Trick Baby Iceberg Slim 2011-09-13 The author that brought black literature to the streets is back. Weaving stories of deceit, sex, humor and race Iceberg Slim, best-selling author of Pimp, brings us the story of a hustler who doesn't just play the con game, he transforms it. This is the gritty truth, the life of a hustler in south side Chicago where the only characters are those who con and those who get conned. Trick Baby tells the story of "White Folks," a blue-eyed, light-haired, con-artist whose pale skin allows him to pass in the streets as a white man. Folks is tormented early in life, rejected by other children and branded a "Trick Baby," the child conceived between a hooker and her trick. Refusing to abandon his life in the ghetto and a chance at revenge, Folks is taken under the wing of an older mentor, Blue. What happens next is not to be believed. Only Slim could bring us the story of a hustler, forced to learn the game and rise to the top. It's Slim's story and he tells it in the only way he knows how, in the language of the streets.

Pimp Iceberg Slim 2011-05-10 "[In Pimp], Iceberg Slim breaks down some of the coldest, capitalist concepts I've ever heard in my life." —Dave Chappelle, from his Netflix special *The Bird Revelation* Pimp sent shockwaves throughout the literary world when it published in 1969. Iceberg Slim's autobiographical novel offered readers a never-before-seen account of the sex trade, and an unforgettable look at the mores of Chicago's street life during the 1940s, 50s, and 60s. In the preface, Slim says it best, "In this book, I will take you, the reader, with me into the secret inner world of the pimp." An immersive experience unlike anything before it, Pimp would go on to sell millions of copies, with translations throughout the world. And it would have a profound impact upon generations of writers, entertainers, and filmmakers, making it the classic hustler's tale that never seems to go out of style.

Eroticism and the Body Politic Lynn Hunt 1991 By the end of the nineteenth century, women had become an undeniable force both in the public discussion of social life and in politics itself. Yet in art and literature women's bodies continued to be represented—and domesticated—by men. They were still more often the object of the artist's or writer's gaze than they were the subject of their own representing processes. The erotic potential of women's bodies, however, was far from a marginal concern in the elaboration of modern forms of politics, art, literature, and psychology. In *Eroticism and the Body Politic*,

scholars from art history, history, and literature examine the frequent intersections between the body erotic and the body politic. Focusing on eighteenth- and nineteenth-century France, they show how eroticized representations of bodies had a multitude of political and cultural meanings. The authors consider the eroticized body in a wide variety of media: from Fragonard's paintings of "erotic mothers," to political pornography attacking Marie Antoinette, to the "new woman" of fin de siècle decorative arts. Exploring the possibilities of a multidisciplinary approach, the volume shows that eroticism had an impact far beyond the usual confines of libertine or pornographic literature—and that politics included much more than voting, meeting, or demonstrating. At a time of general methodological ferment in the "human sciences," *Eroticism and the Body Politic* brings fresh approaches to the developing field of cultural studies.

Mama Black Widow Iceberg Slim 2013-05-07 Tells the story of Otis Tilson, a transvestite living a life of pimping and tricking amid the violence and crime of the homosexual underground.

The Erotic History of France Henry L. Marchand 2016-03-18 From the Introduction. THIS book sets itself the interesting and intriguing task of writing the erotic history of France and its erotic literature. Perhaps someone will inquire why we choose such a theme, and what profit is to be derived from a knowledge of the numerous piquant and gallant details that we shall meet on our quest. It is possible, too, that some reader will wonder about the latter part of the title: The History of French Erotic Literature. What is the justification for this phrase? Let us spend a few moments now in trying to understand why France should be chosen as the subject of an erotic history; why the history of the vast system of practices connected with the most unbridled and diverse expression of sex life in the land of the Gauls is of importance for us. Then we shall be in a position to realize the tremendous value of French erotic writings, which shall be our guides in our expedition through this land of love. It is a nice question whether there is an essential and an all-pervasive difference between the different races of mankind. But whatever be the truth about this very moot question, it is an indisputable fact that France has for many centuries been renowned as the home par excellence of eroticism, and Frenchmen as the typical representatives of the erotic spirit and practitioners of the erotic art. This by no means implies that there is something inherent in the French which impels them to this type of activity. We are merely stating a fact which can be buttressed by numerous phenomena, historical and sociological. Many investigators have asserted the fundamental unity of all nations, and have even denied that there has been any development through the course of history, by which modern men, for instance, have come into the possession of new traits of character or elements of physical structure. The French critic - Remy de Gourmont - has gone so far as to develop a quasi-law of history which claims that in all ages and in all climes men are alike, and the same diversities which separated classes of men and individuals at a bygone age are still observable today, mutatis mutandis. If this view is true, and we incline to believe that it is, then the sources for the development and importance of the erotic motif in French culture are to be led back not to certain structural peculiarities of the French people but to certain peculiarities in their history and sociological organization. Just at what date these traits first became manifest it is difficult to assert with precision. During the

Renaissance period, when new blood began to run in the veins of the awakened and enlightened Europeans, and the first fruits of the new culture became documented in literature, we are already able to discern the strength of this motif. Of course at this time other nations of Europe, the Italians principally and also the Germans, were producing similar works. Indeed, the beginning of this literature as forsooth of the whole drive and potency of the Renaissance is to be seen in Italy; but at any rate this direction manifested in literature was the reflection of tendencies continued, developed, and augmented which at a later date made France the mundane residence of Venus in Europe....

A Phonetic Dictionary of the English Language Hermann Michaelis 2003 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew*, and includes extensive discussions of the play's various printed versions and its theatrical productions. Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play. The issues discussed include gender, authority, female autonomy and unruliness, courtship and marriage, language and speech, and performance and theatricality.

Representing Rape in Medieval and Early Modern Literature C. Rose 2016-04-30 In thirteen studies of representations of rape in Medieval and Early Modern literature by such authors as Chaucer, Shakespeare and Spenser, this volume argues that some form of sexual violence against women serves as a foundation of Western culture. The volume has two purposes: first, to explore the resistance these pervasive representations generate and have generated for readers - especially for the female reader-

and second, to explore what these representations tell us about social formations governing the relationships between men and women. More particularly, Rose and Robertson are interested in how representations of rape manifest a given culture's understanding of the female subject in society.
