The Wonder Down Under Nina Brochmann 2018-03-06 A joyful and indispensable guide filled with astonishing, important, and little-known information about the vagina that will equip a new generation to make informed choices about their sexual health and happiness. The Wonder Down Under is a comprehensive guide to a miraculous and complex part of the body that too few of us (regardless of gender) are all that familiar with--the vagina. With wisdom, humor, and scientific aplomb, medical student Ellen Støkken Dahl and Dr. Nina Brochmann take readers on a fascinating journey of female sexual organs and sexual health--from the clitoris to contraception to cervical cancer. More than a user's manual, this book is the funny, frank tribute to the vagina that we have been waiting for. The Wonder Down Under is filled with astonishing, essential, and little-known information--relayed with both medical expertise and genuine empathy. Did you know, for instance, that female and male sex organs are merely variations on the same basic structure? Or that there's no such thing as a virginity test--because examining the hymen cannot meaningfully

indicate whether or not someone's had sex? Brochmann and Dahl have written a tour-de-force about the biology, anatomy, and reality of the female body, examining the many ways in which widespread misinformation and silence about the vagina have been harmful to women over time. *The Wonder Down Under* makes crucial contributions to the discussion: the book was an instant bestseller that sold out in its native Norway in just three days. Since then it has been acquired by publishers in more than two dozen countries around the world. *The Wonder Down Under* is a joyful and indispensable book that will educate readers of all kinds and equip a new generation to make informed choices about their sexual well-being.

The Almond Tree Michelle Cohen Corasanti 2022-07-01 Gifted with a mind that continues to impress the elders in his village, Ichmad Hamid struggles with knowing that he can do nothing to save his friends and family. Living on occupied land, his entire village operates in fear of losing their homes, jobs, and belongings. But more importantly, they fear losing each other. On Ichmad's twelfth birthday, that fear becomes reality. With his father imprisoned, his family's home and possessions confiscated, and his siblings quickly succumbing to hatred in the face of conflict, Ichmad begins an inspiring journey using his intellect to save his poor and dying family. In doing so he reclaims a love for others that was lost through a childhood rife with violence and loss, and discovers a new hope for the future. Reminiscent of *The Kite Runner* and *One Thousand Splendid Suns*, this is an uplifting read, which conveys a message of optimism and hope.

Breaking Dawn Stephenie Meyer 2008-08-02 In the explosive finale to the epic romantic saga, Bella has one final choice to make. Should she stay mortal and strengthen her connection to the werewolves, or leave it all behind to become a vampire? When you loved the one who was killing you, it left you no options. How could you run, how could you fight, when doing so would hurt that beloved one? If your life was all you had to give, how could you not give it? If it was someone you truly loved? To be irrevocably in love with a vampire is both fantasy and nightmare woven into a dangerously heightened reality for Bella Swan. Pulled in one direction by her intense passion for Edward Cullen, and in another by her profound connection to werewolf Jacob Black, a tumultuous year of temptation, loss, and strife have led her to the ultimate turning point. Her imminent choice to either join the dark but seductive world of immortals or to pursue a fully human life has become the thread from which the fates of two tribes hangs. This astonishing, breathlessly anticipated conclusion to the Twilight Saga illuminates the secrets and mysteries of this spellbinding romantic epic. It's here! #1 bestselling author Stephenie Meyer makes a triumphant return to the world of Twilight with the highly anticipated companion, *Midnight Sun*: the iconic love story of Bella and Edward told from the vampire's point of view. Sulla soglia Ida Basile 2019-06-25 Il saggio affronta le tematiche dell'identità e dell'accettazione di sé all'interno della cornice storica e sociale dell'antica Grecia. Gli strumenti educativi utilizzati dai Greci per preparare i giovani al loro futuro ruolo attivo di cittadini nella polis e alle tappe fondamentali che scandiscono una vita segnata dalla finitezza sono i miti. L'autrice ha individuato una nuova categoria mitica, quella dei miti di "non passaggio": esempi di come il cattivo comportamento del singolo sia portatore di vendetta divina non solo ai suoi danni, ma a lungo andare anche ai danni della società in cui vive. All'interno di questi particolari miti non si troveranno quindi imprese eroiche, anzi: i protagonisti sono empi che, negando il corso naturale degli eventi e dell'esistenza, cercano di emulare l'eternità di figure immutabili come gli dei e, per questo, verranno puniti. Dalla quarta di copertina: Adone, Ippolito, Atalanta, Orfeo. Cos'hanno in comune questi protagonisti di miti dell'antica Grecia? Sono incompiuti, sono uomini e donne che si rifiutano di accettare le tappe della vita. Ida Basile ne studia le storie, segnate dall'incapacità di oltrepassare un dato limen, e crea una nuova categoria: i miti di "non passaggio".

Cosa succede nella pubertà? Mariela Castro Espín 2020-09-02 NON DISPONIBILE PER KINDLE E-INK, PAPERWHITE, OASIS. La pubertà è uno dei momenti più delicati e importanti della vita. Un periodo in cui tutto si trasforma: il proprio corpo, i rapporti con gli amici e all'interno della famiglia. Seppur bombardati dai media con messaggi allusivi, ragazze e ragazzi spesso hanno conoscenze vaghe e approssimative sui cambiamenti che annunciano l'arrivo della pubertà. Si parla molto di educazione sessuale, ma troppo spesso i ragazzi devono arrangiarsi da soli, basandosi di frequente sul passaparola tra coetanei. Questo libro si propone come una guida per chiarire dubbi e curiosità senza falsi pudori, con un linguaggio chiaro e sincero.

Contraccezione, gravidanza, aborto Pierrette Bello 1985 Quali sono i rischi nell'uso prolungato della "pillola"? Che cosa succede all'organismo (femminile e maschile) quando si entra nella pubertà? Come vivere la maternità? Come e dove si effettua l'interruzione volontaria della gravidanza? Quali sono e come si usano i metodi di contraccezione? Come è possibile prevenire e curare le malattie veneree? Sono questi alcuni dei problemi che ciascuno di noi, donna o uomo, giunge prima o poi a porsi. Concepito per rispondere alle esigenze di un vasto pubblico, scritto con un linguaggio estremamente semplice ed accessibile a tutti, con un testo spesso elaborato sotto forma di domanda/risposta, corredato da un'ampia serie di illustrazioni esemplificative e da indirizzi utili, il volume vuol essere una "guida pratica" (non un trattato teorico) per tutti, giovani e meno giovani, donne e uomini, a cui esporre in termini di immediata comprensione e di informazione di base delle questioni che spesso sono del tutto ignorate o che, peggio, si crede a torto di conoscere e di saper affrontare convenientemente. In appendice, un aggiornamento sulla situazione italiana a cura dell'AIED (Associazione Italiana per l'Educazione Demografica) e il testo completo della legge sull'interruzione volontaria della gravidanza e sulla tutela sociale della maternità. (Editore).

Red Moon M.a. Grant 2013-08-01 Dark, moving and original, a story of family, survival, and getting on with life... Flynn Sinclair understands pack loyalty – for years as his Alpha father's enforcer, he has done things in the name of duty that he can't ever forget. But the vast expanse of Alaska offers him a peace he's never known. Alone, removed from pack life, he can focus on his research and try to forget his life before. But duty has a way of inviting itself in, and Flynn finds himself doing two reckless things in one week: leaving the safety of Alaska to save his brother Connor's life, and unwittingly falling in love with Evie Thompson, a woman who doesn't deserve to be drawn into his terrifying world. Connor carries news of their father's descent into madness, and it looks like neither geography nor Flynn's attempts at disengagement will put off a confrontation. Flynn had finally begun to believe that he might deserve something good in his life – something like Evie – but to move forward in the light, he must first reconcile with the dark.
