Contes choisis Jacob Grimm 2000 Les frères Grimm ont rassemblé et publié des contes populaires dont la tradition vivait encore à leur époque dans les pays allemands. Ils ont ainsi fait entrer dans la littérature et dans l'histoire de la pensée ces petits chefs-d'œuvre. On en trouvera ici les principaux : Cendrillon, La Belle au Bois Dormant, Blancheneige, L'oiseau d'or et quinze

autres. Ces récits décrivent un passage, gêné par mille obstacles, mais qui s'accomplit heureusement à la fin ; ils expriment la nécessité pour l'individu d'évoluer d'un état à un autre, d'un âge à un autre, et de se former à travers des métamorphoses douloureuses, qui ne prennent fin qu'avec son accession à une vraie maturité. Aller de l'enfance à l'état d'homme est une épreuve qui ne peut être surmontée sans une initiation. La fée aide le héros perdu à sortir de l'égaré. Le conte donne ainsi aux enfants, et aux autres, une image d'eux-mêmes, de leur famille, de leurs parents : le merveilleux est dans le quotidien.

Contes choisis Hans Christian Andersen 2010 " Je donnerais les trois cents années que j'ai à vivre pour être personne humaine un seul jour. " Une sirène prête aux plus grands sacrifices pour vivre parmi les hommes, un soldat de plomb amoureux d'une danseuse de papier, un sapin qui voudrait voyager... Les héros des contes d'Andersen portent tous en eux le même rêve : trouver leur place dans le monde et être aimés. Mais le courage et l'obstination peuvent-ils triompher des lois du destin ?

A Genealogy of Manners Jorge Ardití 1998-12 Remarkable for its scope and erudition, Jorge Ardití's new study offers a fascinating history of mores from the High Middle Ages to the Enlightenment. Drawing on the pioneering ideas of Norbert Elias, Michel Foucault, and Pierre Bourdieu, Ardití examines the relationship between power and social practices and traces how power changes over time. Analyzing courtesy manuals and etiquette books from the thirteenth to the eighteenth century, Ardití shows how the dominant classes of a society were able to create a system of social relations and put it into operation. The result was an infrastructure in which these classes could successfully exert power. He explores how the ecclesiastical authorities of the Middle Ages, the monarchies from the fifteenth through the seventeenth century, and the aristocracies during the early stages of modernity all forged their own codes of manners within the confines of another, dominant order. Ardití goes on to describe how each of these different groups, through the sustained deployment of their own forms of relating with one another, gradually moved into a position of dominance.

Contes choisis Charles Perrault 2009 " Hélas ! mes pauvres enfants, où êtes-vous venus ? Savez-vous bien que c'est ici la maison d'un Ogre qui mange les petits enfants ? " Cruels et drôles, les contes de Perrault nous parlent des dangers qui guettent petits et grands sur le chemin de la vie. Comment échapper au loup ? Les fées décident-elles seules de notre destin ? Le courage et l'ingéniosité suffisent-ils pour atteindre le bonheur ?
