Fünfundvierzig Jahre Adria und Mittelmeer Alfred Gruber 2022-05-31 "Wenn jemand eine Reise tut, dann kann er was erzählen. Drum nähme ich den Stock und Hut und würd das Reisen wählen", schrieb Matthias Claudius einst. Diesen Zweizeiler dürfte sich Alfred Gruber zu seinem Leitspruch gemacht haben. In seinem autobiografischen Werk erzählt er mit Hingabe und liebevoller Akribie über seine alljährlichen Segeltörns auf der Adria entlang der dalmatinischen Küste. Bis nach Malta bringen die Fahrten ihn mit Familie oder Freunden auf seiner "Santorin". Dabei lässt er tief in die Kultur der Länder und der Menschen blicken und liefert dem geschichtlich interessierten Leser realistische und grundehrliche Informationen. Auch der versierte Segler kommt thematisch auf seine Kosten. Nicht nur Bordkatze Felizitas sollten am Ende "Seebeine" gewachsen sein.

Tooth and Claw T. C. Boyle 2011-07-01 This new collection of short stories from T.C. Boyle finds him at his mercurial best. Inventive, wickedly funny, sometimes disturbing, these are stories about drop-outs, deadbeats and kooks. Take the man who shares his apartment with a wildcat won in a drunken bet; the drive-time shock jock hallucinating from sleep deprivation for a publicity stunt; the suburban woman who joins a pack of dogs, eating rabbits and baying at the moon. With a unique deftness of touch and a keen eye for the telling detail, Boyle has mapped the strange underworld of America.

100 Years of Power Plant Development Heinz Termuehlen 2001 Overviews the thermodynamic design concepts behind the most common types of power generation plants. Termuehlen, who is retired from Siemens, shows how advances in power plant technologies--especially the large steam and gas turbine design--have improved the performance of power stations, and how problems have been overcome. Nuclear power, co-generation, combined-cycle, and coal gasification plants are described. The final chapter identifies available fuel sources, and examines the best technologies for converting fuel into electric power with the lowest adverse effect on the environment. c. Book News Inc.

Typenatlas DR-Lokomotiven Rudolf Heym 2019-12-16 Welche Loks und Triebwagen fuhren in der DDR? Wie sahen sie aus, was waren ihre Merkmale, wo kann man sie heute noch antreffen? Die Antworten darauf und vieles mehr finden Sie in diesem Buch, das sich dem Fahrzeugbestand der Deutschen Reichsbahn von ca. 1970 bis 1989 widmet. Zusammen mit den zahlreichen Importfahrzeugen aus den "sozialistischen Bruderländern" ergab sich eine Typenvielfalt, die mittlerweile schon beginnt, in Vergessenheit zu geraten.

Medical Enhancement and Posthumanity Bert Gordijn 2008-10-20 As we are increasingly using new technologies to change ourselves beyond therapy and in accordance with our own desires, understanding the challenges of human enhancement has become one of the most urgent topics of the current age. This volume contributes to such an understanding by critically examining the pros and cons of our growing ability to shape human nature through technological advancements. The authors undertake careful analyses of decisive questions that will confront society as enhancement interventions using bio-, info-, neuro- and nanotechnologies become widespread in the years to come. They provide the reader with the conceptual tools necessary to address such questions fruitfully. What makes the book especially attractive is the combination of conceptual, historical and ethical approaches, rendering it highly original. In addition, the well-balanced structure allows both favourable and critical views to be voiced. Moreover, the work has a crystal clear structure. As a consequence, the book is accessible to a broad academic audience. The issues raised are of interest to a wide reflective public concerned about science and ethics, as well as to students, academics and professionals in areas such as philosophy, applied ethics, bioethics, medicine and health management.

I AM THE HIDDEN TRACK ON YOUR MOON PLAYLIST Melanie Soyah 2021-05-18 "One gets sucked into the cosmos of devastation and longing from the very first second. Not only the words are art but poems themselves are presented; sometimes broken and torn, sometimes overly present, sometimes depicting vulnerability and most of the times unconditional strength and love. At the end you are desperate to know if the person addressed heard the message or if the author was left heart-broken." Cava
