*Exploring the Interior* Karl S. Guthke 2018-05-24 In this fascinating collection of essays Harvard Emeritus Professor Karl S. Guthke examines the ways in which, for European scholars and writers of the eighteenth and early nineteenth century, world-wide geographical exploration led to an exploration of the self. Guthke explains how in the age of Enlightenment and beyond intellectual developments were fuelled by excitement about what Ulrich Im Hof called "the grand opening-up of the wide world", especially of the interior of the non-European continents. This outward turn was complemented by a fascination with "the world within" as anthropology and ethnology focused on the humanity of the indigenous populations of far-away lands – an interest in human nature that suggested a way for Europeans to understand themselves, encapsulated in Gauguin's Tahitian rumination "What are we?" The essays in the first half of the book discuss first- or second-hand, physical or mental encounters with the exotic lands and populations beyond the supposed cradle of civilisation. The works of literature and documents of cultural life featured in these essays bear testimony to the crossing not only of geographical, ethnological, and cultural borders but also of borders of a variety of intellectual activities and interests. The second section examines the growing interest in astronomy and the engagement with imagined worlds in the universe, again with a view to understanding homo sapiens, as compared now to the extra-terrestrials that were confidently assumed to exist. The final group of essays focuses on the exploration of the landscape of what was called "the universe within"; featuring, among a variety of other texts, Schiller's plays *The Maid of Orleans* and *William Tell*, these essays observe and analyse what Erich Heller termed "The Artist's Journey into the Interior." This collection, which travels from the interior of continents to the interior of the mind, is itself a set of explorations that revel in the discovery of what was half-hidden in language. Written by a scholar of international repute, it is eye-opening reading for all those with an interest in the literary and cultural history of (and since) the Enlightenment.

*My Life (Revised and Updated)* Isadora Duncan 2013-05-27 A remarkable account of a wildly artistic life, finally restored to its unexpurgated form, with a revealing new introduction by Joan Acocella. The visionary choreographer and dancer Isadora Duncan (1877–1927) not only revolutionized dance in the twentieth century

but blazed a path for other visionaries who would follow in her wake. While many biographies have explored Duncan's crucial role as one of the founders of modern dance, no other book has proved as critical—as both historical record and vivid evocation of a riveting life—as her autobiography. From her early enchantment with classical music and poetry to her great successes abroad, to her sensational love affairs and headline-grabbing personal tragedies, Duncan's story is a dramatic one. *My Life* still stands alone as “a great document, revealing the truth of her life as she understood it, without reticence or apology or compromise” (New York Herald Tribune). Now, in this fully restored edition, with its risqué recollections and fervent idealism, *My Life* can be appreciated by a new generation.

Emotion in the Tudor Court Bradley J. Irish 2018-01-15 Deploying literary analysis, theories of emotion from

the sciences and humanities, and an archival account of Tudor history, *Emotion in the Tudor Court* examines how literature both reflects and constructs the emotional dynamics of life in the Renaissance court. In it, Bradley J. Irish argues that emotionality is a foundational framework through which historical subjects embody and engage their world, and thus can serve as a fundamental lens of social and textual analysis. Spanning the sixteenth century, *Emotion in the Tudor Court* explores Cardinal Thomas Wolsey and Henrician satire; Henry Howard, Earl of Surrey, and elegy; Sir Philip Sidney and Elizabethan pageantry; and Robert Devereux, Earl of Essex, and factional literature. It demonstrates how the dynamics of disgust, envy, rejection, and dread, as they are understood in the modern affective sciences, can be seen to guide literary production in the early modern court. By combining Renaissance concepts of emotion with modern research in the social and natural sciences, *Emotion in the Tudor Court* takes a transdisciplinary approach to yield fascinating and robust ways to illuminate both literary studies and cultural history.

Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

*My Almost Flawless Tokyo Dream Life* Rachel Cohn 2018-12-18 "I'm here to take you to live with your father. In Tokyo, Japan! Happy birthday!" In the Land of the Rising Sun, where high culture meets high kitsch, and fashion and technology are at the forefront of the First World's future, the foreign-born teen elite attend ICS—the International Collegiate School of Tokyo. Their accents are fluid. Their homes are ridiculously posh. Their sports games often involve a (private) plane trip to another country. They miss school because of jet lag and visa issues. When they get in trouble, they seek diplomatic immunity. Enter foster-kid-out-of-water Elle Zoellner, who, on her sixteenth birthday discovers that her long-lost father, Kenji Takahari, is actually a Japanese hotel mogul and wants her to come live with him. Um, yes, please! Elle jets off first class from Washington D.C. to Tokyo, which seems like a dream come true. Until she meets her enigmatic father, her way-too-fab aunt, and her hyper-critical grandmother, who seems to wish Elle didn't exist. In an effort to please her new family, Elle falls in with the Ex-Brats, a troupe of uber-cool international kids who spend money like it's air. But when she starts to crush on a boy named Ryuu, who's frozen out by the Brats and despised by her new family, her already tenuous living situation just might implode. *My Almost Flawless Tokyo Dream Life* is about learning what it is to be a family, and finding the inner strength to be yourself, even in the most extreme circumstances.

**Pioneering Ideas for the Physical and Chemical Sciences** W. Fleischhacker 1997-12-31 This volume presents the contributions delivered at the "Josef-Loschmidt-Symposium," which took place in Vienna, June 25-27, 1995. The symposium was arranged to honor Josef Loschmidt one hundred years after his death (8 July 1895), to evaluate the significance of his contributions to chemistry and physics from a modern point of view and to trace the development of scientific fields in which he had done pioneering work. Loschmidt is widely known for the first calculation of the size of molecules (1865/66), which also led to values for the number of molecules in unit gas volume and for the mass of molecules. With critical analyses of problems in statistical physics he made important contributions to the development of that field, "Loschmidt's paradoxon" continuing to be a point of departure for present day studies and discussions. For decades there was little awareness that Loschmidt was a pioneer in organic structural chemistry. Only in recent years has Loschmidt's first scientific publication "Chemische Studien I", published in 1861, become more widely known and it is now recognized that with his ideas on the structure of organic molecules he was greatly ahead of the chemists of that time. The papers in these proceedings are arranged in three sections: 1. Organic structural chemistry (Chapters 1-12). 2. Physics and physical chemistry (Chapters 13-26). 3. Loschmidt's biography, Loschmidt's world (Chapters 27-33).

**Twelve Years a Slave** Solomon Northup 2021-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of

twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

**A Book of German Lyrics** Friedrich Bruns 2016-06-06 In compiling this Anthology my aim has been not so much to acquaint the student with individual great poems as with the poets themselves. With this end in view I have made the selections as full and as varied as possible and included in the Notes short introductory sketches of the poets. Since the book is intended for the work of fourth and fifth semester German in College (or third and fourth year High School), pedagogic considerations imposed certain limitations not only as to individual poems but also as to poets. Thus I felt that I must exclude Novalis, Holderlin, Brentano, Annette von Droste, Nietzsche and Dehmel. My standard of difficulty—aside from matters purely linguistic—was: Could a similar poem in English be read and appreciated by the same class of students? Moreover I tried out in a class of fourth semester German all poems that seemed to offer special difficulties and have made use of the experience thus acquired. (...)."

Under a Falling Star Jae 2014 "Falling stars are supposed to be a lucky sign, but not for Austen. Her new job as a secretary in an international games company isn't off to a good start. Her first assignment--decorating the Christmas tree in the lobby--results in a trip to the ER after Dee, the company's second-in-command, gets hit by the star-shaped tree topper. Dee blames her instant attraction to Austen on her head wound, not the magic of the falling star. She's determined not to act on it, especially since Austen has no idea that Dee is practically her boss"--Back cover.

Jewish Translation - Translating Jewishness Magdalena Waligórska 2018-05-22 This interdisciplinary volume looks at one of the central cultural practices within the Jewish experience: translation. With contributions from literary and cultural scholars, historians, and scholars of religion, the book considers different aspects of Jewish translation, starting from the early translations of the Torah, to the modern Jewish experience of migration, state-building and life in the Diaspora. The volume addresses the question of how Jews have used translation to pursue different cultural and political agendas, such as Jewish nationalism, the development of Yiddish as a literary language, and the collection of Holocaust testimonies. It also addresses how non-Jews have translated elements of the Judaic tradition to create an image of the Other. Covering a wide span of contexts, including religion, literature, photography, music and folk practices, and featuring an interview section with authors and translators, the volume will be of interest not only to scholars of Jewish studies, translation and cultural studies, but also a wider interested audience.

**The Echinoderm Fauna of the Azores (NE Atlantic Ocean)** author 1 2019 "Abstract: In more than 150 years of research in the waters surrounding the Azores, several publications on the fauna of echinoderms of the archipelago have been produced, in the form of papers, notes, reports, reviews, and monographs. This work attempts to summarize the present knowledge on this marine group in the Azorean exclusive economic zone (i.e., waters within 200 nautical miles of the archipelago's shores). A short review of the history of the species' taxonomy is given, with key references, geographical distribution, ecology, additional notes and, when possible, figures. We herein report 172 species of echinoderms (6 crinoids, 55 ophiuroids, 45 asteroids, 36

holothurians, and 30 echinoids) from the Azores Archipelago, most of them inhabiting deep waters (>200 m). Only 29 shallow-water species were recorded locally (≤50 m depth). In general, the echinoderm species present in the Azores are characterized by a wide geographical distribution in the Atlantic Ocean. Only nine taxa (all deep-water species, >840 m) appear to be restricted to the Azorean waters. Overall, the knowledge of the echinoderm fauna of the Azores is out-dated, with many species last collected in the archipelago over 100 years ago. A recent interest in the Azorean Mid-Atlantic waters has brought oceanographic cruises back to the archipelago, thus providing new opportunities for the renewal of 150 years of echinoderm studies in the area. Keywords: Echinodermata"--Page 3.

**The Letters Of Rosa Luxemburg** Rosa Luxemburg 2013-08-06 The most comprehensive collection of letters by Rosa Luxemburg ever published in English, this book includes 190 letters written to leading figures in the European and international labor and socialist movements—Leo Jogiches, Karl Kautsky, Clara Zetkin and Karl Liebknecht—who were among her closest friends, lovers and colleagues. Much of this correspondence appears

for the first time in English translation; all of it helps to illuminate the inner life of this iconic revolutionary, who was at once an economic and social theorist, a political activist and a lyrical stylist. Her political concerns are revealed alongside her personal struggles within a socialist movement that was often hostile to independently minded women. This collection will provide readers with a newer and deeper appreciation of Luxemburg as a writer and historical figure.

*Literary Translation, Reception, and Transfer* Norbert Bachleitner 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers

included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.
