*Chaos* Patricia Cornwell 2016-11-15 “When it comes to the forensic sciences, nobody can touch Cornwell.” —New York Times Book Review [PLEASE BOX:] CHAOS From the Ancient Greek (χάος or kháos) A vast chasm or void. Anarchy. The science of unpredictability. On a late summer evening in Cambridge, Massachusetts, Dr. Kay Scarpetta and her investigative partner, Pete Marino, respond to a call about a dead bicyclist near the Kennedy School of Government. It appears that a young woman has been attacked with almost superhuman force. Even before Scarpetta's headquarters has been officially notified about the case, Marino and Scarpetta's FBI agent husband, Benton Wesley, receive suspicious calls, allegedly from someone at Interpol. But it makes no sense. Why would the elite international police agency know about the case or be interested? It soon becomes apparent that an onslaught of

harassment might be the work of an anonymous cyberbully named Tailend Charlie, who has been sending cryptic communications to Scarpetta for over a week. Even Lucy, her brilliant tech-savvy niece, can't trace who it is or how this person could have access to intimate information. When a second death shocks Scarpetta to her core, it becomes apparent she and those close to her are confronted with something far bigger and more dangerous than they'd ever imagined.

The Last Precinct Patricia Cornwell 2008-09-04 The eleventh book in the Kay Scarpetta series, from No. 1 bestselling author Patricia Cornwell. 'America's most chilling writer of crime fiction' The Times Physically and psychologically bruised by her encounter with the killer Chandonne, Dr Kay Scarpetta has to leave her home in the hands of the police team investigating the attack. She finds shelter with an old friend, Anna Zenner, but it is not the haven of security she needs when she discovers that Anna has been sub-poenaed to appear before a Grand Jury which is investigating Scarpetta for murder. Kay knows she is being framed and she also knows she can trust no-one. Meanwhile it appears that Chandonne killed a woman in New York before his murderous spree in Virginia, but when Scarpetta looks more closely into that case with the NY prosecutor Jaime Berger, proof of his guilt is far from certain - in fact she begins to believe that he may not be the perpetrator of any of the crimes he is accused of. As she follows the forensic trail to the real killer she gradually realises that someone has been spinning a web for years with the aim of entrapping her. Who is it, and why are they so desperate to be rid of her? Praise for the groundbreaking series: 'One of the best crime writers writing today' Guardian 'Devilishly clever' Sunday Times 'The top gun in this field' Daily Telegraph 'Forget the pretenders. But when his body is examined the next morning, there are stunning indications that he may have been alive when he was zipped inside a pouch and locked in the cooler. When the revolutionary 3D radiology

scans reveal more shocking details about internal injuries unlike any Scarpetta has ever seen, she realizes that this is a case of murder - and that she is fighting a cunning and uniquely cruel enemy. In *Bones on Ice*, forensic anthropologist Temperance Brennan gets wrapped up in the ultimate cold case: a death on Mount Everest. Most of the bodies remain, abandoned, frozen in place. When an earthquake leads to a miraculous recovery, Dr. Temperance Brennan is hired to identify the frozen mummified human corpse. The victim is the daughter of a wealthy Charlotte couple who never got the chance to say goodbye. But far from offering solace and closure, Tempe's findings only provoke more questions. What happened on Mount Everest? Was the young woman's death an accident? Why aren't the other climbers talking? And how far will those hiding the truth go to make sure the past stays buried? **Dust** Patricia Cornwell 2014-09-02 With unparalleled high-tension suspense and the latest in forensic technology, Patricia Cornwell once again proves her exceptional ability to surprise—and to thrill—in this electrifying Kay Scarpetta novel. A body, oddly draped in an unusual cloth, has just been discovered inside the sheltered gates of MIT, and it’s suspected the identity is that of missing computer engineering grad student Gail Shipton, last seen the night before at a trendy Cambridge bar. It appears she’s been murdered, mere weeks before the trial in her \$100 million lawsuit against her former financial manager, and Massachusetts Chief Medical Examiner Kay Scarpetta doubts it’s a coincidence. She also fears the case may have a connection with her computer genius niece, Lucy. In *Dust*, Scarpetta and her colleagues are up against a force far more sinister than a sexual predator who fits the criminal classification of a “spectacle killer.” The murder of Gail Shipton soon leads deep into the dark world of designer drugs, drone technology, organized crime, and shocking corruption at the highest levels.

**Capturing Jonathan Pollard** Ronald Olive 2013-09-02 Jonathan Pollard, an intelligence analyst working in the U.S. Naval Investigative Service's Anti-Terrorist Alert Center, systematically stole highly sensitive secrets from almost every major intelligence agency in the United States. In just eighteen months he sold more than one million pages of classified material to Israel. No other spy in U.S. history has stolen so many secrets, so highly classified, in such a short period of time. Author Ronald Olive was in charge of counterintelligence in the Washington office of the Naval Investigative Service that

investigated Pollard and garnered the confession that led to his arrest in 1985 and eventual life sentence. His book reveals details of Pollard's confession, his interaction with the author when suspicion was mounting, and countless other details never before made public. Olive points to mistaken assumptions and leadership failures that allowed Pollard to ransack America's defense intelligence long after he should have been caught.

**Red Mist** Patricia Cornwell 2011-12-06 With high-tension suspense and cutting-edge technology, Patricia Cornwell—the world's #1 bestselling crime writer—once again proves her exceptional ability to entertain and enthrall in this remarkable novel featuring chief medical examiner Dr. Kay Scarpetta. On her quest to find out exactly what happened to her former deputy chief, Jack Fielding, murdered six months before, Scarpetta drives to the Georgia Prison for Women to meet a convicted sex offender and the mother of a vicious and diabolically brilliant killer. Against the advice of her FBI criminal intelligence agent husband, Benton Wesley, Scarpetta is determined to hear this woman out. Scarpetta has both personal and professional reasons to learn more about a string of grisly killings: the murder of a Savannah family years earlier, a young woman on death row, and then other inexplicable deaths that begin to occur at a breathtaking pace. Driven by inner forces, Scarpetta discovers connections that compel her to conclude that what she thought ended with Fielding's death and an attempt on her own life is only the beginning of something far more destructive: a terrifying terrain of conspiracy and potential terrorism on an international scale. And she is the only one who can stop it.

**Live Like a Vulcan, Love Like a Wookiee, Laugh Like a Hobbit** Robb Pearlman 2021-10-05 Much like a dragon-guarded mountain filled with stolen dwarf gold, Pop Culture is far more than just a side quest or afternoon's entertainment: it contains a veritable treasure trove overflowing with life lessons. If there's one takeaway from more than 40 years of Scooby-Doo mysteries, it's that the vast majority of life's villains are old white men using literal scare tactics to hold on to whatever privilege they have; Stranger Things taught us that any group of bike-riding kids are either running from or toward a vast governmental conspiracy; The Wizard of Oz proved that fashion can only take you so far; The Lord of the Rings showed us not only about the power of statement jewelry but that gifts come with strings attached; and Jaws was evidence that no matter how prepared you think you are, you should always expect the unexpected. This modern-day fable takes the best elements of My Dinner With Andre, The Big Bang Theory, and How to Make Friends and Influence People, to tell the story of three cosplaying friends sharing what they have learned from their favorite (and hated) movies, series, and games in a cafe after a day of walking the halls of a convention center. Live Like a Vulcan, Love Like a Wookiee, Laugh Like a Hobbit invites readers to a never-before-seen and slightly skewed look at the most memorable moments in films, shows, books, comic books, graphic novels, and video games. By the end of this pop-culture tour, fans of all ages will be given more inside knowledge than could ever be gotten at a comic convention, more self-help tools than can fit into any utility belt, more treasures than can be found in a cave of wonders, and more smiles than can be seen on any joker's face.

**Cross and Burn** Val McDermid 2013-10-22 Psychologist Tony Hill and ex-DCI Carol Jordan—the UK crime fighting partners from the TV series Wire in the Blood—face down a serial killer. International bestselling crime writer Val McDermid's work speaks for itself: her books have sold millions of copies worldwide, won numerous accolades, and attracted a devoted following of readers around the globe. Cross and Burn picks up where The

Retribution left off: following the best crime-fighting team in the UK—clinical psychologist Tony Hill and police detective Carol Jordan—who when we last saw them were barely speaking, and whose relationship will now be challenged even further. But just because they're not talking doesn't mean the killing stops. Women are being murdered—ones who bear an unsettling resemblance to Carol Jordan. And when the evidence begins to point in a disturbing direction, thinking the unthinkable seems the only possible answer. Cornered by events, Tony and Carol are forced to fight for themselves and each other as never before. "McDermid is as smooth a practitioner of crime fiction as anyone out there . . . She's the best we've got." —The New York Times Book Review

Hornet's Nest Patricia Cornwell 1998-02-01 Patricia Cornwell turns from forensics to police procedures in her latest novel, *Hornet's Nest*. **A Line of Blood** Ben McPherson 2015-09-29 In one of the most entertaining and twisty thrillers of the year a London family, a mother, father and young son, must deal with the murder of their secretive next door neighbor and the intrusive police investigation that follows. Readers will be faced with ever shifting and increasingly frightening suspicions that one or all of them had something to do with it. Alex Mercer loves his family more than anything. His wife Millicent and their precocious eleven-year-old son Max are everything to him, his little tribe. When he is with them all is right with the world. But when he and Max find their next door neighbour dead in his bathtub, their lives are suddenly and irrevocably changed. Max is surprisingly fascinated by the dead body, and Alex is understandably anxious about how Max will react later, once he takes it all in. And Alex is increasingly impatient for the police to conclude their investigation and call this the suicide that it so clearly was. But as new information surfaces, it becomes clear that there is more to this than anyone is saying... Why was the neighbour charging his home improvements to the Mercers' address? How did Millicent's bracelet end up in his apartment? And why, in fact, did Max lead his father into the house on the quiet summer night that they found the corpse? As suspicion grows between the three, the once close-knit family starts to disintegrate. Is Alex really the loving husband we believe him to be? And where is Millicent really going when she disappears for hours, walking the parks of London, stewing over something that she can't forget? Each of them is suffering. Each has something to hide. And as each questions how well they really know each other, they must decide how far they'll go to protect themselves—and each other—from investigators who are watching every move they make. Just waiting for someone to make a mistake.

Body of Evidence Patricia Cornwell 2020-12-01 #1 New York Times bestselling author Patricia Cornwell's suspense fiction classic, featuring gutsy medical examiner Kay Scarpetta. A reclusive author, Beryl Madison finds no safe haven from months of menacing phone calls—or the tormented feeling that her every move is being watched. When the writer is found slain in her own home, Kay Scarpetta pieces together the intricate forensic evidence—while unwittingly edging closer to a killer waiting in the shadows.

**Depraved Heart** Patricia Cornwell 2016-06-28 Dr. Kay Scarpetta is working a suspicious death scene in Cambridge, Massachusetts, when she receives a text message with a video link that appears to be from her niece Lucy. But how can it be? It's clearly a surveillance film

of Lucy taken almost twenty years ago. As Scarpetta watches she comes to grips with frightening secrets. That first clip and others sent soon after raise dangerous implications that increasingly isolate Scarpetta, leaving her confused and not knowing whom she can tell—not her FBI agent husband, Benton Wesley, or her investigative partner, Pete Marino. Not even Lucy. Cornwell launches these unforgettable characters on a psychological odyssey that includes the mysterious death of a Hollywood mogul's daughter, aircraft wreckage on the bottom of the sea in the Bermuda Triangle, a grisly gift left in the back of a crime scene truck, and videos from the past that threaten to destroy Scarpetta's entire world. The diabolical presence and singularly "depraved heart" behind what unfolds seems obvious—but not to the FBI, which begins building a case against Lucy that could send her to prison for the rest of her life... Depraved Heart: "Void of social duty and fatally bent on mischief." *Mayes v. People*, 806 III. 306 (1883) "When it comes to the forensic sciences, nobody can touch Cornwell." *New York Times Book Review*

Scarpetta Patricia Cornwell 2009-08-25 From America's #1 bestselling crime writers comes an extraordinary #1 New York Times bestselling Kay Scarpetta novel. Leaving behind her private forensic pathology practice in Charleston, South Carolina, Kay Scarpetta accepts an assignment in New York City, where the NYPD has asked her to examine an injured man on Bellevue Hospital's psychiatric prison ward. The handcuffed and chained patient, Oscar Bane, has specifically asked for her, and when she literally has her gloved hands on him, he begins to talk—and the story he has to tell turns out to be one of the most bizarre she has ever heard. The injuries, he says, were sustained in the course of a murder . . . that he did not commit. Is Bane a criminally insane stalker who has fixed on Scarpetta? Or is his paranoid tale true, and it is he who is being spied on, followed and stalked by the actual killer? The one thing Scarpetta knows for certain is that a woman has been tortured and murdered—and more violent deaths will follow. Gradually, an inexplicable and horrifying truth emerges: Whoever is committing the crimes knows where his prey is at all times. Is it a person, a government? And what is the connection between the victims? In the days that follow, Scarpetta; her forensic psychologist husband, Benton Wesley; and her niece, Lucy, who has recently formed her own forensic computer investigation firm in New York, will undertake a harrowing chase through cyberspace and the all-too-real streets of the city—an odyssey that will take them at once to places they never knew, and much, much too close to home. Throughout, Cornwell delivers shocking twists and turns, and the kind of cutting-edge technology that only she can provide. Once again, she proves her exceptional ability to entertain and enthrall.
