**A Cowboy Detective** Charles A. Siringo 1888-01-01 After years of cowboying, Charles A. Siringo had settled down to store-keeping in Caldwell, Kansas, when a blind phrenologist, traveling through, took the measure of his "mule head" and told him that he was "cut out" for detective work. Thereupon, Siringo joined the Pinkerton National Detective Agency in 1886. A Cowboy Detective chronicles his twenty-two years as an undercover operative in wilder parts of the West, where he rode with the lawless, using more stratagems and guises than Sherlock Holmes to bring them to justice and escaping violent death more often than Dick Tracy. He survived the labor riots at Coeur d'Alene, Idaho, in 1892 (his testimony helped convict eighteen union leaders), hounded moonshiners in the Appalachians, and chased Butch Cassidy's Wild Bunch. Once described as "a small wiry man, cold and steady as a rock" and "born without fear," Charlie Siringo became a favorite of high-ups in the Pinkerton organization. Nevertheless, the Pinkertons, ever sensitive to criticism, went to court to block publication of Siringo's book. Frank Morn, in his introduction to this Bison Books edition, discusses the changes that resulted from two years of litigation. Finally published in 1912 without Pinkerton in the title or the text, A Cowboy Detective has Siringo working for the "Dickensen Detective Agency" and meeting up with the likes of "Tim Corn," whom every western buff will recognize. The deeper truth of Siringo's book remains. As J. Frank Dobie wrote, "His cowboys and gunmen were not of Hollywood and folklore. He was an honest reporter.

*Lucky Penny* Catherine Anderson 2012-01-31 In this stirring novel of the Old West from New York Times bestselling author Catherine Anderson, a desperate woman's impulsive ruse brings a rough-looking stranger into her life... To support her orphaned niece, impoverished Brianna O'Keefe accepts work with a Colorado rancher. To guard herself from unwanted attention, she resorts to a harmless little lie: that she's married to a Denver gold miner named David Paxton. When her boss forces her to write her

"husband," hoping he'll take Brianna off his hands, she can only pray that no real David Paxton exists who can expose her. When Colorado marshal David Paxton gets a letter from a stranger claiming to be his wife, and pleading with him to come for her and his "daughter," he dutifully sets out to find this woman and the child he may have sired. What stuns Brianna is that David is convinced the young girl could, in fact, be his. As David and Brianna's wary attraction blossoms into a deeper desire, David warms to the idea of a ready-made family. But can his dream survive Brianna's lingering distrust...and his own heart-held secrets?

Along Navajo Trails Will Evans 2005-04-15 Will Evans's writings should find a special niche in the small but significant body of literature from and about traders to the Navajos. Evans was the proprietor of the Shiprock Trading Company. Probably more than most of his fellow traders, he had a strong interest in Navajo culture. The effort he made to record and share what he learned certainly was unusual. He published in the Farmington and New Mexico newspapers and other periodicals, compiling many of his pieces into a book manuscript. His subjects were Navajos he knew and traded with, their stories of historic events such as the Long Walk, and descriptions of their culture as he, an outsider without academic training, understood it. Evans's writings were colored by his fondness for, uncommon access to, and friendships with Navajos, and by who he was: a trader, folk artist, and Mormon. He accurately portrayed the operations of a trading post and knew both the material and artistic value of Navajo crafts. His art was mainly inspired by Navajo sandpainting. He appropriated and, no doubt, sometimes misappropriated that sacred art to paint surfaces and objects of all kinds. As a Mormon, he had particular views of who the Navajos were and what they believed and was representative of a large class of often-overlooked traders. Much of the Navajo trade in the Four Corners region and farther west was operated by Mormons. They had a significant historical role as intermediaries, or brokers, between Native and European American peoples in this part of the West. Well connected at the center of that world, Evans was a good spokesperson.

**Government to Government** Susan Johnson 2000 State and tribal governments have common purposes: to use public resources effectively and efficiently, to provide comprehensive services to their respective citizens, and to protect the natural environment, all while sustaining healthy economies. Neighboring governments, as a practical matter, share many aspects of their respective economic and social systems, and are connected through political and legal relationships. Although these mutual interests have created jurisdictional disputes that historically have been solved through litigation, there is an increasing need for cooperation. Public resources are an issue for all governments, and state and tribes can benefit by collaborating and pooling resources to the fullest extent possible.

**Beneath the United States** Lars Schoultz 1998-06-15 In this sweeping history of United States policy toward Latin America, Lars Schoultz shows that the United States has always perceived Latin America as a fundamentally inferior neighbor, unable to manage its affairs and stubbornly underdeveloped. This perception of inferiority was apparent from the beginning. John Quincy Adams, who first established diplomatic relations with Latin America, believed that Hispanics were lazy, dirty, nasty...a parcel of hogs. In the early nineteenth century, ex-President John Adams declared that any effort to implant democracy in Latin America was as absurd as similar plans would be to establish democracies among the birds, beasts, and fishes. Drawing on extraordinarily rich archival sources, Schoultz, one of the country's foremost Latin America scholars, shows how these core beliefs have not changed for two centuries. We have combined self-interest with a civilizing mission--a self-abnegating effort by a superior people to help a substandard civilization overcome its defects. William Howard Taft felt the way to accomplish this task was to knock their heads together until they should maintain peace, while in 1959 CIA Director Allen Dulles warned that the new Cuban officials had to be treated more or less like children. Schoultz shows that the policies pursued reflected these deeply held convictions. While political correctness censors the expression of such sentiments today, the actions of the United States continue to assume the political and cultural inferiority of Latin America. Schoultz demonstrates that not until the United States perceives its southern neighbors as equals can it anticipate a constructive hemispheric alliance.
