**WHO Monographs on Selected Medicinal Plants** World Health Organization 1999 This is the second volume in a series of monographs which are intended to promote information exchange and international harmonised standards for the quality control and use of herbal medicines. It contains scientific information on 30 selected plants, and each entry includes a pharmacopoeial summary for quality assurance purposes, information on its clinical application and sections on contraindications, pharmacology, safety issues, and dosage forms. It provides two cumulative indexes with entries in alphabetical order by plant name and according to the plant material of interest.

**Qualitative Research in Health Care** Catherine Pope 2020-02-03 Provides the essential information that health care researchers and health professionals need to understand the basics of qualitative research Now in its fourth edition, this concise, accessible, and authoritative introduction to conducting and interpreting qualitative research in the health care field has been fully revised and updated. Continuing to introduce the core qualitative methods for data collection and analysis, this new edition also features chapters covering newer methods which are becoming more widely used in the health research field; examining the role of theory, the analysis of virtual and digital data, and advances in participatory approaches to research. Qualitative Research in Health Care, 4th Edition looks at the interface between qualitative and quantitative research in primary mixed method studies, case study research, and secondary analysis and evidence synthesis. The book further offers chapters covering: different research designs, ethical issues in qualitative research; interview, focus group and observational methods; and documentary and conversation analysis. A succinct, and practical guide quickly conveying the essentials of qualitative research Updated with chapters on new and increasingly used methods of data collection including digital and web research Features new examples and up-to-date references and further reading The fourth edition of Qualitative Research in Health Care is relevant to health care professionals,

researchers and students in health and related disciplines.

**Evolução Espiritual na Prática** Bruno J. Gimenes 2017-07-14 Este livro é um manual prático que proporciona ao leitor condições de acelerar sua evolução espiritual de forma consciente, harmoniosa, inspirando valores para a alma. Evolução espiritual é a elevação da consciência humana que na prática significa: aprender a equilibrar as emoções, os sentimentos, os pensamentos para que o amor, o mais elevado dos sentimentos, aflore como consequência. A humanidade atravessa um momento muito favorável ao progresso em todos os sentidos, contudo, ainda encontramos sérias dificuldades para compreender que a evolução espiritual é o sentido maior de nossas vidas. A sociedade em geral, distanciada de Deus, confusa e alienada, não compreende a finalidade maior da existência humana, e o mais agravante: a minoria consciente encontra sérias dificuldades para trilhar essa jornada. Isso porque não sabemos como evoluir, não conhecemos os caminhos! Este trabalho é uma séria proposta que visa contribuir na evolução espiritual universalista (sem cunho religioso), na prática do dia a dia, com uma linguagem diferenciada por sua simplicidade e objetividade. É um manual prático que proporciona ao leitor condições de acelerar sua evolução espiritual, de forma consciente, harmoniosa, inspirando valores para alma, que o faça refletir sobre o sentido da vida e seus aprendizados constantes. Com linguagem inovadora e eficaz, promoverá aprendizados práticos e diretos sobre a espiritualidade e a evolução da consciência. Veja alguns dos temas abordados neste livro: Universalismo; as causas das doenças; vida após a morte, carma, vidas passadas, fluidos vitais, crianças da Nova Era, livre-arbítrio, família, o futuro das religiões, reencarnação, formas de pensamento, mantras, chacras, obsessões, a missão de cada um, psiquismo, educação espiritual no século XXI, meditações, o poder da oração, entre outros.

**The Chopra Center Herbal Handbook** David Simon, M.D. 2013-06-19 People around the world are increasingly working with their own bodies to restore balance. They're using medicinals found in nature to avoid the side effects of antibiotics and turning to traditions that have passed the test of time. The oldest medical system of all is Ayurveda, which dates back 5,000 years to its origins in India. In *The Chopra Center Herbal Handbook*, Deepak Chopra, M.D., and David Simon, M.D., draw on the forty most important herbs of Ayurveda, from aloe and amrit to ginger and winter cherry, to create a practical, popular reference book that shows how to strengthen immunity, rejuvenate the body, boost energy, and detoxify the system. Each listing in *The Chopra Center Herbal Handbook* contains botanical information, scientific research, instructions on using the herb, a line drawing, precautions, and most important, the specific ailments each herb is best suited to remedy, including those involving digestion, mind and emotions, women's and men's health matters, metabolism, pain, arthritis and inflammation, circulation, and many more.

Twenty Thousand Leagues Under the Sea Jules Verne 2020-09-28 The year 1866 was signalised by a remarkable incident, a mysterious and puzzling phenomenon, which doubtless no one has yet forgotten. Not to mention rumours which agitated the maritime population and excited the public mind, even in the interior of continents, seafaring men were particularly excited. Merchants, common sailors, captains of vessels, skippers, both of Europe and America, naval officers of all countries, and the Governments of several States on the two continents, were deeply interested in the matter. For some time past vessels had been met by "an enormous thing," a long object, spindle-shaped, occasionally phosphorescent, and infinitely larger and more rapid in its movements than a whale. The facts relating to this apparition (entered in various log-books) agreed in most respects as to the shape of the object or creature in question, the untiring rapidity of its movements, its surprising power of locomotion, and the peculiar life with which it seemed endowed. If it was a whale, it surpassed in size all those hitherto classified in science. Taking into consideration the mean of observations made at divers times—rejecting the timid estimate of those who assigned to this object a length of two hundred feet, equally with the exaggerated opinions which set it down as a mile in width and three in length—we might fairly conclude that this mysterious being surpassed greatly all dimensions admitted by the learned ones of the day, if it existed at all. And that it DID exist was an undeniable fact; and, with that tendency which disposes the human mind in favour of the marvellous, we can understand the excitement produced in the entire world by this supernatural apparition. As to classing it in the list of fables, the idea was out of the question. On the 20th of July, 1866, the steamer Governor Higginson, of the Calcutta and Burnach Steam Navigation Company, had met this moving mass five miles off the east coast of Australia. Captain Baker thought at first that he was in the presence of an unknown sandbank; he even prepared to determine its exact position when two columns of water, projected by the mysterious object, shot with a hissing noise a hundred and fifty feet up into the air. Now, unless the sandbank had been submitted to the intermittent eruption of a geyser, the Governor Higginson had to do neither more nor less than with an aquatic mammal, unknown till then, which threw up from its blow-holes columns of water mixed with air and vapour. Similar facts were observed on the 23rd of July in the same year, in the Pacific Ocean, by the Columbus, of the West India and Pacific Steam Navigation Company. But this extraordinary creature could transport itself from one place to another with surprising velocity; as, in an interval of three days, the Governor Higginson and the Columbus had observed it at two different points of the chart, separated by a distance of more than seven hundred nautical leagues.

Diálogos na educação de jovens e adultos Leôncio Soares 2020-03-25 Esta coletânea tem como fio condutor a compreensão da Educação de Jovens e Adultos enquanto um campo político, de formação e de investigação que está irremediavelmente comprometido com a educação das camadas populares e com a superação das diferentes formas de exclusão e discriminação existentes em nossa sociedade, as quais se fazem presentes tanto nos processos educativos escolares quanto nos não-escolares. Essa tem sido a orientação do NEJA – Núcleo de Educação de Jovens e Adultos – Pesquisa e Formação – da Faculdade de Educação da UFMG, cujas práticas, interrogações e pesquisas são descritas, refletidas e analisadas neste livro.

The Book of Disquiet Fernando Pessoa 2010-12-09 Sitting at his desk, Bernardo Soares imagined himself free forever of Rua dos Douradores, of his boss Vasques, of Moreira the book-keeper, of all the other employees, the errand boy, the post boy, even the cat. But if he left them all tomorrow and discarded the suit of clothes he wears, what else would he do? Because he would have to do something. And what suit would he wear? Because he would have to wear another suit. A self-deprecating reflection on the sheer distance between the loftiness of his feelings and the humdrum reality of his life, *The Book of Disquiet* is a classic of existentialist literature.

Círculos de mulheres Beatriz Del Picchia 2019-03-11 Nos últimos anos, o poder feminino virou assunto no mundo todo. Movimentos como o #MeToo, que convoca as vítimas de assédio a se pronunciar, impulsionaram profundas transformações na sociedade. A cada minuto são criados grupos, presenciais ou virtuais, para que as mulheres se apoiem mutuamente para lutar por causas que considerem justas. Nunca antes a irmandade feminina foi tão reconhecida e valorizada. No Brasil, isso também é realidade, como bem exemplificam os círculos de mulheres. Nesses grupos, discutem-se assuntos caros a suas integrantes, que mergulham numa jornada de cura e ressignificação de si mesmas – inclusive com reflexos no seu entorno social. Questões sociais, políticas e reivindicativas de direitos femininos; maternidade, parto, sexualidade; religiosidade e devoção; e empoderamento de mulheres negras e lésbicas são alguns dos temas analisados. Neste livro, Beatriz Del Picchia e Cristina Balieiro – ambas grandes estudiosas do feminino e condutoras de círculos – desvendam esse universo e apontam os inúmeros benefícios sentidos por quem dele participa. Ali, as mulheres se permitem ouvir e ser ouvidas num ambiente acolhedor; aprendem mais sobre si mesmas e entram em contato com histórias incríveis e inspiradoras; conhecem pessoas que têm valores semelhantes e com as quais passam a contar no dia a dia. Por meio de entrevistas realizadas com 13 condutoras com perfis muito diferentes, as autoras descortinam a mágica dos círculos e nos inspiram a olhar para dentro de nós e para as que estão ao nosso lado.

*Os segredos das pessoas que nunca ficam doentes* GENE STONE 2012-03-29 Alho, levedura de cerveja, ioga, banhos frios de manhã, canja de galinha. Estes ingredientes separados são apenas alguns dos que fazem parte da rotina de pessoas que nunca adoecem. Mas não são os únicos truques das pessoas chamadas de super-saudáveis. Veja abaixo um caso que faz parte do livro: Bill Thompson, um empresário com pouco mais de 60 anos, não apanha uma constipação há duas décadas e os resultados do seu eletrocardiograma parecem o de um rapaz de 20 anos. O segredo da sua saúde extraordinária está no peróxido de hidrogénio, um líquido usado para fazer combustível de foguete, branquear celulose para a indústria de papel, remover cera de ouvido e limpar bancadas. Todos os dias Bill mergulha a sua cabeça numa solução de peróxido de hidrogénio e água morna e sente o vigor de um adolescente.

History and Memory Jacques Le Goff 1992 In this brilliant meditation on conceptions of history, Le Goff traces the evolution of the historian's craft. Examining real and imagined oppositions between past and present, ancient and modern, oral and written history, *History and Memory* reveals the strands of continuity that have characterized historiography from ancient Mesopotamia to modern Europe.

**Toxicological Survey of African Medicinal Plants** Victor Kuate 2014-05-30 *Toxicological Survey of African Medicinal Plants* provides a detailed overview of toxicological studies relating to traditionally used medicinal plants in Africa, with special emphasis on the methodologies and tools used for data collection and interpretation. The book considers the physical parameters of these plants and their effect upon various areas of the body and human health, including chapters dedicated to genotoxicity, hepatotoxicity, nephrotoxicity, cardiotoxicity, neurotoxicity, and specific organs and systems. Following this discussion of the effects of medicinal plants is a critical review of the guidelines and methods in use for toxicological research as well as the state of toxicology studies in Africa. With up-to-date research provided by a team of experts, *Toxicological Survey of African Medicinal Plants* is an invaluable resource for researchers and students involved in pharmacology, toxicology, phytochemistry, medicine, pharmacognosy, and pharmaceutical biology. Offers a critical review of the methods used in toxicological survey of medicinal plants Provides up-to-date toxicological data on African medicinal plants and families Serves as a resource tool for students and scientists in the various areas of toxicology

medicinais. Adidas Wilson 2018-11-01 Ao selecionar ervas que consigam se desenvolver excepcionalmente bem, seja em ambientes abertos ou fechados, seja em vasos ou no solo, você deverá ter em mente o que você deseja obter de seu cultivo de ervas e vegetais. Se o espaço destinado ao seu cultivo recebe menos do que cinco horas diárias de luz solar talvez seja melhor plantar suas ervas em um ambiente fechado, e para água-las e para colhê-las quando for cozinhar usando elas. Aliás, plantar em um ambiente fechado ainda lhe ajudará a ficar livre de ervas daninhas, pragas e variações de temperatura. Sementes são baratas, porém, demoram muito tempo para crescer demandam muitos recursos para fazê-lo. Por outro lado, existem as mudas, que crescem mais rapidamente, porém, geralmente encontram-se disponíveis somente na primavera e no verão. Muitas ferramentas são necessárias para se fazer o trabalho na sua plantação, dentre elas temos: pás, enxadas, luvas, vasos, enfim, tudo o que for necessário para fazer o serviço. Lembre-se de que solo fértil também é um elemento importante, pode-se prepara-lo naturalmente ou compra-lo pronto em lojas especializadas. Caso opte por fazer seu cultivo em um espaço fechado utilizando vasos você pode comprar misturas de adubos prontos, feitos especialmente para este tipo de cultivo, assim não terá problemas para plantar suas ervas, e, além de facilitar seu trabalho, estes adubos prontos também previnem que pragas destruam suas plantas.

*Malleus Maleficarum* Heinrich Kramer 2018-03-29 The Malleus Maleficarum is the best known and the most important treatise on witchcraft. It was written by the Catholic clergyman Heinrich Kramer and first published in 1487. It was a bestseller, second only to the Bible in terms of sales for almost 200 years. The top theologians of the Inquisition at the Faculty of Cologne condemned the book as recommending unethical and illegal procedures, as well as being inconsistent with Catholic doctrines of demonology.

*Farmácia natural* Gabriela Elimelek Cezar 2021-07-12 A obra é um verdadeiro guia com o passo a passo, desde o momento em que o leitor fica curioso em saber como poderia funcionar uma planta medicinal até mesmo quando estiver decidido a montar uma farmácia natural em sua casa e precisar de ajuda para saber como fazer isso de forma correta, desde a escolha do local ao plantio, colheita e formas de uso. O livro possui uma dinâmica leve e linguagem de fácil entendimento. Ideal para todos os amantes de ervas medicinais, chás ou simplesmente pessoas que amam plantas e querem descobrir que outros benefícios elas proporcionam, além de trazer uma imensa alegria a todos que as apreciam. O livro apresenta as 60 ervas mais utilizadas para cura no Brasil, além de acompanhar uma tabela que ensina a escolher as melhores ervas de forma personalizada para você, leitor, e sua farmácia, bem como receitas com o uso e instruções de plantio.

Greco-Arab and Islamic Herbal Medicine Bashar Saad 2011-05-03 This book presents a systematic review on traditional Arab herbal medicine including historical background, medical innovations introduced by Arab physicians, common roots of Arab medicine and western medicine, methodology of drug discovery and therapy in Arabic and Islamic medicine, a state-of-the-art description of traditional Arab herbal medicine, and evidence-based safety and efficacy of Arab and Islamic medicines. The usage of modern cell biological, biochemical, in

vitro and in vivo techniques for the evaluation of medicinal plant safety and efficacy is also discussed. The toxicity of herbal formulations safety, quality assurances, and chemical analytical techniques are introduced in this book.

**Laudato Si'** Pope Francis 2020-10-06 Laudato Si 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.

*Benzedeiras - fé e cura no sertão: relações entre ciência, espiritualidade e saúde* Itamar da Silva Lima 2020-01-01 Este livro evidencia o protagonismo das mulheres como rezadeiras, curandeiras e agentes de saúde do Programa Saúde da Família. As rezadeiras se inscrevem no âmbito da fé e da cultura popular e, conforme o texto, muitas vezes suprimam, ao longo da história, a carência em serviços de saúde pública e gratuita no Brasil. As benzedeadas atuam como intermediadoras entre as pessoas que as procuram e o sagrado. As rezadeiras são portadoras de práticas e saberes específicos de seu ofício, pois há males que não pertencem à classificação de doenças reconhecidas pela medicina convencional. Além disso, há situações em que se considera que a intervenção das benzedeadas é o mecanismo mais eficiente para obtenção da cura. Diversos estudos na área médica reconhecem o papel da fé e da crença nos tratamentos ministrados como um componente que auxilia no processo de tratamento e cura dos pacientes. A fé, o saber popular e o saber médico não se excluem, mas se complementam. Observa-se nas comunidades estudadas a existência de um hibridismo cultural entre práticas de cura popular e a medicina convencional.
