Social Differentiation Danielle Juteau Lee 2003-01-01 Social Differentiation examines the economic, political, and normatively defined relations that underlie the construction of social categories. Social differentiation, embedded in inequalities of power, status, wealth, and prestige, affects life chances of individuals as well as the allocation of resources and opportunities. Starting with a theoretical framework that challenges many traditional analyses, the contributors focus on four specific strands of social differentiation: gender, age, race/ethnicity, and locality. They explore the historically specific social practices, policies, and ideologies that produce distinct forms of inequality, in turn revealing and explaining such issues as the formation and maintenance of a gendered order; the privileging of prime-age workers; the penalties incurred by visible minorities in the labour market; the highly disadvantaged position of Aborigines; and the economic decline of agriculture, resource, and fishing dependent regions. By paying special

attention to political processes, norms, and representations, and by indicating how social policies shape economic functioning and relate to normative definitions, this book will interest policy-oriented researchers and decision-makers.

**Irish Druidism** James Bonwick 2015-02-21 Who were the Druids? This question has agitated the minds of the learned for a long period; and various, as well as contradictory, have been the replies. Tradition preserves their memory as of a pious and superior race, prominently associated with the British Isles and France, and, in a lesser degree, with Belgium, Holland, Germany, and the lands of Scandinavia. Much romance has been long attached to them. We hear their chants in the Stone Circles. We listen to the heaven-inspired utterances of the Archdruid, as he stands on the capstone of a cromlech, in the eye of the sun, surrounded by the white-robed throng, with the bowed worshippers afar. We see the golden sickle reverently cutting off the sacred mistletoe. We follow, in imagination, the solemn procession, headed by the cross-bearer. We look under the old oak at the aged Druid, instructing disciples in mystic lore, in verses never to be committed to writing. We gaze upon the assembly of kings and chieftains, before whom the wise men debate upon some points of legislation. Then, again, we recognize the priests as patriots, resisting the invaders of their homes, and loudly chanting the Battle Hymn. We are at the convocation of Brehons, in their deliberations on law, and, awestruck, wait upon the observers

of sun and stars, or of the signs of the times in the investigation of terrestrial phenomena. We go with them to the judgment upon offenders of an unwritten code, and witness the dread ordeal, or the fiery human sacrifice. But our inquiry is, What has Irish tradition or literature to say to these interesting details concerning Druids?

**The Piggie** Donald Woods Winnicott 1991 Between the age of two and five, a little girl nicknamed "the Piggie" seriously disturbed by the birth of a younger sister visited Dr Winnicott on sixteen occasions. A verbatim account of her visits is accompanied by illuminating excerpts from letters written to the analyst by the child's parents and an invaluable commentary by Dr Winnicott. This allows the reader to experience in detail the growth of a relationship between child and therapist and the gradual unfolding of the child's inner world. This classic piece of writing gives the reader the rare opportunity of being admitted to the intimacy of the consulting room and of studying the child and therapist at work. Of special value to professionals working with children, it will also fascinate anyone interested in how psychoanalysis works in practice.

**Yvain** Chretien de Troyes 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

**The Colonial System Unveiled** Baron De Vastey 2016-01-25 Long neglected in mainstream history books, the Haitian Revolution (1791-1804) is now being claimed across a range of academic disciplines as an event of world-historical importance. The former slaves' victory over their French masters and the creation of the independent nation of Haiti in 1804 is being newly heralded not only as a seminal moment in the transnational formation of the 'black Atlantic' but as the most far-reaching manifestation of 'Radical Enlightenment'. The best known Haitian writer to emerge in the years after the revolution is Baron de

Vastey (1781-1820), who authored over ten books and pamphlets between 1814 and his murder in 1820. His first and most incendiary work, *Le système colonial dévoilé* (1814), provides a moving invocation of the horrors of slavery in pre-revolutionary Saint-Domingue. Its trailblazing critique of colonialism anticipates by over a hundred years the anticolonial politics (and poetics) of Césaire, Fanon, and Sartre. Translated here for the first time, Vastey's forceful unveiling of the colonial system will be compulsory reading for scholars across the humanities.

Fact and Method Richard W. Miller 2021-04-13 In this bold work, of broad scope and rich erudition, Richard Miller sets out to reorient the philosophy of science. By questioning both positivism and its leading critics, he develops new solutions to the most urgent problems about justification, explanation, and truth. Using a wealth of examples from both the natural and the social sciences, *Fact and Method* applies the new account of scientific reason to specific questions of method in virtually every field of inquiry, including biology, physics, history, sociology, anthropology, economics, psychology, and literary theory. Explicit and up-to-date analysis of leading alternative views and a wealth of examples make it an ideal introduction to the philosophy of

science, as well as a powerful attempt to change the field. Like the works of Hempel, Reichenbach, and Nagel in an earlier generation, it will challenge, instruct, and help anyone with an interest in science and its limits. For the past quarter-century, the philosophy of science has been in a crisis brought on by the failure of the positivist project of resolving all basic methodological questions by applying absolutely general rules, valid for all fields at all times. Professor Miller presents a new view in which what counts as an explanation, a cause, a confirming test, or a compelling case for the existence of an unobservable is determined by frameworks of specific substantive principles, rationally adopted in the light of the actual history of inquiry. While the history of science has usually been the material for relativism, Professor Miller uses arguments of Darwin, Newton, Einstein, Galileo, and others both to undermine positivist conceptions of rationality and to support the positivists' optimism that important theoretical findings are often justifiable from all reasonable perspectives.

World Editors Gustavo Guerrero 2020-12-16 The existence of World Literature depends on specific processes, institutions, and actors involved in the global circulation of literary works. The contributions of this volume aim to pay attention to these multiple material dimensions of Latin American 20th and 21st century literatures. From perspectives informed by materialism, sociology, book studies, and digital humanities, the articles of this volume analyze the role of publishing houses, politics of translation, mediators and gatekeepers, allowing insights into the processes that enable books to cross borders and to be transformed into globally circulating commodities. The book focusses both on material (re)sources of literary archives, key actors in literary and cultural markets, prizes and book fairs, as well as on recent dimension of the digital age. Statements of some of the leading representatives of the global publishing world complement these analyses of the operations of selection and aggregation of value to literary texts.

Marilyn Manson by Perou 2020-05-19 'I often get asked, 'Who was your favorite person to photograph?' or 'Who is the best person you've photographed?'' says photographer Perou. 'It's always 'Marilyn Manson.' Which is just as well, considering how many times I've photographed him.' Perou has been photographing Marilyn Manson since a 1998 magazine cover shoot. Twenty-one years of collaborating have resulted in this unique book, featuring over 350 photographs including previously unpublished work, conceptual portraits, onstage and informal behind-the-scenes images, giving a rare insight into Manson's world.

**Lost Downtown** Peter Hujar 2016-02 It's a vanished world, and Peter Hujar was right there in it. The Lower East Side between 1972 and 1985 -- filled with artists, wannabe artists and hangers-on -- was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hujar's camera -- and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz.
