Schubert's Workshop: Volume 1 Brian Newbould 2022-09-30 Schubert's Workshop offers a fresh study of the composer's compositional technique and its development, rooted in the author's experience of realising performing versions of Franz Schubert's unfinished works. Through close examination of Schubert's use of technical and structural devices, Brian Newbould demonstrates that Schubert was much more technically innovative than has been supposed, and argues that the composer's technical discoveries constitute a rich legacy of specific influences on later composers. Providing rich new insights into the creative practice of one of the major figures of classical music, this two-volume study reframes our understanding of Schubert as an innovator who constantly pushed at the frontiers of style and expression.

Piano concertos nos. 20, 21, and 22 Wolfgang Amadeus Mozart 1995-01-01 The three piano concertos contained in this volume were all composed in 1785, when Mozart was 29. High points of one of the most amazingly productive and creatively brilliant periods in the composer's life, yet they are masterworks of very different character: No. 20 (K466 in D Minor), a work of intensity, passion, and spiritual conflict; No. 21 (K467 in C Major), with its luminous, world-famous "Andante, " a work of calm and majesty; and No. 22 (K482 in E-flat Major), music of grace and maturity, said to have "realized the century's ideal whilst yet casting aside the shackles of fashion." These three works are presented here in authoritative two-piano playing editions edited by Franz Kullak and Hans Bischoff, two of the nineteenth century's leading piano editors and teachers of pianists. Their classic format for two keyboards is the universal standard, for students and professionals alike, for learning and rehearsing all piano concertos. It gives the pianist the most accessible form and practical means to prepare a work for performance. To this practicality Dover adds the convenience and economy of compiling three major concertos within a single volume.
