**Electrified Sheep** Alex Boese 2012-06-05 "Perfect summertime reading—preferably with a friend nearby who can be constantly interrupted with unsettling facts." —Daily Mail (UK ) Benjamin Franklin was a pioneering scientist, leader of the Enlightenment, and a founding father of the United States. But perhaps less well known is that he was also the first person to use mouth-to-mouth resuscitation on an electric-shock victim. Odder still, it was actually mouth-to-beak resuscitation on a hen that he himself had shocked. Welcome to some of the weirdest and most wonderful experiments ever conducted in the name of

science. Filled with stories of science gone strange, Electrified Sheep is packed with eccentric characters, irrational obsessions, and extreme experiments. Watch as scientists attempt to nuke the moon, wince at the doctor who performs a self-appendectomy, and catch the faint whiff of singed wool from an electrified sheep.

**Grant Moves South** Bruce Catton 2015-11-03 A Pulitzer Prize-winning historian looks at the complex, controversial Union commander who ensured the Confederacy's downfall in the Civil War. In this New York Times bestseller, preeminent Civil War historian Bruce Catton narrows his focus on commander Ulysses S. Grant, whose bold tactics and relentless dedication to the Union ultimately ensured a Northern victory in the nation's bloodiest conflict. While a succession of Union generals—from McClellan to Burnside to Hooker to Meade—were losing battles and sacrificing troops due to ego, egregious errors, and incompetence, an unassuming Federal Army commander was excelling in the Western theater of operations. Though unskilled in military power politics and disregarded by his peers, Colonel Grant, commander of the Twenty-First Illinois Volunteer Infantry, was proving to be an unstoppable force. He won victory after victory at Belmont, Fort Henry, and Fort Donelson, while brilliantly avoiding near-catastrophe and ultimately triumphing at Shiloh. And Grant's bold maneuvers at Vicksburg would cost the Confederacy its invaluable lifeline: the Mississippi River. But destiny and President Lincoln had even loftier plans for Grant, placing nothing less than the future of an entire nation in the capable hands of the North's most valuable military leader. Based in large part on military communiqués, personal eyewitness accounts, and Grant's own writings, Catton's extraordinary history offers readers an insightful look at arguably the most innovative Civil War battlefield strategist, unmatched by even the South's legendary Robert E. Lee.

*De Regimine Principum* Stephen Baron 1990 This is the first modern edition of a Latin treatise published in London and in Paris between 1509 and 1520. The author once held the title of confessor to Henry VIII of England, imaginably the most obstreperous of penitents. Stephen Baron, a Franciscan living at Cambridge, advises Henry VIII on how to be a wise Christian king. Using a triadic structure reminiscent of Dante, he reviews the vices which beset a prince, the virtues he should practise, and the burdens which pertain to his exalted office. Though rooted in the Scholastic tradition, he is touched by the Erasmian elegances of early Tudor humanism. The editor provides an introduction, an English translation facing the original, and an extensive commentary. A preface and an epilogue set the work in the context of political thought through parallels with Thomas More.

**Woodstock Census** Rex Weiner 1980

The Dreyfus Affair Émile Zola 1998-01-01 Living novelist, Emile Zola. This book is the first to provide, in English translation, the full extent of Zola's writings on the Dreyfus Affair. It represents, in its polemical entirety, a classic defence of human rights and a searing denunciation of fanaticism and prejudice. Zola's texts constitute a unique and outstandingly eloquent primary source that is essential for a complete understanding of the Dreyfus Affair. They shed brilliant new light on the official mind.

**Lost Downtown** Peter Hugar 2016-02 It's a vanished world, and Peter Hugar was right there in it. The Lower East Side between 1972 and 1985 -- filled with artists, wannabe artists and hangers-on -- was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks,

museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hujar's camera -- and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz.

**Roald Dahl** Jeremy Treglown 2016-06-28 A New York Times Notable Book: A revealing look at the famous twentieth-century children's author who brought us *The BFG* and *Charlie and the Chocolate Factory*. Few writers have had the enduring cultural influence of Roald Dahl, who inspired generations of loyal readers. Acclaimed biographer Jeremy Treglown cuts no corners in humanizing this longstanding immortal of juvenile fiction. Roald Dahl explores this master of children's literature from childhood—focusing a tight lens on the relationship between Dahl and his mother, who lovingly referred to him as “Apple”—through to his death. Treglown deftly navigates Dahl's time as a fighter pilot in the Royal Air Force, exploring how the experience transformed many of the beliefs that influenced the English writer's work, including *The Gremlins*, which was commissioned by Walt Disney. A former editor of the *Times Literary Supplement*, Treglown discusses many of Dahl's most famous works, such as *James and the Giant Peach* and *Fantastic Mr. Fox*, while also delving into his marriage to actress Patricia Neal, combing through letters and archives to show a man who could be both comic and vitriolic, thoughtful yet manipulative and

irascible. Treglown highlights many of Dahl's literary achievements as well as his breakdowns and shortcomings, presenting a very personal and telling picture of the author and the inner turmoil that crippled him. Separating the man from the myth, Treglown's frank, intimate portrait of Dahl illuminates the contradictions within the mind of this beloved author, a man who could be both a monster and a hero. It is required reading for book lovers and film buffs alike.

The Stoa of Attalos II in Athens Homer A. Thompson 1992 Named after its donor, the King of Pergamon, the Stoa of Attalos was originally built around 150 B.C. Between 1953 and 1956 this long, columned, marble building was rebuilt by the American School of Classical Studies to store and display finds from the Agora excavations. Using original materials and techniques, the modern builders learned much about the construction and purpose of the stoa, a ubiquitous classical building type. This heavily illustrated account presents some of their findings.
