One More Ride on the Merry-Go-Round Tiziano Terzani 2016-07-10 When he is diagnosed with cancer, in the silence of the hospital room broken only by the swish of cars outside, Italian writer Tiziano Terzani realizes that his whole life has been one long ride on a merry-go-round where he has always journeyed without a ticket. Now, for the first time, the ticket collector has come to demand his dues. At first, Terzani turns to Western medicine for a cure, but a question soon begins to haunt him: is cancer, as the doctors say, an enemy that needs to be destroyed, or is it a friend one can talk to? Travelling had always been a way of life for him, so he decides to make another trip, in search of a solution - to India. This final ride turns out to be very different though. And more difficult. Because every step, every choice - often between reason and faith, between science and magic - is inextricably linked to his own survival. As he crisscrosses the country from an ashram in Coimbatore to a hut in Almora, the external journey in search of a cure transforms into an inner journey and a return to the divine roots of man. Then, one day, as he looks at the sun rising over the mountains, he stumbles upon the one truth that has eluded him: death is as desirable and eternal as life itself. A bestseller in Europe, this is a book about modern medicine and alternative cures, and the quest to understand the true meaning of mortality.

A Fortune-Teller Told Me Tiziano Terzani 2010-02-17 Warned by a Hong Kong fortune-teller not to risk flying for a whole year, Tiziano Terzani – a vastly experienced Asia correspondent – took what he called “the first step into an unknown world. . . . It turned out to be one of the most extraordinary years I have ever spent: I was marked for death, and instead I was reborn.” Traveling by foot, boat, bus, car, and train, he visited Burma, Thailand, Laos, Cambodia, Vietnam, China, Mongolia, Japan, Indonesia, Singapore, and Malaysia. Geography expanded under his feet. He consulted soothsayers, sorcerers, and shamans and received much advice – some wise, some otherwise – about his future. With time to think, he learned to understand, respect, and fear for older ways of life and beliefs now threatened by the crasser forms of Western modernity. He rediscovered a place he had been reporting on for decades. And it reinvigorated him. The result is an immensely engaging, insightful, and idiosyncratic journey, filled with unexpected delights and strange encounters. A bestseller and major prizewinner in Italy, *A Fortune-Teller Told Me* is a

powerful warning against the new missionaries of materialism.

Neo-Baroque Omar Calabrese 2017-03-14 A leading young Italian semiologist scrutinizes today's cultural phenomena and finds the prevailing taste to be "neo-baroque"--characterized by an appetite for virtuosity, frantic rhythms, instability, poly-dimensionality, and change. Omar Calabrese locates a "sign of the times" in an amazing variety of literary, philosophical, artistic, musical, and architectural forms, from the Venice Biennale through the "new science" to television series, video games, and "zapping" with the remote control device from channel to channel! Calabrese admits that he begins the book with a refusal to distinguish between "Donald Duck and Dante." Avoiding hierarchies or ghettos among works, he takes his readers on a fast-paced expedition through contemporary culture that closes with an elegant essay on evaluation and classical form. According to Calabrese, the enormous quantity of narrative now being produced has led to a new situation: everything has already been said, and everything has already been written. The only way of avoiding saturation has been to turn to a poetics of repetition. The author shows that pleasure in texts is now produced by tiny variations, and a certain kind of citation from other works has taken on a central importance that would have been unthinkable only a few years ago. In describing this development, and others shared by both avant-garde and mass media, he makes us aware of the rapid shrinkage in the once ample space between "highbrow" and "lowbrow." Jesus of Nazareth: Holy Week Pope Benedict XVI 2017-08-05 For Christians, Jesus of Nazareth is the Son of God, who died for the sins of the world, and who rose from the dead in triumph over sin and death. For non-Christians, he is almost anything else--a myth, a political revolutionary, a prophet whose teaching was misunderstood or distorted by his followers. Jesus of Nazareth is the Son of God, and no myth, revolutionary, or misunderstood prophet, insists Benedict XVI. He thinks that the best of historical scholarship, while it can't "prove" Jesus is the Son of God, certainly doesn't disprove it. Indeed, Benedict maintains that the evidence, fairly considered, brings us face-to-face with the challenge of Jesus--a real man who taught and acted in ways that were tantamount to claims of divine authority, claims not easily dismissed as lunacy or deception. Benedict XVI presents this challenge in his new book, *Jesus of Nazareth: Holy Week: From the Entrance into Jerusalem to the Resurrection*, the sequel volume to *Jesus of Nazareth: From the Baptism in the Jordan to the Transfiguration*. Why was Jesus rejected by the religious leaders of his day? Who was responsible for his death? Did he establish a Church to carry on his work? How did Jesus view his suffering and death? How should we? And, most importantly, did Jesus really rise from the dead and what does his resurrection mean? The story of Jesus raises many crucial questions. Benedict brings to his study the vast learning of a brilliant scholar, the passionate searching of a great mind, and the deep compassion of a pastor's heart. In the end, he dares readers to grapple with the meaning of Jesus' life, teaching, death, and resurrection. "Only in this second volume do we encounter the decisive sayings and events of Jesus' life . . . I hope that I have been granted an insight into the figure of Our Lord that can be helpful to all readers who seek to encounter Jesus and to believe in Him." -Pope Benedict XVI

Lorenzo De' Medici Lorenzo de' Medici 1991 This is the first book-length collection in English of the literary works of Lorenzo de' Medici, the major poetic voice of the Florentine Resistance. Lorenzo de' Medici (1449-92) was the ruler of Florence and the principal statesman of his time. A contemporary of Columbus, Lorenzo is hardly known in the English-speaking world as a major Quattrocento writer, author

of a large and varied body of poetry as well as an important literary treatise. His poetry and patronage were instrumental in renewing the vernacular literature of his age after a period of stagnation. That Lorenzo's literary writings were for the most part never translated is a fascinating curiosity of history, attributable to the irreverent, bawdy subject matter of many of his poems, objections to his authoritarian politics, and the unconventional features of his poetic realism. Yet Lorenzo is now seen as the most interesting exponent of the cultural renaissance that he encouraged. His longer poems in particular reveal the central concerns, everyday activities, and favorite ideas of his day. No other Florentine writer succeeds in capturing as he does the beauty, seasonal changes, and rhythms of life of the Tuscan countryside. His poetic realism is that which sets him apart from his age, yet makes him such a vivid portrayer of it. The availability of his works in English will serve to modify and enlarge our conception of the Florentine Renaissance.

Black Water Louise Doughty 2016-09-13 From the author of *Apple Tree Yard*, a masterful thriller about espionage, love, and redemption John Harper is in hiding in a remote hut on a tropical island. As he lies awake at night, listening to the rain on the roof, he believes his life may be in danger. But he is less afraid of what is going to happen than of what he's already done. In a local town, he meets Rita, a woman with her own tragic history. They begin an affair, but can they offer each other redemption? Or do the ghosts of the past always catch up with us in the end? Moving between Europe during the Cold War, Civil Rights-era California, and Indonesia during the massacres of 1965 and the subsequent military dictatorship, *Black Water* explores some of the darkest events of recent history through the story of one troubled man. In this gripping follow-up to *Apple Tree Yard*, Louise Doughty writes with the intelligence, vivid characterization, and moral ambiguity that make her fiction resonate in the reader's mind long after the final page.

The Undivine Comedy Teodolinda Barolini 1992-10-30 Accepting Dante's prophetic truth claims on their own terms, Teodolinda Barolini proposes a "detheologized" reading as a global new approach to the *Divine Comedy*. Not aimed at excising theological concerns from Dante, this approach instead attempts to break out of the hermeneutic guidelines that Dante structured into his poem and that have resulted in theologized readings whose outcomes have been overdetermined by the poet. By detheologizing, the

reader can emerge from this poet's hall of mirrors and discover the narrative techniques that enabled Dante to forge a true fiction. Foregrounding the formal exigencies that Dante masked as ideology, Barolini moves from the problems of beginning to those of closure, focusing always on the narrative journey. Her investigation--which treats such topics as the visionary and the poet, the One and the many, narrative and time--reveals some of the transgressive paths trodden by a master of mimesis, some of the ways in which Dante's poetic adventuring is indeed, according to his own lights, Ulyssean.

The Bingo Theory Mimi Ikonn 2016 The Bingo Theory unites us all. Men are not from Mars and Women are not from Venus. We are all from Planet Earth. Asian Children's Literature and Film in a Global Age Bernard Wilson 2020-03-06 This volume provides a key analysis of Asian children's literature and film and creates a dialogue between East and West and between the cultures from which they emerge, within the complex symbiosis of their local, national and transnational frameworks. In terms of location and content the book embraces a broad scope, including contributions related to the Asian-American diaspora, China, India, Indonesia, Iran, Japan, Malaysia, the Philippines, South Korea, Sri Lanka, and Taiwan. Individually and collectively, these essays broach crucial questions: What elements of Asian literature and film make them distinctive, both within their own specific culture and within the broader Asian area? What aspects link them to these genres in other parts of the world? How have they represented and shaped the societies and cultures they inhabit? What moral codes do they address, underpin, or contest? The volume provides further voice to the increasingly diverse and fascinating output of the region and emphasises the importance of Asian art forms as depictions of specific cultures but also of their connection to broader themes in children's texts, and scholarship within this field.

I Dreamed of Africa Kuki Gallmann 2012-03-29 'Often, at the hour of day when the savannah grass is streaked with silver, and pale gold rims the silhouettes of the hills, I drive with my dogs up to the Mukutan, to watch the sun setting behind the lake, and the evening shadows settle over the valleys and plains of the Laikipia plateau.' Kuki Gallmann's haunting memoir of bringing up a family in Kenya in the 1970s first with her husband Paulo, and then alone, is part elegaic celebration, part tragedy, and part love letter to the magical spirit of Africa.

Forces of Reproduction Stefania Barca 2020-11-26 The concept of Anthropocene has been incorporated within a hegemonic narrative that represents 'Man' as the dominant geological force of our epoch, emphasizing the destruction and salvation power of industrial technologies. This Element will develop a counter-hegemonic narrative based on the perspective of earthcare labour – or the 'forces of reproduction'. It brings to the fore the historical agency of reproductive and subsistence workers as those subjects that, through both daily practices and organized political action, take care of the biophysical conditions for human reproduction, thus keeping the world alive. Adopting a narrative justice approach, and placing feminist political ecology right at the core of its critique of the Anthropocene storyline, this Element offers a novel and timely contribution to the environmental humanities.

Writing Beyond Pen and Parchment Ricarda Wagner 2019-10-21 What can stories of magical engraved rings or prophetic inscriptions on walls tell us about how writing was perceived before print transformed

the world? Writing beyond Pen and Parchment introduces readers to a Middle Ages where writing is not confined to manuscripts but is inscribed in the broader material world, in textiles and tombs, on weapons or human skin. Drawing on the work done at the Collaborative Research Centre “Material Text Cultures,” (SFB 933) this volume presents a comparative overview of how and where text-bearing artefacts appear in medieval German, Old Norse, British, French, Italian and Iberian literary traditions, and also traces the paths inscribed objects chart across multiple linguistic and cultural traditions. The volume’s focus on the raw materials and practices that shaped artefacts both mundane or fantastical in medieval narratives offers a fresh perspective on the medieval world that takes seriously the vibrancy of matter as a vital aspect of textual culture often overlooked.

21 Rituals to Change Your Life Theresa Cheung 2017-03-14 Aristotle said 'you are what you repeatedly do'. Most of us have no idea that what we repeatedly do creates our lives, we think our future is shaped by big events, the decisions we make, the thoughts we have but, this book will show you that it is your daily actions that are the key. Over the last few decades neuroscientists and psychologists have discovered that there is more power in 'I do' than 'I think'. However, if an action is repeated enough times it becomes habit but habits lack thought, consideration and presence. To effect long-lasting meaningful change our actions need to be filled with a sense of personal meaning and power – they need to be ritualized. Creating personal ritual in our lives allows us to bring the presence of the sacred into the everyday. The rituals in this book have been designed as symbolic acts providing a framework for anyone to use to create positive change in their lives. The 7 morning rituals are designed to help you 'wake with determination', the 7 afternoon rituals focus on 'living on purpose', and the 7 evening rituals are about 'retiring with satisfaction'.

Reassembling the Social Bruno Latour 2007-09-06 *Reassembling the Social* is a fundamental challenge from one of the world's leading social theorists to how we understand society and the 'social'. Bruno Latour's contention is that the word 'social', as used by Social Scientists, has become laden with assumptions to the point where it has become misnomer. When the adjective is applied to a phenomenon, it is used to indicate a stabilized state of affairs, a bundle of ties that in due course may be used to account for another phenomenon. But Latour also finds the word used as if it described a type of material, in a comparable way to an adjective such as 'wooden' or 'steely'. Rather than simply indicating what is already assembled together, it is now used in a way that makes assumptions about the nature of what is assembled. It has become a word that designates two distinct things: a process of assembling; and a type of material, distinct from others. Latour shows why 'the social' cannot be thought of as a kind of material or domain, and disputes attempts to provide a 'social explanations' of other states of affairs. While these attempts have been productive (and probably necessary) in the past, the very success of the social

sciences mean that they are largely no longer so. At the present stage it is no longer possible to inspect the precise constituents entering the social domain. Latour returns to the original meaning of 'the social' to redefine the notion, and allow it to trace connections again. It will then be possible to resume the traditional goal of the social sciences, but using more refined tools. Drawing on his extensive work examining the 'assemblages' of nature, Latour finds it necessary to scrutinize thoroughly the exact content of what is assembled under the umbrella of Society. This approach, a 'sociology of associations', has become known as Actor-Network-Theory, and this book is an essential introduction both for those seeking to understand Actor-Network Theory, or the ideas of one of its most influential proponents.
