Frankreich Jahrbuch 2013 Deutsch-Französisches Institut 2014-04-14 Überraschend schnell nach der Wahl François Hollandes zum französischen Präsidenten schien die Hoffnung auf „Wandel“, die seine Wähler mit seinem Amtsantritt verbunden hatten, verflogen. An ihre Stelle trat in weiten Gesellschaftsteilen eine tiefe Krisenstimmung und Resignation. Die Symptome heißen Wachstumsschwäche, Arbeitslosigkeit, hohe öffentliche Defizite, soziale Krise; die Diagnosen sind entsprechend pessimistisch. Sie sind Ausdruck einer verunsicherten Gesellschaft, denn über eine momentane Wirtschaftskrise hinaus diagnostizieren die Autoren dieses Bandes eine Krise des Selbstverständnisses der Republik. Wohin steuert unser Nachbarland? Zwischen Niedergang (déclin) und Aufbegehren stehen die Beiträge für den Anspruch, ein eigenes und eigenständiges politisches Modell zu verkörpern, in dem sich demokratische Souveränität ausdrücken kann.

Coinage and Identity in the Roman Provinces C. J. Howgego 2005 Coins were the most deliberate of all symbols of public communal identities, yet the Roman historian will look in vain for any good introduction to, or systematic treatment of, the subject. Sixteen leading international scholars have sought to address this need by producing this authoritative collection of essays, which ranges over the whole Roman world from Britain to Egypt, from 200 BC to AD 300. The subject is approached through surveys of the broad geographical and chronological structure of the evidence, through chapters which focus on ways of expressing identity, and through regional studies which place the numismatic evidence in local context.

Metternich Wolfram Siemann 2019-11-01 Wolfram Siemann tells a new story of Clemens von Metternich, the Austrian at the center of nineteenth-century European diplomacy. Known as a conservative and an uncompromising practitioner of realpolitik, in fact Metternich accommodated new ideas of liberalism and nationalism insofar as they served the goal of peace. And he promoted reform at home.

West Point '41 Anne Kazel-Wilcox 2014 Bataan. North Africa. Sicily. Omaha Beach. The Ardennes. West Point 41: The Class That Went to War and Shaped America is an uplifting story of ordinary young men in extraordinary times, in extraordinary places, who graduated directly into the teeth of battle and displayed unwavering leadership, honor, duty, and determination. From Sandy Nininger, awarded the first Medal of Honor of World War II for his actions leading Philippine Scouts in the early days of the war, to Charlie Fletcher, Ed Rowny, Paul Skowronek, Herb Stern, and dozens of others who quickly found themselves leading companies, battalions, and regiments, these young officers struggled with the fog and terror of war and early command. In a postwar era of unprecedented military latitude, they helped shape defense strategy, led development of America's rocket programs, and created the theory and practice of helicopter airmobile combat that came to dominate in Vietnam. In Europe, Asia, and with the Soviets, 41ers practiced diplomacy and tradecraft as architects of American Cold War policy. All the while, they clung tightly to tenets of duty and moral courage inculcated at West Point: often tested, but holding firm to the bonds that make up the "Long Gray Line."

History of the Alps, 1500-1900 Jon Mathieu 2009 In the 1700s, Jean-Jacques Rousseau celebrated the Alps as the quintessence of the triumph of nature over the "horrors" of civilization. Now available in English, *History of the Alps, 1500-1900: Environment, Development, and Society* provides a precise history of one of the greatest mountain range systems in the world. Jon Mathieu's work disproves a number of commonly held notions about the Alps, positioning them as neither an inversion of lowland society nor a world apart with respect to Europe. Mathieu's broad historical portrait addresses both the economic and sociopolitical—exploring the relationship between population levels, development, and the Alpine environment, as well as the complex links between agrarian structure, society, and the development of modern civilization. More detailed analysis examines the relationship between various agrarian structures and shifting political configurations, several aspects of family history between the late Middle Ages and the turn of the twentieth century, and exploration of the Savoy, Grisons, and Carinthia regions.

Mathilde Franziska Anneke (1817-1884) Susan L. Piepke 2006 One of the forgotten nineteenth-century women writers, Mathilde Franziska Anneke (1817-1884) was a political activist, writer, and educator who experienced exciting historical times in both Germany and the United States (Wisconsin). Writing on the eve of the German Revolution of 1848, she founded a short-lived revolutionary newspaper and even rode into battle. Later, in exile in the United States, she used her journalistic and oratory skills in support of the women's suffrage and anti-slavery movements. This book is an excellent supplemental reading for women's studies and history classes as well as German literature in translation.

Modeling and Simulation Hans-Joachim Bungartz 2013-10-24 Die Autoren führen auf anschauliche und systematische Weise in die mathematische und informatische Modellierung sowie in die Simulation als universelle Methodik ein. Es geht um Klassen von Modellen und um die Vielfalt an Beschreibungsarten. Aber es geht immer auch darum, wie aus Modellen konkrete Simulationsergebnisse gewonnen werden können. Nach einem kompakten Repetitorium zum benötigten mathematischen Apparat wird das Konzept anhand von Szenarien u. a. aus den Bereichen „Spielen - entscheiden - planen“ und „Physik im Rechner“ umgesetzt.

Das frühe Persien Josef Wiesehöfer 2009 Josef Wiesehöfer bietet eine farbige, klare und informative Schilderung der Geschichte, Gesellschaft und Kultur des antiken Persiens. Ein besonderer Reiz dieser leicht lesbaren Darstellung liegt darin, dass sie auf umfangreichen Studien der persischen Quellen fusst. Es ist aber noch gar nicht lange her, da wurde die Geschichte des antiken Persiens aus einer rein europäischen Perspektive erzählt. Die Gründe dafür lagen vor allem in der nur wenig verbreiteten Kenntnis des Alt- und Mittelpersischen, die für die Lektüre der Überlieferung in der Landessprache erforderlich gewesen wäre. Aber warum sollte man diese Sprachen auch lernen - wusste man sich doch als Europäer auf der 'Siegerseite' in jener grossen Konfrontation im ersten Viertel des 5. Jahrhunderts v. Chr., als die Griechen die persischen Invasionsversuche abgewehrt hatten? Geschichtsschreibung war und ist eben bis heute nur allzu häufig die Geschichtsschreibung der Sieger ... Diese Einstellung führte zu einer bedauerlichen Vernachlässigung in der Erforschung, zumindest aber zu grossen Lücken in unserer Kenntnis der Geschichte und der reichen Kultur eines der bedeutendsten Völker des Alten Orients. Deshalb soll nun der vorliegende Band einem breiten Leserkreis einen Überblick über die mehr als tausendjährige historische und kulturelle Entwicklung des antiken Persiens von den Anfängen der antiken Weltmacht bis zum Auftreten des Islam vermitteln. Josef Wiesehöfer lehrt als Professor für Alte Geschichte an der Christian-Albrechts-Universität zu Kiel; er ist ein vielfach ausgewiesener Spezialist für die Erforschung des antiken Persiens. Im Verlag C.H. Beck ist von ihm lieferbar: Die 'dunklen Jahrhunderte' der Persis. Untersuchungen zu Geschichte und Kultur von Fars in frühhellenistischer Zeit (330-140 v. Chr.), Zetemata 90, 1994.

European Monarchies from 1814 to 1906 Volker Sellin 2017-04-10 The year 2014 sees the 200th anniversary of Napoleon's downfall - and the restoration of the French monarchy under the house of Bourbon. With this as a starting point, Volker Sellin shows how the European monarchies restored and prolonged their reigns by giving their countries constitutions. This new angle results in an astonishing history of the 19th century in Europe from Spain to Russia.
