From Dedekind to Gödel Jaakko Hintikka 2013-03-09 Discussions of the foundations of mathematics and their

history are frequently restricted to logical issues in a narrow sense, or else to traditional problems of analytic philosophy. *From Dedekind to Gödel: Essays on the Development of the Foundations of Mathematics* illustrates the much greater variety of the actual developments in the foundations during the period covered. The viewpoints that serve this purpose included the foundational ideas of working mathematicians, such as Kronecker, Dedekind, Borel and the early Hilbert, and the development of notions like model and modelling, arbitrary function, completeness, and non-Archimedean structures. The philosophers discussed include not only the household names in logic, but also Husserl, Wittgenstein and Ramsey. Needless to say, such logically-oriented thinkers as Frege, Russell and Gödel are not entirely neglected, either. Audience: Everybody interested in the philosophy and/or history of mathematics will find this book interesting, giving frequently novel insights.

Collecting Historical Autographs Ron Keurajian 2016-11-22 Collecting autographs is a time-honored avocation that has exploded in popularity in recent years, creating a new industry with millions of autographed items for sale online. Coveted signatures include those of United States presidents, Civil War officers, World War II heroes, classical music composers and baseball stars. It has been estimated that 90 percent of historical autographs on the market today are forgeries. This book is a definitive guide to signature authentication for experts and beginners alike. Numerous illustrations of both genuine and forged signatures are included, from Ty Cobb to Abraham Lincoln to Isaac Newton to Neil Armstrong. Detailed descriptions of common forgeries are given, enabling collectors to make direct comparisons.

Collecting Autographs Susan Brewer 2011-04-22 Written by collectables expert Susan Brewer, the book covers the world of autographs, both beautifully-illustrated autograph books from the days when ordinary people signed them for friends with thoughtful poems or illustrations, to celebrity and highly collectable autographs. Hundreds of verses and reflective messages are included, as well as many humorous entries gleaned from autograph albums over the years. The book begins with a general overview of autographs, autograph collecting and autograph books, has a chapter on preserving and storing autographs, advice on how to collect them and ends with a directory of auction houses which specialise in ephemera. Examples of autographs include Victorian politicians, Prime Ministers, royalty, artists, actors, sportsmen and ordinary people who took the time to think up clever rhymes or stunning illustrations. Aimed at the collectable market but also nostalgia as so many people used to collect autographs at stage doors or end of pier shows. This book will appeal not only to the collector but to anyone interested in social history and our changing way of life.

Festa Musicologica George J. Buelow 1995 George J. Buelow's distinguished career as author, translator, editor, and officer of numerous musical associations is celebrated in this collection of essays. The volume, planned by his colleagues in honor of his sixty-fifth birthday, concentrates on three of his active interests-Handel studies, vocal music and singers, and the history of music theory. The work concludes with an autobiographical sketch of the dedicatee's early life in Chicago and his formation as a musicologist.
