some time to connect and unwind, a wealthy Edinburgh resident reaches out to Isabel with an unusual request—he would like her to become the executor of his large Highland estate. Though Isabel initially demurs, he presses on. He has only a short time to live, and, without any direct heirs, is struggling to determine which of his three cousins would be the best caretaker. Should it go to the bohemian artist, the savvy city property developer, or the quiet, unassuming bachelor? As if this weren't enough to keep Isabel occupied, she's also spending more time helping her niece Cat at the deli. Cat, perennially unlucky in love, seems to have finally found her match in the leonine Leo. But Isabel is beginning to suspect that Leo might be interested in more than Cat's charms, namely her access to the family trust. Isabel will need to rely upon remarkable reserves of intelligence and compassion in order to give all parties exactly what they want and deserve—no more, and no less.

She Believed She Could, So She Did 2018-01-09 Every girl needs a little inspiration--especially when the going gets tough or someone tries to convince her she can't reach her dreams. This journal full of quotes from successful women who battled adversity and won (including Gloria Steinem, Maya Angelou, and Helen Keller) will prove to girls that everything is possible . . . as long as they PERSIST.

-Ful and -Less, -Er and -Ness Brian P. Cleary 2017-08-01 Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! Turns traditional grammar lessons on end! Read and reread this book aloud and delight in the sense—and nonsense—of words. What is a suffix? You'll find the answer inside this book—it's overflowing with wonderful suffixes. Brian P. Cleary's playful rhymes and Martin Goneau's humorous illustrations creatively present the concept of suffixes for young readers. For easy identification, key suffixes appear in color, and the comical cats reinforce each idea.

Learning with Information Systems Simon Bell 2013-02-01 In *Learning with Information Systems* the author takes the developing world as the context and through a series of case studies develops a commonly used systems analysis methodology. He demonstrates how this methodology can evolve and adapt as new ideas become prominent. Issues of sustainability of information systems, participation in systems design and user ownership of systems are all examined. This book does not attempt to be prescriptive for all contexts nor does it focus on any particular technology. It addresses the essential questions and promises practical approaches which will help in the avoidance of the worst forms of disaster associated with the planning of information systems for developing countries.

Sherlock Bones and the Times Table Adventure John Bigwood 2020-03-19 Ideal for children aged 7 to 11 (KS2), this fun-filled times-table activity book allows children to test their numeracy skills.

The Cabinet of Dr Caligari Robert Wiene 1984

Fossil Lake III Christine Morgan 2016-02-20 A third anthology of the aberrant, featuring thirty-two tales of unicorn weirdness.

One Foot, Two Feet Peter Maloney 2011-05-12 One foot, two feet One mouse, three mice One goose, four geese In this clever counting book, die-cut windows frame a single object and a turn of the page reveals a group. Featuring familiar objects and funny artwork, this inventive concept book is a great introduction to both counting and common irregular plural nouns. A cumulative row of illustrations

along the bottom of the pages shows all of the previous objects in order, so kids can keep track of where they are, and the book also contains a fun hide-and-seek game, inviting kids to spy a little airplane zooming through each spread.

Starring Me Magic Sequin Journal (American Girl) Howie Dewin 2017-12-26 From American Girl comes a journal designed to help girls discover their inner star! Complete with a two-way "magic sequin" cover!

Great for on-the-road entertainment.

National Geographic Kids Almanac 2017 National Geographic Society (U.S.) 2016-05 Provides the latest information on a wide range of topics, including animals, culture, geography, the environment, history, and science.

Secrets Nuruddin Farah 2014-08-05 "With *Secrets*, Nuruddin Farah solidifies his reputation as one of the world's great writers."—Ishmael Reed Set against the backdrop of the civil war in Somalia, this stunningly ambitious novel was a Los Angeles Times Book Review Best Fiction of the Year Selection. In Mogadiscio, the dictator is preparing to flee and clans are moving into the city, which rattles with machine gun fire. Society is collapsing under the weight of its own perversities. Unexpectedly, Kalamán, a businessman who owns a computer store, receives a visit from his childhood crush, who has returned from America to take him up on an old pledge—and have his child. The arrival of his house guest pulls Kalamán back into a past he thought he had escaped, rife with doubts and secrets that go deep into his heritage. In a dazzling display of storytelling genius, Nuruddin Farah weaves together myth and magic, shape shifters and tribal wisdom, frank sexuality and lyrical prose as Kalamán revisits his own coming of age story and finds the heartbreaking tale of his family's lost innocence amid the ravages of authoritarianism. With *Secrets*, the culmination of his Blood in the Sun trilogy, Farah draws readers through the rifts that have torn across Somali society and into the culture and mindset of his troubled country. Skyhorse Publishing, as well as our Arcade, Yucca, and Good Books imprints, are proud to publish a broad range of books for readers interested in fiction—novels, novellas, political and medical thrillers, comedy, satire, historical fiction, romance, erotic and love stories, mystery, classic literature, folklore and mythology, literary classics including Shakespeare, Dumas, Wilde, Cather, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Notable Notebooks Jessica Fries-Gaither 2016-09-30 Take a trip through time to discover the value of a special place to jot your thoughts, whether you're a famous scientist or a student. *Notable Notebooks: Scientists and Their Writings* brings to life the many ways in which everyone from Galileo to Jane Goodall has used a science notebook, including to sketch their observations, imagine experiments, record data, or just write down their thoughts. You also get four steps to starting your own notebook, plus mini-bios of the diverse featured scientists. Written in captivating rhyme, the text is sprinkled with lively illustrations. In fact, it looks a lot like the science notebook you'll be eager to start after reading this inspiring book. Lexile Framework: 670L Visit www.Lexile.com for more information about Lexile Measures.

Skill Sharpeners Grammar and Punctuation, Grade 2 Evan-Moor 2019 Help children improve their writing while learning important grammar and punctuation rules. These colorful activity books make language skill practice fun!

Violence and Mental Health Jutta Lindert 2015-02-25 Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of 'undoing violence' by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

Wipe-Clean First Spellings: Start School with Topsy and Tim Jean Adamson 2016-05-05

The State in Ancient Egypt Juan Carlos Moreno Garcia 2019-09-05 This book presents a new analysis of the organization, structure and changes of the pharaonic state through three millennia of its history. Moreno García sheds new light on this topic by bringing to bear recent developments in state theory and archaeology, especially comparative study of the structure of ancient states and empires. The role played by pharaonic Egypt in new studies often reiterates old views about the stability, conservatism and 'exceptionalism' of Egyptian kingship, which supposedly remained the same across the Bronze and Iron Ages. Ancient Egypt shared many parallels with other Bronze and Iron Age societies as can be shown by an analysis of the structure of the state, of the limits of royal power, of the authority of local

but neglected micro-powers (such as provincial potentates and wealthy non-elite), and of the circulation and control of wealth. Furthermore, Egypt experienced deep changes in its social, economic, political and territorial organization during its history, thus making the land of the pharaohs an ideal arena in which to test applications of models of governments and to define the dynamics that rule societies on the longue durée. When seen through these new perspectives, the pharaonic monarchies appear less exceptional than previously thought, and more dependent on the balance of power, on their capacity to control the kingdom's resources and on the changing geopolitical conditions of their time.

International Freight Transport Anthony Beresford 2017-03-03 International Freight Transport presents the key changes and issues in the fast-moving industries of trade and transport. It includes regional trade groupings, emergence of new large economies (i.e. BRIC countries), and pivotal regions such as the Middle East and Central America where major projects, such as new and widened canals, are underway or planned. These changes could redraw the trade map with major implications for transport patterns and solutions. Blending geography, economics, politics and trade, International Freight Transport provides insight into a wide range of topics, including: globalisation; demand versus supply; buyers and sellers; transport regulation, geography, modes and methods; transport ownership; alliances; and safety and security. The book is the only comprehensive and accessible book on international transport available.
