La production du corps Maurice Godelier 1998 Jusqu'à quel point le corps fait-il l'identité d'un être humain ? Et pour combien de temps si quelque chose survit de lui, après sa mort, et qui n'est plus tout à fait son corps ? Dans toutes les cultures il semble que l'humanité, sous des formes diverses, fut amenée à se représenter l'être humain comme composé de deux parts: une part périssable et une part qui continue d'agir bien au-delà de la mort, même si elle n'est pas immortelle. Ces deux parts ne se réduisent pas nécessairement à "un" corps et "une" âme. Chez les Yanomami d'Amazonie tout individu a deux corps, son corps visible et un double animal, invisible, mais qui meurt quand l'autre meurt. Chez les Maenge de Nouvelle-Guinée l'individu a deux âmes, même s'il n'a qu'un seul corps. Comment comprendre ce qui est divisible et indivisible dans l'individu ? Et qui fabrique le corps des humains ? Suffit-il d'un homme et d'une femme, et quel est l'apport de chacun dans la composition d'un troisième ? Beaucoup de sociétés pensent qu'il faut plus de deux êtres humains pour faire un être humain. Il faut que l'esprit d'un ancêtre, ou l'action d'un dieu viennent sinon animer ce corps, du moins le rendre complet, l'achever. Chacun naît

donc, avec inscrit à l'intérieur de soi, formant comme une sorte d'intimité impersonnelle, un ensemble d'idées, d'images, de valeurs, par lesquelles s'impriment dans son corps l'ordre ou les désordres qui règnent dans sa société. Seize anthropologues et historiens ont exploré ces réalités culturelles dispersées dans l'espace et dans le temps.

The Occult War Emmanuel Malynski 2015-10-09 *The Occult War - The Judeo-Masonic Plan to Conquer the World* "Emmanuel Malynski spent thirty years of his life directly observing the development of the modern revolutionary movement around the world, devoting an almost visionary intelligence and clear-mindedness to this task. ...From our mutual collaboration this book has sprung, which explores the secret history of subversion, a terrifying history that has never been written before, but which is starting to come to light." - Leon de Poncins, from the Foreword "One of the great merits of this work is that it emphasises the metaphysical essence of the revolutionary movement, by showing how that which is being fought nowadays is not so much a political and social war as a religious one - a battle between two supra-national fronts more than one for the interests of individual nations, races, or parties; that what we are witnessing today, then, is a possibly decisive phase in the clash between two antagonistic worldviews, with more than simply human forces at work on both sides. Hence, this is not merely a book of rebuke and anti-Semitic or anti-Masonic polemic: rather it directly or indirectly offers the reader many cues to develop a positive, constructive, or re-constructive orientation focused on the essential rather than the accessory, and devoid of any attenuation." - Julius Evola, from the Introduction The original edition of this book was published in French in Paris in 1936. The Italian traditionalist philosopher Julius Evola translated

the book into Italian, and published it 1939, adding his own Introduction and an additional chapter after an agreement with de Poncins. This translation is based on both editions, including Evola's Introduction and chapter as well. Evola also made a number of interesting alterations to the text, occasionally adding, removing, or rewriting small parts of the French original. We have noted these changes in the footnotes, as they offer an insight into the different ways in which de Poncins and Evola approached the same issues. Included in this edition is also two appendices: Evola's essay 'Considerations on the Occult War', which is a 1938 essay on this topic; and a review of the French edition of the book that was published by the first traditionalist philosopher, Rene Guenon, in 1936."

The Homeric Hymn to Demeter Helene P. Foley 2013-07-31 The Homeric Hymn to Demeter, composed in the late seventh or early sixth century B.C.E., is a key to understanding the psychological and religious world of ancient Greek women. The poem tells how Hades, lord of the underworld, abducted the goddess Persephone and how her grieving mother, Demeter, the goddess of grain, forced the gods to allow Persephone to return to her for part of each year. Helene Foley presents the Greek text and an annotated translation of this poem, together with selected essays that give the reader a rich understanding of the

Hymn's structure and artistry, its role in the religious life of the ancient world, and its meaning for the modern world.

The Idea of the Labyrinth from Classical Antiquity through the Middle Ages Penelope Reed Doob 2019-03-15 Ancient and medieval labyrinths embody paradox, according to Penelope Reed Doob. Their structure allows a double perspective—the baffling, fragmented prospect confronting the maze-treader within, and the comprehensive vision available to those without. Mazes simultaneously assert order and chaos, artistry and confusion, articulated clarity and bewildering complexity, perfected pattern and hesitant process. In this handsomely illustrated book, Doob reconstructs from a variety of literary and visual sources the idea of the labyrinth from the classical period through the Middle Ages. Doob first examines several complementary traditions of the maze topos, showing how ancient historical and geographical writings generate metaphors in which the labyrinth signifies admirable complexity, while poetic texts tend to suggest that the labyrinth is a sign of moral duplicity. She then describes two common models of the labyrinth and explores their formal implications: the unicursal model, with no false turnings, found almost universally in the visual arts; and the multicursal model, with blind alleys and dead ends, characteristic of literary texts. This paradigmatic clash between the labyrinths of art and of literature becomes a key to the metaphorical potential of the maze, as Doob's examination of a vast array of materials from the classical period through the Middle Ages suggests. She concludes with linked readings of four "labyrinths of words": Virgil's *Aeneid*, Boethius' *Consolation of Philosophy*, Dante's *Divine Comedy*, and Chaucer's *House of Fame*, each of which plays with and transforms received ideas of the labyrinth as well as reflecting and responding to aspects of the texts that influenced it. Doob not only provides fresh theoretical and historical perspectives on the labyrinth tradition, but also portrays a complex medieval aesthetic that helps us to approach structurally elaborate early works. Readers in such fields as Classical literature, Medieval Studies, Renaissance Studies, comparative literature, literary theory, art history, and

intellectual history will welcome this wide-ranging and illuminating book.

The Star of Redemption Franz Rosenzweig 1985-08-31 The Star of Redemption is widely recognized as a key document of modern existential thought and a significant contribution to Jewish theology in the twentieth century. An affirmation of what Rosenzweig called “the new thinking,” the work ensconces common sense in the place of abstract, conceptual philosophizing and posits the validity of the concrete,

individual human being over that of “humanity” in general. Fusing philosophy and theology, it assigns both Judaism and Christianity distinct but equally important roles in the spiritual structure of the world, and finds in both biblical religions approaches toward a comprehension of reality.
