**Essays in Christian Mythology** Manuel João Ramos 2006 The work offers detailed analysis and anthropological interpretation of a body of Christian medieval texts, which confirm the existence of a mythological discourse based on the biblical narratives. *Essays in Christian Mythology* focuses on Prester John, an imaginary oriental sovereign fabled to have offered to establish an alliance with the West in order to liberate the Holy Land. This intriguing work reviews the symbolic dualism in medieval Christianity and the symbolic relations between Christ as heir of the Heavenly Kingdom and the Devil as the "Prince of this World."

**The Southern Marches of Imperial Ethiopia** Donham Donald Donham 1986-09-04 This international collection of essays offers a unique approach to the understanding of imperial Ethiopia, out of which the present state was created by the 1974 revolution. After the 1880s, Abyssinia, under Menilek II, expanded its ancient heartland to incorporate vast new territories to the south. Here,

for the first time, these regions are treated as an integral part of the empire. The book opens with an interpretation of nineteenth-century Abyssinia as an African political economy, rather than as a variant on European feudalism, and with an account of the north's impact on peoples of the new south. Case studies from the southern regions follow four by historians and four by anthropologists, each examining aspects of the relationship between imperial rule and local society. In revealing the region's diversity and the relationship of the periphery to the centre, the volume illuminates some of the problems faced by post-revolutionary Ethiopia.

**Jewish Identity** Michael Corinaldi 1998 This book reviews the status of Beta Israel (Ethiopian Jews) through a most recent comprehensive research of the roots of Jewish Identity. The author argues that Jewishness is not determined by scientific and sociological techniques alone, but is a function of halakha (Jewish Law). Consequently, where, as here, "historical truth" is uncertain, it is "halakhic truth" which is definitive for Jews. All of these issues revolve around the crucial question "who is a Jew?" The upsurge of aliyah from Ethiopia reached its peak, as is well-known, with "Operation Moses" in 1984-1985, and with "Operation Solomon" in 1991, rescue airlifts that resonated around the globe. This immigration of 70,000, including the current return of the Falas Mura, has intensified debates on questions concerning the Law of Return.

*Convivial Worlds* Tina Steiner 2021-07-30 This book discovers everyday forms of conviviality in fiction and life writing from Eastern and Southern Africa. It focuses on ordinary moments of recognition, of hospitality, of humour and kindness in everyday life to illuminate the significance of repertoires of repair in a world broken by relations of power. Through close readings of specific capacities of living with difference, the book excavates ideas of world-making, personhood and the possibilities of alternative social imaginaries from African perspectives. It highlights evanescent and more durable attempts at building solidarity across local and translocal settings by focussing on modes of address that invite reciprocity in contexts of injustice, which include Apartheid, colonialism, racism, patriarchy and xenophobia. Putting current research on conviviality in conversation with the literary texts, the book demonstrates how conviviality emerges as an enabling ethical practice, as critique and survival strategy and as embodied lived experience. The volume will be of great interest to scholars and researchers of Literary

and Cultural Studies, especially Postcolonial Literature, African Studies and Indian Ocean Studies.

Infamous Essex Women Dee Gordon 2009-01-01 Here are Essex Girls in a different light to the stereotype of modern public expectation. Murderers, mayhem-makers, swindlers, witches, smugglers and lustful adulteresses have played a part in the darker side of the county's history. From the thirteenth century onwards, Essex has produced more than its fair share of infamous women. Some got their comeuppance, some profited from their infamy and others were misguided, or with the benefit of hindsight, misjudged. The reader will find a plethora of women to hate, ridicule or secretly admire in Dee Gordon's new book. Some of the characters featured here might horrify or mystify, others will provoke empathy or disbelief, but all tales are authenticated by hours of research. Read, learn, squirm - and smile!

African Religions & Philosophy John S. Mbiti 1990 "African Religions and Philosophy" is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa. In this second edition, Dr Mbiti has updated his material to include the involvement of women in religion, and the potential unity to be found in what was once thought to be a mass of quite separate religions. Mbiti adds a new dimension to the understanding of the history, thinking, and life throughout the African continent. Religion is approached from an African point of view but is as accessible to readers who belong to non-African societies as it is to those who have grown up in African nations. Since its first publication, this book has become acknowledged as the standard work in the field of study, and it is essential reading for anyone concerned with African religion, history, philosophy, anthropology or general African studies.

For Our Soul Teshome G. Wagaw 1993 Between 1977 and 1992, practically all Ethiopian Jews migrated to Israel. This mass move followed the 1974 revolution in Ethiopia and its ensuing economic and political upheavals, compounded by the brutality of the military regime and the willingness - after years of refusal - of the Israeli government to receive them as bona fide Jews entitled to immigrate to that country. Based on fieldwork conducted over several years, *For Our Soul* describes the ongoing process of adjustment and absorption that the Ethiopian Jewish immigrants, also known as Falasha or Beta Israel, have experienced in Israel. As the sole black Jewish community from sub-Saharan Africa in Israel, the Ethiopian Jews have met with unique difficulties. Teshome Wagaw examines the problems between the Falasha and Israeli Jews that have resulted from dissimilarities in language, culture, religious practices, education, technology, race, and class. Further, he considers the various conflicts that have arisen in villages, schools, and workplaces as the immigrants have interacted with the larger community. In these contexts, Wagaw analyzes the issues of modernity, work skills and habits, family formation, and methods of presenting self. To further clarify the concerns that have developed among both the immigrants and the Israeli society, the author addresses the history of the Falasha; their religious and occupational practices in Ethiopia; their social, occupational, and religious status in Ethiopia; and the adversity they experienced as they navigated from their homeland to Israel. He also provides a brief but insightful analysis of the history of Israel prior to and since statehood.

*Religion: a Crash Course* ADAM. FORD 2019-07-30 Religions flourish everywhere around the planet, shaping people's lives, providing meaning and spiritual guidance in a perplexing world, giving comfort in times of distress. Divided into 52 sections and grouped into four chapters Religion: A Crash Course takes a geographical approach. It covers the ancient religions that emanate from the Indian subcontinent, such as Hinduism, Buddhism, and Jainism through to the Abrahamic faiths of the Jews, Christians, and Muslims of Arabia and Europe. The third section looks at the way Indian religions found their way to China and Japan, mingling Taoism, Confucianism, and Shinto. Finally, the less well-documented tribal religions of Africa, Australasia, and the Americas are explored as well as recent phenomena in the New World: the Mormons, Rastafarians, and Pentecostals.

**Ashgate Critical Essays on Women Writers in England, 1550-1700** Clare R. Kinney 2017-05-15 The last twenty-five years have seen exciting new developments in scholarly work on Lady Mary Wroth, whose *Urania* and *Pamphilia to Amphilanthus* constitute the first romance and the first sonnet sequence to be published by an Englishwoman. Wroth's writings enter into a suggestive and gendered dialogue with the lyric and narrative works of her uncle, Sir Philip Sidney, even as they carve out a place for her own literary experiments. This volume gathers together some of the most striking recent criticism addressing Wroth's oeuvre; many of its essays also discuss the intellectual and cultural contexts in which she wrote. The collection is prefaced by an extended editorial overview of scholarship in the field.

*History of Humanity: From the seventh century B.C. to the seventh century A.D.* Sigfried J. de Laet 1996-01-01 The period covered is marked by several turning-points, such as the spread of iron technology, the introduction of innovative irrigation systems and the development of new forms of urbanization. In China, India and the Mediterranean, in Central America and in parts of South America, the so-called 'Classical cultures' rose. For the first time, science attempted to develop independently of myth and religion, as a new method to explain nature and human destiny. But this period also witnessed the rise of universal religions such as Buddhism, Hinduism, Christianity and, in the seventh century, Islam.
