The Fall of the House of Usher and Other Writings Edgar Allan Poe 2003-03-27 This selection of Poe's critical writings, short fiction and poetry demonstrates an intense interest in aesthetic issues and the astonishing power and imagination with which he probed the darkest corners of the human mind. The Fall of the House of Usher describes the final hours of a family tormented by tragedy and the legacy of the past. In the Tell Tale Heart, a murderer's insane delusions threaten to betray him, while stories such as The Pit and the Pendulum and the Cask of Amontillado explore extreme states of decadence, fear and hate.

Lights Out T. S. Wiley 2002-01-18 When it comes to obesity, diabetes, heart disease, cancer, and depression, everything you believe is a lie. With research gleaned from the National Institutes of Health, T.S. Wiley and Bent Formby deliver staggering findings: Americans really are sick from being tired. Diabetes, heart disease, cancer, and depression are rising in our population. We're literally dying for a good night's sleep. Our lifestyle wasn't always this way. It began with the invention of the lightbulb. When we don't get enough sleep in sync with seasonal light exposure, we fundamentally alter a balance of nature that has been programmed into our physiology since day one. This delicate biological rhythm rules the hormones and neurotransmitters that determine appetite, fertility, and mental and physical health. When we rely on artificial light to extend our day until 11 p.m., midnight, and beyond, we fool our bodies into living in a perpetual state of summer. Anticipating the scarce food supply and forced inactivity of winter, our bodies begin storing fat and slowing metabolism to sustain us through the months of hibernation and hunger that never arrive. Our own survival instinct, honed over millennia, is now killing us. Wiley and Formby also reveal: -That studies from our own government research prove the role of sleeplessness in diabetes, heart disease, cancer, infertility, mental illness, and premature aging - Why the carbohydrate-rich diets recommended by many health professionals are not only ridiculously ineffective but deadly -Why the lifesaving information that can turn things around is one of the best-kept secrets of our day. *Lights Out* is one wake-up call none of us can afford to miss.

Making and Using Word Lists for Language Learning and Testing I.S.P. Nation 2016-09-08 Word lists lie at the heart of good vocabulary course design, the development of graded materials for extensive listening and extensive reading, research on vocabulary load, and vocabulary test development. This book has been written for vocabulary researchers and curriculum designers to describe the factors they need to consider when they create frequency-based word lists. These include the purpose for which the word list is to be used, the design of the corpus from which the list will be made, the unit of counting, and what should and should not be counted as words. The book draws on research to show the current state of knowledge of these factors and provides very practical guidelines for making word lists for language teaching and testing. The writer is well known for his work in the teaching and learning of vocabulary and in the creation of word lists and vocabulary size tests based on word lists.

Four Germanys Donald S. Pitkin 2016-10-04 In this last book by the late Donald Pitkin, author of *The House that Giacomo Built*, comes a story of the Schorcht family, through whose fortunes and struggles one can see the transformations of Germany through the long twentieth century. Each chapter of *Four Germanys* is reflective of generational rather than historical time. In 1922, Edwin Schorcht inherited his family farm, and in Part One, Pitkin traces the derivation of this farmstead. Part Two focuses on Schorcht's children who came of age in Hitler's Germany. Part Three has the Schorchts growing up in the Ulbricht years (1950-73) of the German Democratic Republic. The book concludes with the great-granddaughter, Maria, looking back to the past in relation to the new Germany that history had bequeathed her. Ultimately, *Four Germanys* reflects the impact of critical historical events on ordinary East Germans while it also reveals how one particular family managed its own historical adaptation to these events.

Looking for Humboldt: & Searching for German Footprints in New Mexico and Beyond Erika Schelby 2017-09-11 As a German-American explores the colorful landscape of the American Southwest, its adventure-rich past, and the roles played by Humboldt and a handful of German participants and immigrant soldiers come alive. Early on, Spanish and English methods collide. With exquisite detail and stark honesty, Erika Schelby expertly weaves a story of culture, conflict, and belonging in this beautiful narrative. To gain insight, layers of history are pulled back and scrupulously examined. Looking for Humboldt is focused on the Southwest but finds the connections to a larger world in good Humboldtian fashion, with brief cameo appearances by persons ranging from Thomas Jefferson, Frederick the Great, and Napoleon to Adalbert von Chamisso, Eugene Debs and Al Sieber, Chief of Scouts during the Apache Wars. Even geopolitical strategists like Mackinder and Mahan present their case. From ancient events to the present day, from the tectonic plates below to the desert above, Schelby's rendition of the region's diverse histories is unlike any other. It also provides a timely contribution to the 100-year anniversary of the 1917 American entry into the First World War.

Hard to Be a God Arkady Strugatsky 2014-06-01 Arkady and Boris Strugatsky are widely known as the greatest Russian writers of science fiction, and their 1964 novel *Hard to Be a God* is considered one of the greatest of their works. It tells the story of Don Rumata, who is sent from Earth to the medieval kingdom of Arkanar with instructions to observe and to influence, but never to directly interfere. Masquerading as an arrogant nobleman, a dueler and a brawler, Don Rumata is never defeated but can never kill. With his doubt and compassion, and his deep love for a local girl named Kira, Rumata wants to save the kingdom from the machinations of Don Reba, the First Minister to the king. But given his orders, what role can he play? *Hard to Be a God* has inspired a computer role-playing game and two movies, including Aleksei German's long-awaited swan song. Yet until now the only English version (out of print for over thirty years) was based on a German translation, and was full of errors, infelicities, and misunderstandings. This new edition—translated by Olena Bormashenko, whose translation of the authors' *Roadside Picnic* has received widespread acclaim, and supplemented with a new foreword by Hari Kunzru and an afterword by Boris Strugatsky, both of which supply much-needed context—reintroduces one of the most profound Soviet-era novels to an eager audience.
