Educational Trends Exposed David Armstrong 2021-12-31 Educational Trends Exposed explains and critically reviews eighteen of the most prevalent trends sweeping schools, colleges and universities over the last decade and beyond. Amid the buzz from news outlets, websites and social media peddling 'this works' approaches and 'quick fix' solutions, this book provides educators with a practical tool to help answer important questions such as: what does this trend actually involve? Is it worth the investment of time and resources? Does it work – what does research say? Do the claimed benefits to students outweigh any downsides? In this timely book, David Armstrong and Gill Armstrong cast a critical, expert eye over these trends, referencing the latest research and offering a framework for considering educational trends, empowering readers as informed critical consumers. They argue that trends disclose deeper truths about the state and direction of contemporary public education in Australia, England and the US and provide original, thought-provoking analysis. This book demonstrates that a greater understanding of trends can teach some important lessons, including how parents, teachers and educational decisions makers can

agitate and collaborate for a modernised and more socially equitable education system. Educational Trends Exposed is essential reading for pre- and in-service teachers, and all educational decision makers who are faced with a choice of which trend, if any, to follow.

The G20 Peter I. Hajnal 2019-01-24 This revised and updated edition presents detailed analysis of the history and current state of the G20, and the challenges it faces. The emergence of the G20 was the result of calls for full inclusion of major developing and other systemically important countries and to reflect new global economic and political realities. The growth of Chinese power, growing significance of other major developing countries and new concerns concerning anti-globalization and rising protectionism in the West have all resulted in important changes to the dynamics of the institution. The suspension of Russia's membership in the G8 has also necessitated a change in G7/G20 dynamics and the G20's processes, agenda priorities and role in global governance. Providing a historical overview and analysis of the evolving agenda, methods of performance evaluation, relationship with structured international organizations and other external actors, Hajnal's text is an authoritative work of history, analysis and reference on the G20 and also G7/G8/G20 reform. This book is an essential source for researchers and students focusing on the G20, international organizations and global governance, and more generally for scholars in the fields of political science, economics, and finance.

Reflections on Valuing Wellbeing in Higher Education Narelle Lemon 2022-08-29
This book focuses on the lived experiences of higher education professionals working in the face of stress, pressure and the threat of burnout and how acts of self-care and wellbeing can support, develop and maintain a sense of self. In considering the place of self-care in higher education, we are challenged with the tension that exists when it comes to the valuing of self-care and our individual and collective wellbeing. In *Reflections on Valuing Wellbeing in Higher Education*, authors present and explore the ways in which they manage and reframe their wellbeing and self-care, through mindfulness, compassion, connection to breath, reflection, demonstrating individual and collective embodiment and resistance to neoliberalism and environmental destruction. Covering various contexts of higher education, such as learning and teaching, research, leadership and engagement, this book offers practical strategies grounded in literature and evidence-based research. The self in self-care is relational. It is not just about self. We need others for inspiration, motivation and, indeed, the act. This book will be of great interest to professionals and researchers specifically interested in studies in higher education, wellbeing and/or identity as well as those navigating a career in higher education.
