**Social, Cultural, and Behavioral Modeling** Robert Thomson 2020-10-10 This book constitutes the proceedings of the 13th International Conference on Social, Cultural, and Behavioral Modeling, SBP-BRiMS 2020, which was planned to take place in Washington, DC, USA. Due to the COVID-19 pandemic the conference was held online during October 18–21, 2020. The 33 full papers presented in this volume were carefully reviewed and selected from 66 submissions. A wide number of disciplines are represented including computer science, psychology, sociology, communication science, public health, bioinformatics, political science, and organizational science. Numerous types of computational methods are used, such as machine learning, language technology, social network analysis and visualization, agent-based simulation, and statistics.

*Canoe Nation* Bruce Erickson 2013-06-15 More than an ancient means of transportation and trade, the canoe has come to be a symbol of Canada itself. In *Canoe Nation*, Bruce Erickson argues that the canoe's sentimental power has come about through a set of narratives that attempt to legitimize a particular vision of Canada that overvalues the nation's connection to nature. From Alexander Mackenzie to Grey Owl to Pierre Elliott Trudeau, the canoe authenticates Canada's reputation as a tolerant, environmentalist nation, even when there is abundant evidence to the contrary. Ultimately, the stories we tell about the canoe need to be understood as moments in the ever-contested field of cultural politics.

Family Relationships Catherine A. Salmon 2008 'Family Relationships' brings together leading theorists and researchers from evolutionary psychology and related disciplines to illustrate the ways in which an evolutionary perspective can inform our study and understanding of family relationships.

*Dracula in Visual Media* John Edgar Browning 2014-01-10 This is a comprehensive sourcebook on the world's most famous vampire, with more than 700 citations of domestic and international *Dracula* films, television programs, documentaries, adult features, animated works, and video games, as well as nearly a thousand comic books and stage adaptations. While they vary in length, significance, quality, genre, moral character, country, and format, each of the cited works adopts some form of Bram Stoker's original creation, and *Dracula* himself, or a recognizable vampiric semblance of *Dracula*, appears in each. The book includes contributions from Dacre Stoker, David J. Skal, Laura Helen Marks, Dodd Alley, Mitch Frye, Ian Holt, Robert Eighteen-Bisang, and J. Gordon Melton.

True History of the Kelly Gang Peter Carey 2010-10-22 SOON TO BE A MAJOR MOTION PICTURE The international bestseller, Booker Prize winner, and winner of the 2001 Commonwealth Writers' Prize for Best Book. Out of 19th century Australia rides a hero of his people and a man for all nations: Ned Kelly, the son of poor Irish immigrants, viewed by the authorities as a thief (especially of horses) and, as a cold-blooded killer. To the people, though, he was a patriot hounded unfairly by rich English landlords and their stooges. In the end, Kelly and his so-called gang (his younger brother and two friends) led a massive police manhunt on a wild goose chase that lasted twenty months, in which Ned's talents as a bushman were augmented by bank robberies and the support of nearly everyone not in a uniform. His one demand – for which he would have surrendered himself was his jailed mother's freedom. Executed by hanging more than a century ago, speaking as if from the grave, Kelly still resonates as the most potent legend in the land down under.

**Natural Language Processing for Social Media** Atefeh Farzindar 2017-12-15 In recent years, online social networking has revolutionized interpersonal communication. The newer research on language analysis in social media has been increasingly focusing on the latter's impact on our daily lives, both on a personal and a professional level. Natural language processing (NLP) is one of the most promising avenues for social media data processing. It is a scientific challenge to develop powerful methods and algorithms which extract relevant information from a large volume of data coming from multiple sources and languages in various formats or in free form. We discuss the challenges in analyzing social media texts in contrast with traditional documents. Research methods in information extraction, automatic categorization and clustering, automatic summarization and indexing, and statistical machine translation need to be adapted to a new kind of data. This book reviews the current research on NLP tools and methods for processing the non-traditional information from social media data that is available in large amounts (big data), and shows how innovative NLP approaches can integrate appropriate linguistic information in various fields such as social media monitoring, healthcare, business intelligence, industry, marketing, and security and defence. We review the existing evaluation metrics for NLP and social media applications, and the new efforts in evaluation campaigns or shared tasks on new datasets collected from social media. Such tasks are organized by the Association for Computational Linguistics (such as SemEval tasks) or by the National Institute of Standards and Technology via the Text REtrieval Conference (TREC) and the Text Analysis Conference (TAC). In the concluding chapter, we discuss the importance of this dynamic discipline and its great potential for NLP in the coming decade, in the context of changes in mobile technology, cloud computing, virtual reality, and social networking. In this second edition, we have added information about recent progress in the tasks and applications presented in the first edition. We discuss new methods and their results. The number of research projects and publications that use social media data is constantly increasing due to continuously growing amounts of social media data and the need to automatically process them. We have added 85 new references to the more than 300 references from the first edition. Besides updating each section, we have added a new application (digital marketing) to the section on media monitoring and we have augmented the section on healthcare applications with an extended discussion of recent research on detecting signs of mental illness from social media.

**Terra 2008** Leslie Rainer 2011-06-14 Earthen architecture constitutes one of the most diverse forms of cultural heritage and one of the most challenging to preserve. It dates from all periods and is found on all continents but is particularly prevalent in Africa, where it has been a building tradition for centuries. Sites range from ancestral cities in Mali to the palaces of Abomey in Benin, from monuments and mosques in Iran and Buddhist temples on the Silk Road to Spanish missions in California. This volume's sixty-four papers address such themes as earthen architecture in Mali, the conservation of living sites, local knowledge systems and intangible aspects, seismic and other natural forces, the conservation and management of archaeological sites, research advances, and training.

**Through the Storm** Lynne Spears 2008 Speaking out for the first time, Spears offers a rarely glimpsed view of herself and her family--including celebrity daughters Britney and Jamie Lynn, son Bryan, and ex-husband Jamie. Candid and touching, the stories show the heart of a mother who struggles to keep faith through life's twists and turns.

**Asian America Through the Lens** Chün Hsing 1998 A guide to Asian identity in film explores the documentary as a medium for social history, the portrayal of Asian American women in movies, and criticism of marginal cinema

**The Culture of Hunting in Canada** Jean L. Manore 2011-11-01 The Culture of Hunting in Canada covers elements of the history of hunting from the pre-colonial period until the present in all parts of Canada and features essays by practitioners and scholars of hunting and by pro- and anti-hunting lobbyists. The result crosses the boundaries between scholarship and personal reflection, and between academia and advocacy. Topics include hunting identities; conservation and its relationship to hunting; tensions between hunters and non-hunters and between Aboriginal and non-Aboriginal hunting groups; hunting ethics; debates over hunting practices and regulations; animal rights; and gun control. This book makes an unprecedented contribution to the study of hunting

in Canada and its role in our culture.

**Global Brain** Howard Bloom 2000-08-14 Introduces the controversial theory of "group selection" in which all life on earth is portrayed as a macro-community of symbiotic organisms working together for the benefit of all. By the author of The Lucifer Principle.

**Grand Dictionnaire Universel [du XIXe Siecle] Francais: A-Z 1805-76** Pierre Larousse 1865

Aboriginal Peoples and Sport in Canada Janice Forsyth 2012-12-25 Aboriginal Peoples and Sport in Canada uses sport as a lens through which to examine issues such as individual and community health, gender and race relations, culture and colonialism, and self-determination and agency. In this groundbreaking volume, leading scholars offer a multidisciplinary perspective on how unequal power relations influence the ability of Aboriginal people in Canada to implement their own visions for sport. The diverse analyses illuminate how Aboriginal people employ sport as a venue through which to assert their cultural identities and find a positive space for themselves and upcoming generations in contemporary Canadian society.
