Grey Bees Andrey Kurkov 2022-04-19 With a warm yet political humor, Ukraine's most famous novelist presents a balanced and illuminating portrait of modern conflict. Little Starhorodivka, a village of three

streets, lies in Ukraine's Grey Zone, the no-man's-land between loyalist and separatist forces. Thanks to the lukewarm war of sporadic violence and constant propaganda that has been dragging on for years, only two residents remain: retired safety inspector turned beekeeper Sergey Sergeyich and Pashka, a rival from his schooldays. With little food and no electricity, under constant threat of bombardment, Sergeyich's one remaining pleasure is his bees. As spring approaches, he knows he must take them far from the Grey Zone so they can collect their pollen in peace. This simple mission on their behalf introduces him to combatants and civilians on both sides of the battle lines: loyalists, separatists, Russian occupiers and Crimean Tatars. Wherever he goes, Sergeyich's childlike simplicity and strong moral compass disarm everyone he meets. But could these qualities be manipulated to serve an unworthy cause, spelling disaster for him, his bees and his country?

Barrier Dynamics and Response to Changing Climate Laura J. Moore 2019-06-06 This book presents chapters, written by leading coastal scientists, which collectively depict the current understanding of the processes that shape barrier islands and barrier spits, with an emphasis on the response of these landforms to changing conditions. A majority of the world's population lives along the coast at the dynamic intersection between terrestrial and marine ecosystems and landscapes. As narrow, low-lying landforms, barriers are especially vulnerable to changes in sea level, storminess, the geographic distribution of grass species, and the rate of sand supply—some barriers will undergo rapid changes in state (e.g., from landward migrating to disintegrating), on human time scales. Attempts by humans to prevent change can hasten the loss of these landforms, threatening their continued existence as well as the recreational, financial and ecosystem service benefits they provide. Understanding the processes and interactions that drive landscape response to climate change and human actions is essential to adaptation. As managers and governments struggle to plan for the future along low-lying coasts worldwide, and scientists conduct research that provides useful guidance, this volume offers a much-needed compilation for these groups, as well as a window into the science of barrier dynamics for anyone who is generally interested in the impacts of a changing world on coastal environments.

Bond Cocktails Katherine Bebo 2015-04-09 Everyone knows that James Bond prefers an alcoholic drink to a soft drink. In fact, he even goes as far as deriding tea as 'mud' and blaming it for the collapse of the British Empire. Although it's the legendary Vodka Martini that he's best known for, he also orders many classic cocktails, including an Old-Fashioned, an Americano and a Negroni, all of which appear in this book. Bond also effortlessly creates his own drink in 'Casino Royale': 'Three measures of Gordon's, one of vodka, half a measure of Kina Lillet. Shake it very well until it's ice-cold, then add a large thin slice of lemon peel. Got it?' And so the Vesper was born, to the delight of bar owners across the globe. However, it's not only cocktails that he's partial to. Bond orders Scotch and soda 21 times in the books, but he's also keen on bourbon and a brandy and ginger ale. So why not raise a glass and toast the health of the world's most-loved, smooth-talking secret agent with one of his favourite drinks.
