Alienated America Timothy P. Carney 2019-02-19 Now a Washington Post bestseller. Respected conservative journalist and commentator Timothy P. Carney continues the conversation begun with *Hillbilly Elegy* and the classic *Bowling Alone* in this hard-hitting analysis that identifies the true factor behind the decline of the American dream: it is not purely the result of economics as the left claims, but the collapse of the institutions that made us successful, including marriage, church, and civic life. During the 2016 presidential campaign, Donald J. Trump proclaimed, “the American dream is dead,” and this message resonated across the country. Why do so many people believe that the American dream is no longer within reach? Growing inequality, stubborn pockets of immobility, rising rates of deadly addiction, the increasing and troubling fact that where you start determines where you end up, heightening political strife—these are the disturbing realities threatening ordinary American lives today. The standard accounts pointed to economic problems among the working class, but the root was a cultural collapse: While the educated and wealthy elites still enjoy strong communities, most blue-collar Americans lack strong communities and institutions that bind them to their neighbors. And outside of the elites, the central American institution has been religion That is, it’s not the factory closings that have torn us apart; it’s the church closings. The dissolution of our most cherished institutions—nuclear families, places of worship, civic organizations—has not only divided us, but eroded our sense of worth, belief in opportunity, and connection to one another. In *Abandoned America*, Carney visits all corners of America, from the dim country bars of Southwestern Pennsylvania., to the bustling Mormon wards of Salt Lake City, and explains the most important data and research to demonstrate how the social connection is the great divide in America. He shows that Trump’s surprising victory was the most visible symptom of this deep-seated problem. In addition to his detailed exploration of how a range of societal changes have, in tandem, damaged us, Carney provides a framework that will lead us back out of a lonely, modern wilderness.

In addition, you may need a CourseID, provided by your

instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Brooks uses a tools-based approach that presents the key concepts of finance (or "tools") early on in the text, followed by an application of those concepts to various finance problems. By introducing key finance concepts with personal and business-related finance examples, this text helps readers understand how the tools of finance can help them in any career or business situation. This edition features strengthened material on financial statements, a discussion on yield curves, new and advanced spreadsheet problems, and updated material.

**Business for Communicators** Sandra Duhé 2021-09-29 Business for Communicators provides future and current professional communicators with a hands-on, working knowledge of how businesses profit, grow, and adapt in their competitive environments. Corporate communicators aspire to sit at the decision-making table but too often fall short because of an inability to speak the language of business or effectively apply a business mindset to communication strategy. Business for Communicators provides the in-depth business literacy these professionals need, beyond just building the case for business intelligence or explaining business basics. The text delves into the details of corporate finance, accounting, marketing, strategy, operations, and economics to provide a theoretical grounding and a working knowledge that business communicators can apply to every decision they make. Real world applications illustrate concepts covered, focus on the communication implications of business outcomes, and provide opportunities for extended learning and discussion. This book is an essential resource for advanced undergraduate and graduate students, as well as professional corporate communicators ready to enhance their influence and advance their careers with business acumen. An accompanying website, blog, email, and social media platforms provide additional resources, interaction, commentary, and responses to questions from educators and practitioners, as well as teaching materials for educators, at [www.thecomcommunicatorsmba.com](http://www.thecomcommunicatorsmba.com).

20 years, the number of professional managers displaced from US corporate jobs has increased dramatically. This has coincided with the rapid expansion of employment in the US nonprofit sector; a sector that has a high proportion of managerial and professional workers among its employees. *Workforce Transitions from the Profit to the Nonprofit Sector* examines the career sequences of dislocated white-collar corporate managers who want to move to the nonprofit sector. It highlights the managers' motivations, the structural barriers which prevented them from making the transition, and the methods of penetrating the barriers. It uncovers the reasons why some corporate managers are able to make the transition and why others do not. Finally, it presents the methods of adaptation that were utilized in their new environments. This volume will be of interest to human resource managers in the profit and nonprofit sectors, sociologists, occupational researchers, and organizational psychologists.

**Corporate Finance** Ivo Welch 2008-09 *Corporate Finance: An Introduction* presents core principles of corporate finance within a unique organizational structure that builds from perfect to imperfect markets. *How I Invest My Money* Brian Portnoy 2020-11-17 The world of investing normally sees experts telling us the 'right' way to manage our money. How often do these experts pull back the curtain and tell us how they invest their own money? Never. *How I Invest My Money* changes that. In this unprecedented collection, 25 financial experts share how they navigate markets with their own capital. In this honest rendering of how they invest, save, spend, give, and borrow, this group of portfolio managers, financial advisors, venture capitalists and other experts detail the 'how' and the 'why' of their investments. They share stories about their childhood, their families, the struggles they face and the aspirations they hold. Sometimes raw, always revealing, these stories detail the indelible relationship between our money and our values. Taken as a whole, these essays powerfully demonstrate that there is no single 'right' way to save, spend, and invest. We see a kaleidoscope of perspectives on stocks, bonds, real assets, funds, charity, and other means of achieving the life one desires. With engaging illustrations throughout by Carl Richards, *How I Invest My Money* inspires readers to think creatively about their financial decisions and how money figures in the broader quest for a contented life. With contributions from: Morgan Housel, Christine Benz, Brian Portnoy, Joshua Brown, Bob Seawright, Carolyn McClanahan, Tyrone Ross, Dasarte Yarnway, Nina O'Neal, Debbie Freeman, Shirl Penney, Ted Seides, Ashby Daniels, Blair duQuesnay, Leighann Miko, Perth Tolle, Josh Rogers, Jenny Harrington, Mike Underhill, Dan Egan, Howard Lindzon, Ryan Krueger, Lazetta Rainey Braxton, Rita Cheng, Alex Chalekian

**Ten Years to Midnight** Blair H. Sheppard 2020-08-04 "Shows how humans have brought us to the brink and how humanity can find solutions. I urge people to read with humility and the daring to act." —Harpal Singh, former Chair, Save the Children, India, and former Vice Chair, Save the Children International In conversations with people all over the world, from government officials and business leaders to taxi drivers and schoolteachers, Blair Sheppard, global leader for strategy and leadership at PwC, discovered they all had surprisingly similar concerns. In this prescient and pragmatic book, he and his team sum up these concerns in what they call the ADAPT framework: Asymmetry of wealth; Disruption wrought by the unexpected and often problematic consequences of technology; Age disparities--stresses caused by very young or very old populations in developed and emerging countries; Polarization as a symptom of the breakdown in global and national consensus; and loss of Trust in the institutions that underpin and stabilize society. These concerns are in turn precipitating four crises: a crisis of prosperity, a crisis of technology, a crisis of institutional legitimacy, and a crisis of leadership. Sheppard and his team analyze the complex roots of these crises--but they also offer solutions, albeit often seemingly counterintuitive ones. For example, in an era of globalization, we need to place a much greater emphasis on developing self-sustaining local economies. And as technology permeates our lives, we need computer scientists and engineers conversant with sociology and psychology and poets who can code. The authors argue persuasively that we have only a decade to make headway on these problems. But if we tackle them now, thoughtfully, imaginatively, creatively, and energetically, in ten years we could be looking at a dawn instead of darkness.
