The Black Jacobins Reader Charles Forsdick 2017-01-06 Containing a wealth of new scholarship and rare primary documents, The Black Jacobins Reader provides a comprehensive analysis of C. L. R. James's classic history of the Haitian Revolution. In addition to considering the book's literary qualities and its role in James's emergence as a writer and thinker, the contributors discuss its production, context, and enduring importance in relation to debates about decolonization, globalization, postcolonialism, and the emergence of neocolonial modernity. The Reader also includes the reflections of activists and novelists on the book's influence and a transcript of James's 1970 interview with Studs Terkel. Contributors. Media Laboratories Sarah Ann Wells 2017-02-15 Media Laboratories explores a pivotal time for South American literature of the 1930s and '40s. Cinema, radio, and the typewriter, once seen as promising catalysts for new kinds of writing, began to be challenged by authors, workers, and the public. What happens when media no longer seem novel and potentially democratic but rather consolidated and dominant? Moving among authors from Brazil, Argentina, and Uruguay, and among the genres of fiction, the essay, popular journalism, and experimental little magazines, Sarah Ann Wells shows how writers on the periphery of global modernity were fashioning alternative approaches to these media. Analyzing authors such as Clarice Lispector, Jorge Luis Borges, and Felisberto Hernández, along with their lesser-known contemporaries, Media Laboratories casts a wide net: from spectators of Hollywood and Soviet montage films, to inventors of imaginary media, to proletarian typists who embodied the machine-human encounters of the period. The text navigates contemporary scholarly and popular debates about the relationship of literature to technological innovation, media archaeology, sound studies, populism, and global modernisms. Ultimately, Wells underscores a question that remains relevant: what possibilities emerge when the enthusiasm for new media has been replaced by anxiety over their potentially pernicious effects in a globalizing, yet vastly unequal, world?

Brazil Stephen Kanitz 1995 Is your company ready to take advantage of the new growth cycle that is beginning in Brazil and should last the next ten years? Few Brazilian experts are as qualified to answer this question as the author of this book, Stephen Charles Kanitz. The original version of this book, written in Portuguese, became a best seller in Brazil only a month after publication. A Harvard MBA, Professor Kanitz is the editor of the Brazilian equivalent of Fortune 500, the 'Best and Biggest' yearbook published by Exame, Brazil's leading business magazine. As long ago as 1984, Professor Kanitz predicted the recession then awaiting the Brazilian economy. He is no intrinsic optimist. In this book, buttressed with masses of data, figures and examples, Professor Kanitz shows that the years of stagnation have been left behind. To take maximum advantage of this new economic boom, before competitors do, you must become aware that Brazil is ready for a new surge of growth, which will be similar in many respects to the 'economic miracle' of the seventies.

The Journey of Adulthood Barbara R. Bjorklund 2008 This best-selling book discusses the aspects of "successful aging," covering growth and development from young adulthood to old age, and the impact that culture, gender, and individual differences have on these processes. Its conversational and positive tone keeps readers interested in the subject matter, as it encourages them to apply the concepts of the book to their own lives. It presents research findings, theories, and models from the fields of developmental psychology, social psychology, health psychology, sociology, and others to discuss topics of prevention, compensation, gains, and losses. For psychologists, sociologists, and gerontologists interested in a valuable resource for information about the aging process.

Nabokov Upside Down Brian Boyd 2017-02-15 Nabokov Upside Down brings together essays that

explicitly diverge from conventional topics and points of reference when interpreting a writer whose influence on contemporary literature is unrivaled. Scholars from around the world here read Nabokov in terms of bodies rather than minds, belly-laugh rather than erudite wit, servants rather than master-artists, or Asian rather than Western perspectives. The first part of the volume is dedicated to surveys of Nabokov's oeuvre that transform some long-held assumptions concerning the nature of and significance of his work. Often thought of as among the most cerebral of artists, Nabokov comes across in these essays as profoundly aware of the physical world, as evidenced by his masterly representation of physical movement, his bawdy humor, and his attention to gustatory pleasure, among other aspects of his writing. The volume's second half focuses on individual works or phases in Nabokov's career, noting connections among them as well as to other fields of inquiry beyond literature. Engaged in conversation with each other and, in his editorial comments, with Brian Boyd, the essays in this volume show Nabokov scholarship continuing to renew itself.

The Psychology of Reading Alan Kennedy 2017-11-06 Originally published in 1984, this new introductory text fulfilled a need amongst both psychology and education students for a book which dealt with reading in a way that explored areas beyond the strictly practical question of how to teach children to read. Previous books on the psychology of reading had often concentrated on the analytic approach, in which reading had been seen in terms of a set of interconnected sub-skills and the experimental study of these components had become an end in itself. As a result, although great advances had been made in our understanding of certain aspects of the process, psychological studies of reading had increasingly been seen by teachers and others as unduly abstract. *The Psychology of Reading* goes back to first principles and attempts to set reading in its context alongside other cognitive activities, particularly those involving memory and perceptual processes. Professor Kennedy argues that it is wrong to set reading apart as a 'skill' when it needs to be understood against a background of work in cognitive psychology. Reading is a social phenomenon concerned with human communication, and in this context it must be seen in terms of an interaction between writer and reader. The book explores the nature of this interaction and the various stylistic and other devices which sustain the 'contract' between reader and writer. In particular, the psychological processes which allow a reader to make sensible assumptions about a writer's intentions are dealt with in detail. No theory of reading, the author argues, should ignore the purpose of the enterprise. Similarly, explaining success and failure in teaching children to read may well hinge on an understanding of what children think reading is about. The style of this book is concise and largely non-technical. *The Psychology of Reading* will be welcomed as stimulating and demanding by experts and non-specialist general readers alike.

Essays on Political Economy Nobuo Okishio 1993 Though most of his work has been published in Japan so far, Professor Okishio's articles have had a great impact on the discussion in mathematical economics in the world. This is in particular true for his publications on Marxian Economics. Here, Professor Okishio has provoked ongoing discussion on the fundamentals of the 'Labor Theory of Value', on the controversy over the 'Falling Rate of Profit' and on numerous more detailed subjects of Marxian Mathematical Economics. In addition to this central theme of his work Professor Okishio has also published important articles on quite different topics of economic theorizing.

Intimate Relations Krupa Shandilya 2017-01-15 *Intimate Relations* remaps the discussion on gender and the nation in South Asia through a close study of the domestic novel as a literary genre and a tool for social reform. As a product of the intersection of literary and social reform movements, in the late nineteenth century the domestic novel became a site for literary innovation and also for rethinking women's roles in society and politics. Krupa Shandilya focuses primarily on social reform movements that negotiated the intimate relations between men and women in Hindu and Muslim society, namely, the widow remarriage act in Bengal (1856) and the education of women promoted by the Aligarh movement (1858–1900). Both movements were invested in recovering woman as a “respectable” subject for the Hindu and Muslim nation, where respectability connoted asexual spirituality. While most South Asian literary scholarship has focused on a normative Hindu woman, *Intimate Relations* couples discussion of the representation of the widow in bhadralok (upper-caste, middle-class) society with that of the courtesan of sharif (upper-class, Muslim, feudal) society in Bengali and Urdu novels from the 1880s to the 1920s. By drawing together their disparate histories in the context of contemporaneous social reform movements, Shandilya reflects on the similarities of Hindu and Islamic constructions of the gendered nation.

We All Fall Down Robert Cormier 2013-03-19 Buddy Walker is troubled by his parent's recent divorce, and when Harry Flowers suggests a prank, he goes along, just for opportunity to do something different. He doesn't realize that someone is watching. When Jane Jerome's house is trashed, and sister brutally injured in a home invasion, she struggles to continue with her life as her family falls apart. The Avenger

has witnessed reckless evil. He has killed before and knows that he just needs to wait until the time is right before he can take his revenge. Robert Cormier once again sheds light on the conflict between good and evil and the dark side of human nature. In his classic style, each character's point of view is revealed invoking both sympathy and horror while showing the complexities of the psyche.

Calls from the Past Zoltan Paul Dienes 2003 This collection of poems describes events that have taken place during the author's life. The first group of autobiographical poems includes the author's experiences as a refugee in Austria and Hungary, his move to England, and his schooldays and holidays. The second section provides some insights into the author's feelings for his beloved wife, Tessa. There are a number of poems that are intended to make the reader laugh at some of the absurd things that we take for granted. A few poems refer to the difficulties that some children have in trying to understand mathematics because of the way that it is taught, and give examples of fun ways of teaching it. Finally, there are poems that aim to make the reader think more deeply about the world in which we live; the beauty of the ever-changing seasons; reason and spirit; the meaning of life; hearing God's voice; and walking with God.

City of Bones Kwame Dawes 2017-01-15 As if convinced that all divination of the future is somehow a re-visioning of the past, Kwame Dawes reminds us of the clairvoyance of haunting. The lyric poems in *City of Bones: A Testament* constitute a restless jeremiad for our times, and Dawes's inimitable voice peoples this collection with multitudes of souls urgently and forcefully singing, shouting, groaning, and dreaming about the African diasporic present and future. As the twentieth collection in the poet's hallmarked career, *City of Bones* reaches a pinnacle, adding another chapter to the grand narrative of invention and discovery cradled in the art of empathy that has defined his prodigious body of work. Dawes's formal mastery is matched only by the precision of his insights into what is at stake in our lives today. These poems are shot through with music from the drum to reggae to the blues to jazz to gospel, proving that Dawes is the ambassador of words and worlds.

Boomtown Saloons Kelly J. Dixon 2006-12-01 The image of Old West saloons as sites of violence and raucous entertainment has been perpetuated by film and legend, but the true story of such establishments is far more complex. In *Boomtown Saloons*, archaeologist Kelly J. Dixon recounts the excavation of four historic saloon sites in Nevada's Virginia City, one of the West's most important boomtowns, and shows how the physical traces of this handful of disparate drinking places offer a new perspective on authentic life in the mining West. During the second half of the nineteenth century, the Comstock Lode's mineral wealth attracted people from all over the world. At its peak, Virginia City had a cosmopolitan population of over 20,000 people. Like people everywhere, they sought to pass their leisure time in congenial company, often in one or another of the four saloons studied here. Dixon's account of the role these four establishments played in the social and economic life of Virginia City offers keen insight into the businesses and people who made up the backdrop of a mining boomtown. The saloons in this study were

quieter than legend would have us believe; they served relatively distinct groups and offered their customers a place of refuge, solidarity, and social contact with peers in a city where few people had longtime ties or initially any close contacts. Boomtown Saloons also offers an equally vivid portrait of the modern historical archaeologist who combines time-honored digging, reconstruction, and analysis methods with such cutting-edge technology as DNA analysis of saliva traces on a 150-year-old pipestem and chemical analysis of the residue in discarded condiment bottles. The book is illustrated with historical photographs and maps, as well as photographs of artifacts uncovered during the excavations of the four sites. Dixon's sparkling text and thoughtful interpretation of evidence reveal an unknown aspect of daily life in one of the West's most storied boomtowns and demonstrate that, contrary to legend, the traditional western saloon served an vital and complex social role in its community. Available in hardcover and paperback.
